Seams Guaranteed for a Lifetime!

To Outlast All Fabrics . . . or we'll Repair it Free!

50,000 REASONS TO CHOOSE TAYLOR MADE

The average boat cover contains 50,000 stitches. The strength of any boat cover or bimini top is only as good as its weakest stitch. Seams are the #1 failure point and if even one fails the integrity of the entire product is compromised.

Ordinary polyester thread fibers break down over time due to exposure to UV sunlight, cleaning agents, saltwater and extreme weather. Taylor Made Trailerite® Boat Covers and Bimini BoaTops® featuring GORE®TENARA® Sewing Thread are not affected by these agents.

Taylor Made is the first and only national manufacturer to introduce GORE®TENARA® Sewing Thread in all our Hot Shot and Ultima Trailerite® Boat Covers and Bimini BoaTops®. In combination with our durable, mildew and UV resistant Hot Shot™ and Ultima™ fabric your cover or bimini top is sure to maintain its strength and beauty for years to come.

By incorporating GORE®TENARA® Sewing Thread into Taylor Made covers and bimini tops, it gives unmatched strength in all our seams. This ensures that all our seams will last the fabric's lifetime and we guarantee it. If the seams fail before the fabric does, we will repair it, FREE!

Trailerite®

Boat Covers & Bimini BoaTops®

Seams that Feature GORE®TENARA®
Sewing Thread:

- WILL OUTLAST the material it is sewn into
- WILL NOT stain
- WILL NOT mold
- WILL NOT mildew
- WILL NOT discolor from sun exposure

Welcome to our new 2011 Taylor Made Products Catalog! For over a century, Taylor Made has been very proud to offer a wide range of high quality and innovative products and services to the boating community. This year, we are continuing that tradition by exclusively introducing the use of Gore® Tenara® Sewing Thread in all our Hot Shot™ and Ultima™ fabric Trailerite® Boat Covers and Bimini BoatTops®.

An industry-first, the Taylor Made and Gore® Tenara® partnership will combine to offer the highest quality boat covers and bimini tops on the market and sets a New Standard in Quality and Performance. Taylor Made Trailerite® boat covers, now sewn exclusively with Gore® Tenara® Sewing Thread, are the only true choice for any boater looking to protect their boat for years to come. We are so confident in the performance of Taylor Made covers and bimini's featuring Gore® Tenara® Sewing Thread that we are offering another industry-first - Seams Guaranteed for a Lifetime...to Outlast the Fabric, or we'll Repair it Free!

And now, all Taylor Made covers ship within 24 hours of the receipt of the order! Our *Boat Cover 24* program ensures that you and your customers get the best service in the industry along with the best quality cover available on the market.

Thank you for your continued support and trust in Taylor Made. We work everyday to continue to earn that trust and look forward to doing so again in 2011!

Happy Boating,

Jason Pajonk-Taylor

Survivor® Inflatable Vinyl Fenders

With **INFUSION™** Pump

Survivor® fenders provide a new level of protection for your boat. Lab-tested for durability and performance, these fenders feature an innovative reinforced design and heavy-duty construction so they absorb collision better and last longer than standard fenders. In addition, with our exclusive built-in Micro Pump™, these fenders have the advantage of being able to be inflated anytime, anywhere, without removing the fender or having to use additional pumps, needles or adapters. The Micro Pump™ is not only convenient, but helps keep your boat free from damage by keeping fenders properly inflated. Concealed pump pops out any time you need to add air, and locks in place when not in use. Choose from Survivor® Twin-Eye fenders with tough, reinforced eyelets on either end or Survivor® CRT fenders, which are designed with a 3/4" diameter Center-Rope-Tube for either horizontal or vertical deployment.

With the Exclusive Built-in Micro Pump™!

The Micro Pump™ is a fine tuning device that adds air pressure in small amounts, so your fender is never under inflated and always ready!

Raised diamond ribs help eliminate roll.

Survivor® Twin-Eye Fenders

White

Blue

Stock No.	Stock No.	D x L Size	Boat Size*	Case Qty.
#850622	#851622	6-1/2" x 22"	20' to 25'	6
#850824	#851824	8-1/2" x 26"	25' to 35'	4
#850128	#851128	10-1/2" x 30"	35' to 50'	2

Recommended inflation is 2 psi.

* The most accurate way to select the right fender for your boat is to survey your docking area to find out what fender is in use for the same size and weight as your boat, in terms of fender dimensions and quantities, and use that as a guideline.

Double reinforced ears for added durability.

INFUSION™

Add Air Anytime, Anywhere!

A 3/4" diameter center hole accepts a heavy line for securing the fender.

Integrated wrap-around ribs strengthen the fender.

Super Gard™ Inflatable Vinyl Fenders

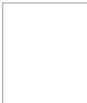

Double molded black ends
for added strength.

Rubber football needle valve
for easy inflation and long life.

Eye hole accepts
rope size up to 5/8"

Taylor Made Products has incorporated the latest in technology, design innovation, and attention to detail to bring you the finest looking, top performing protection for your dollar. Super Gard™ fenders are in a class of their own. Made from the highest quality marine grade vinyl, Super Gards™ feature a High gloss finish and double molded black ends for extra strength where you need it the most. Seamless one-piece construction with ribbed sides minimizes roll, and a molded-in valve ensures easy inflation and long life.

Hull Gard® Inflatable Vinyl Fenders

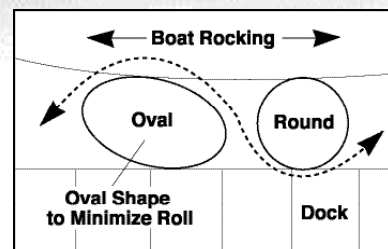

Reinforced molded-in eyelets

Rubber football needle valve for easy inflation and long life.

Valve seats are integrally molded into the fender, not glued in like the competition.

The finest utility fender on the market, Hull Gards® feature a unique oval design that prevents the fender from rolling out of position. The Hull Gard® combines unsurpassed softness and superior strength to provide boaters with the maximum protection available from a utility fender. All six sizes feature inflation valves to adjust the level of firmness to satisfy all applications.

The Guarantee of a Lifetime!
Against Splitting or Bursting... If it fails we'll replace it!

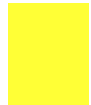

Marine grade vinyl lasts years in the sun.

Rubber football needle valve for easy inflation and long life.

3/4" diameter center hole accepts up to 5/8" diameter rope for securing the fender.

The versatile Big B™ fender incorporates a Center Rope Tube that allows end-to-end line passage. It can be hung vertically or horizontally with a single line. Horizontal hanging is useful protection against pilings, awkward docking situations, and tidal change areas. Big B™ inflatable vinyl fenders feature seamless construction, with molded ribs to minimize roll. Big B's are made from the highest quality marine grade vinyl with a high gloss finish. Available in four sizes to fit a full range of boat sizes.

Fenders

Tuff End™ fenders are for heavy duty marine applications. Constructed from the same flexible, resilient vinyl as our Super Gard, Big B, and Hull Gard fenders, the end in each Tuff End is injection molded for extra strength and reliability. Tuff Ends are designed to perform under the most demanding conditions.

Tuff End™ fenders feature seamless construction, the strongest in the industry!

Recommended inflation is 2 psi.

* The most accurate way to select the right fender for your boat is to survey your docking area to find out what fender is in use for the same size and weight of boat, in terms of fender dimensions and quantities, and use that as a guideline.

Fender Cushions™

CAUTION: The Fender Cushions must never be used as life saving devices.

The only fender specifically designed for maximum protection when rafting or tying up against solid walls. This unique rectangular cushion will provide greater protection from boats jarring into each other than conventional fenders. Six molded tubes provide crush resistance, and the exclusive channel design lends itself to “hugging” the boat. Fender Cushions™ are made from tough marine grade vinyl and feature an inflation valve for air pressure adjustment. Fender Cushions™ may be hung vertically or horizontally. They make great piling cushions and are extremely comfortable as seat cushions.

3 Sizes to Fit All Boats

#46090	15"	15"	6-1/2"
#46095	20"	20"	7-5/8"
#46100	26"	26"	9-5/8"

U.S. Patent #5,013,272. Design Patent #318,312.

Low Freeboard Fenders

The first boat fender to address the needs of low freeboard boats. Shaped to protect the gunwales and rubrail, the Low Freeboard fender offers superior protection compared to regular fenders against high docks. Low Freeboard fenders can be tied over the cleat to position it higher on the boat, putting protection where it is needed. Made from specially formulated tough marine grade vinyl and features an inflation valve for air pressure adjustment. Standard size measures 14" long and larger size measures 23" long for increased hull protection.

U.S. Patent #5,671,692

Classic Mermaid Fenders

No boat is complete without the lady on board. Made from soft white vinyl with inflation valve.

Stock No. #34444 Approx. size 5" x 22"

Specialty Fenders & Buoys

Transom Fender

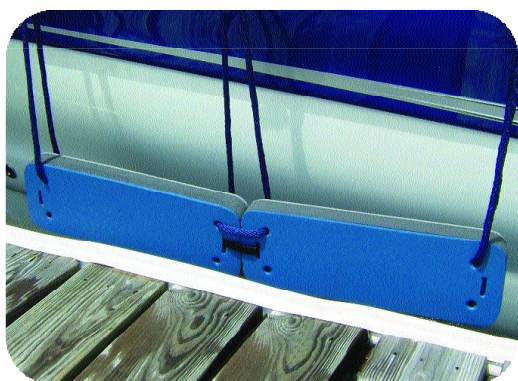

Uniquely shaped to fit the stern of a sailboat or the edge of most swim platforms up to 4" thick. An integral 3/4" diameter tube allows a securing line to pass from end to end while a contoured shape helps 'grip' the fendering location. Made from soft, flexible vinyl. Rubber football inflation valve to adjust the level of firmness to satisfy all applications.

Stock No.	Size
#56090	10" x 22"

U.S. Patent #6,477,973

Modular Flat Fenders

Made from closed cell EVA, these fenders will not puncture or absorb water. Their flat design keeps them from rolling or riding up. They can be fastened together with our hook and loop strap to create a modular system. Easy to store, these fenders can also double as a knee pad or seat cushion.

Stock No.	Color	Size (LxWxD)
#311	Blue	20" x 8" x 2"
#313	Gray	20" x 8" x 2"
#314	Blue	24" x 12" x 3"
#316	Gray	24" x 12" x 3"
#317	Blue	36" x 12" x 3"
#318	Gray	36" x 12" x 3"

PWC Fender

Designed to custom fit the profile of most PWCs. The fender bottom is shaped to "hook" under the bond flange for quick attachment. Flex areas on the fender provide a "hinge" action that allows the fender to conform to the shape of the watercraft. The PWC fender features an inflation valve for air pressure adjustment and includes a suction cup and securing line.

Custom Logo Promotional Fenders

Put your logo where it will be noticed, on the #1 selling Fenders in America! Logo's can be pad printed, or be designed on a specially made molded-in decal label. Only Taylor Made Products can offer you the opportunity to have your logo on the fenders you sell. Camera ready artwork is required, and minimums apply to each logo process. Typical fender choices for logo process include Hull Gards and Big B's. Ask your Taylor Made Products sales representative for more details and ordering information.

Freedom Fenders - The Worlds Only Self-Centering Fender

U.S. Patent #6,435,122 U.S. Patent #D452466

Stays on pilings no matter which way the boat moves!

Rotationally molded from heavy gauge PVC, freedom fenders feature a needle valve for easy inflation. The patented V shape stays on pilings no matter which way the boat moves. The recessed line holders allow them to fit standard fender racks. Hang them vertically or horizontally for the ultimate in versatility whether docking on pilings, floating docks or mooring!

Stock No.	Color	Length x Dia.	Boat Size
#FF4818B	Black	48" x 18"	70'-100'
#FF4818G	Gray	48" x 18"	70'-100'
#FF5825B	Black	58" x 25"	100'-200'
#FF5825G	Gray	58" x 25"	100'-200'

Deflates by simply opening the valve and rolling up the fender. Once rolled up they can be stowed almost anywhere!

Hang them vertically or horizontally!

Water Ski Marker Buoys

Made from PVC these lightweight but durable inflatable buoys will mark your slalom course in accordance with the AWSA specifications (American Water Ski Association.) Each buoy has a molded-in loop to fasten anchor line and contains an inflation valve for air pressure adjustment. Buoys are 9" in diameter.

Green Stock No.	Red Stock No.	Yellow Stock No.	Approx. Buoyancy (lbs.)

Personal Watercraft Buoys

This multi-use rugged float can be used as a pick-up buoy, marker buoy, or fender. Makes a great marker for water ski events and can be used as a fender for personal watercraft. Available in white or high visibility fluorescent colors. Taylor's unique double color system incorporates a "back-up" color that resists fading. Taylor's fluorescents will retain their color long after the competition's has faded away. Buoys measure 8" diameter with an approximate buoyancy of 8 lbs.

Premium Fender Covers

Covers are knit from heavy weight, high tenacity solution dyed nylon yarn that stands up to sunlight, abrasion and harsh environments. The fabric is a circular knit construction to eliminate lateral seams (that can fail due to the added friction) and has a high degree of elasticity to maintain its shape and ensure a nice tight fit to your fender. The covers are secured, both top and bottom, with an adjustable, high strength polypropylene rope that keeps the cover in place yet allows for easy removal for cleaning. By combining superior fabric with these excellent construction features, Taylor delivers a fender cover that won't fail after only a season or two, but will look great and provide lasting protection for many years.

Tidy-Ups™ Fender Adjuster Kits - To Match Taylor Made® True Color™ Fenders

The finest looking, top performing fender adjusters available. New Tidy-Ups™ Kits include (1) Tidy-Ups™ Fender Adjuster and (6) feet of 3/8" solid braid polypropylene rope. Made from high quality marine grade components, they are quick and easy to use. Simply snap adjuster over your lifeline, railing, or stanchion and set fender height in an instant. Polypropylene rope is color matched to your Taylor fender (available in 8 colors). It will not fade or kink, and is mildew and rot resistant. A pre-spliced and professionally finished end allows your fender to be tightly secured without hard to untie knots.

Fender Accessories

Vertical Rail Fender Hanger

Finally a fender hanger for vertical rails! Made of tough nylon, this fender hanger attaches to rails 7/8" to 1" diameter with 2 screws and then grips the fender rope with its heavy duty teeth making rafting and docking easier than ever. Accepts rope size up to 5/8".

Stock No. #1099

Quick Knot™ Fender Hanger

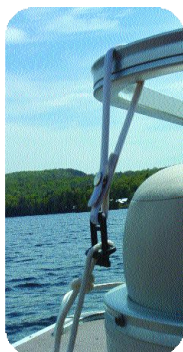

Tired of tying knots? This easy to use fender hanger allows the quick placement of fenders anywhere there is something to tie off to, without having to tie a knot. The rope is threaded through the quick knot's heavy duty molded nylon system, hanging the fender quickly and securely. No need to waste time with cumbersome and unsecured knots! Perfect for 1/4" rope.

Stock No. #1098 - sold 4 per pack

Rail Mount Fender Hanger

Universal mounting and easily adjustable fender hanger. Durable PVC mounting band snaps over any rail, lifeline or stanchion. Slide hanging rope through adjusting buckle, loop rope back and pull down to secure. To adjust, pull up on buckle and pull rope to desired length.

Stock No. #1007

Line Hanger

Keep loose lines and power cords neatly in place. Durable PVC mounting band snaps over any rail, lifeline or stanchion. Snap the bottom section around your coil of rope or cord to secure. Measures 9 1/2" in length.

Stock No. #1006

Ratcheting Fender Hanger

Constructed from 3/4" polyester webbing with UV protection. This unique hanger allows you to adjust your fender height from 6" to 24". Simply loop the strap over any size rail or lifeline, feed end of strap through fender eye or tube and pull strap through buckle to desired length. Slide tab into release buckle until you reach the tightness around your rail or lifeline that you desire.

Stock No. #1089

Rail Fender Hanger

Made from injection molded, high impact and UV- resistant nylon. This unique design makes it easy to adjust fender heights and locks in place with a jam cleat - no knots. Uses 1/4" to 1/2" line.

- Finger tip adjusting
- Durable
- Flexible
- No moving parts
- Secure

Stock No. Description

#1108 Fits up to 1" rails

#1109 Fits up to 1 1/4" rails

Clothes Claws™ Boaters' Clothespin

- Fits all 7/8" to 1" tubular railings.
- Has incredible holding power.
- High quality plastic molded with UV inhibitors.
- One-piece construction is unbreakable under normal use.

Stock No. Description

#1650 Clothespins (4 per pack)

#1651 Display box with 48 pieces

Unaffected by saltwater.
Plus...it floats!

Hand Pump with Hose Adapter

- Compact hand pump for filling fenders, rafts, etc.

Stock No. Description

#1005 Hand pump with hose adapter

#31010 Pack of 3 inflation needles

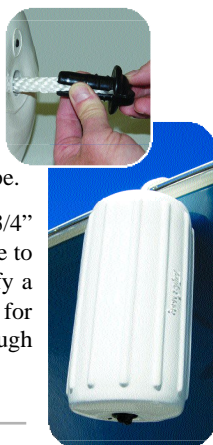

Big B™ Fender Hanger

- Injection molded reinforced nylon for strength.
- Vented to prevent water accumulating in fender tube.
- Professional “finished” look.
- Fits 3/8” diameter rope.

Designed for use on Taylor Made fenders with 3/4” I.D. tubing. Maybe used on other brands; but due to variation among brands the consumer must verify a tight enough fit between the tube and product for proper function (Center tube must be small enough to keep the product halves firmly together).

Stock No. #1085 - Sold three (3) per pack

Stock No. #11085 - Table top merchandiser (36 pk.)

Hook & Loop Fender Strap

- A quick easy way to adjust the height of your fenders!.
- Simply loop through fender, pull strap through, buckle to desired length and secure.
- Made from 3/4” Polyester webbing with UV protection and marine grade Hook & Loop fasteners.

Stock No. #1094 Length: 36” (sold in pairs)

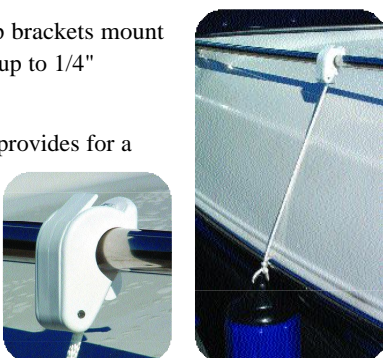

Stock No. #1095 Length: 60” (sold individually)

Rail/Lifeline Fender Bracket

- Injection molded nylon clamp brackets mount securely to 7/8"-1" railings or up to 1/4" lifelines.
- Double locking clamp design provides for a quick and easy fender height adjustment.
- Use on 1/4"- 5/16" Rope
- Sold in pairs

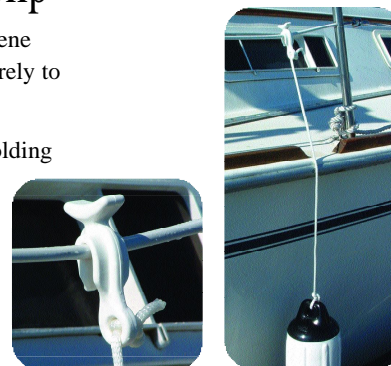

Stock No. #1097

Lifeline Fender Clip

- Injection molded polyethylene clamp brackets mount securely to your 3/16" to 1/4" lifelines.
- Use for hanging fenders, holding power cords etc...
- Use on 3/16"- 1/4" Rope
- Sold in pairs

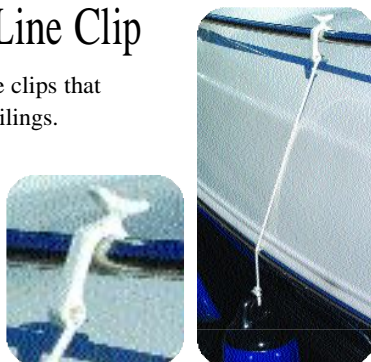

Stock No. #1096

Rail Mount Fender Line Clip

- Injection molded polyethylene clips that mount securely to your 7/8" railings.
- Use for hanging fenders, holding power cords etc...
- Sold in pairs

Stock No. #1093

No Knot™ Fender Hanger

No more need for knots in your lines! The No Knot Heavy duty marine nylon fender hanger keeps your fender in place with a simple system. Just attach the rope over the rail, and weave it through the gripper teeth. Your boat is safe and fender protected without using knots.

Stock No. #1105

1/2" Stainless Steel Fender Lock

Taylor Made Products has designed a larger version of it's best selling 1010 Fender Adjuster. Stainless Steel construction, adjustment peg, and fastening screws ensure many years of dependable service in the harsh marine environment. The “one-way” locking peg provides secure and reliable mounting and allows the use of up to 1/2" diameter rope. Mounting hardware included. Sold individually.

Stock No. #1001

Stainless Steel 1/2" Fender Lock & Peg

Traditional Stainless Steel Fender Lock

- These low profile fender lock bases make hanging fenders fast and easy.
- Available with fixed or adjustable fender pegs. Mounting screws included.
- Accepts rope sizes up to 1/4"

Stock No.	Description
#1010	One lock and peg
#1009	Extra peg
#32115	Adjustable fender lock set
#32116	Adjustable peg only

All Rings Meet USCG Approval - For Both Recreational And Commercial Use

Life Rings

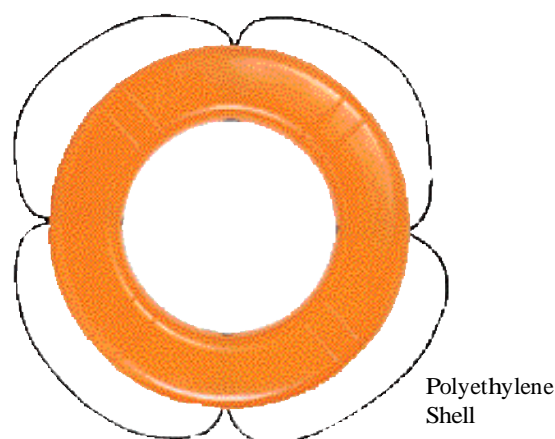

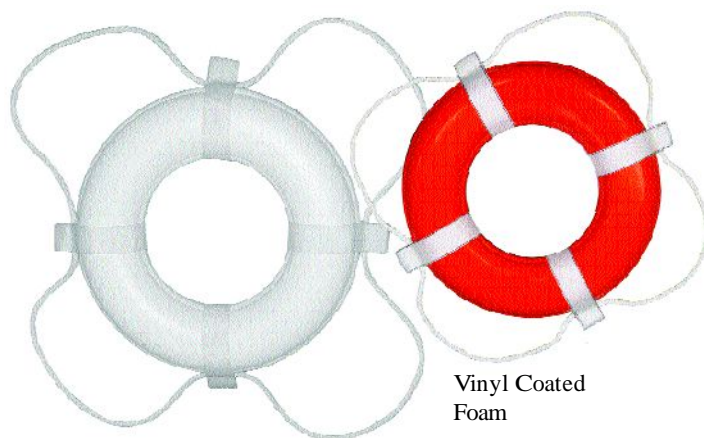

Inspected and tested in accordance with U.S. Coast Guard regulations. All rings contain unicellular polyurethane foam for buoyancy. Floating polypropylene grab lines contain UV stabilizers to enhance sunlight resistance. PE and vinyl skin versions feature molded-in becket design, vinyl coated foam versions use sewn becket to secure grab line. Choose between energy absorbent vinyl skin, vinyl coated foam, or tough, hard shell polyethylene skin. SOLAS approved models equipped with reflective tape.

Eco Blast™ Rechargeable Air Horn and Kit

Just pump in new air! The refill valve of the Eco Blast air horn lets you recharge using a Taylor Made® Mini Air Pump or any bicycle pump, service station air pump or air compressor. In seconds, Eco Blast is again ready to emit a powerful 120 db signal that meets all U.S.C.G. requirements. Eco Blast beats out chemical horns, too, because it operates in all weather and temperature extremes...can be safely stored or used near a heat source...works in any position...and leaves no rust rings on surfaces. Plus, with Eco Blast there's no worry about a potentially harmful chemical escaping into the environment.

Stock No.	Description
#616	Eco Blast - horn only
#618	Eco Blast kit (w/Air Horn & Hand Pump)

NEVER buy an expensive refill canister again!

Eco Blast™ Mini Air Pump

Our versatile Mini Air Pump is always handy to have around. Use it to quickly refill your Eco Blast Rechargeable Safety Signal Air Horn. Or to inflate boat fenders, bicycle tires, rafts, water toys and more. The Mini Air Pump comes with two interchangeable valves for adaptability and generates up to 100 psi of pressure. Easy to use, stores anywhere!

Life Ring/Ring Buoy Letter Kit

Now you can customize your life ring with our Taylor Made Lettering kit. Package includes 2" black letters and numbers (4 ea.) plus symbols. Constructed from waterproof marine grade 4 mil vinyl, resistant to fuel, chemicals, fading and scratching. Application template included.

Stock No. #600015

WARNING: The sole purpose of the mooring buoy is to support the mooring chain. The boat should be tied to the anchor chain, never tied to the buoy or hardware.

The sole purpose of the mooring buoy is to support the mooring chain. The two preferred designs for mooring buoys are a traditional buoy with hardware or a buoy with a tube through the center. Both offer reliable flotation and will last for several seasons, depending upon the salinity of the water. Obviously, freshwater applications will extend the useful life of any mooring system.

Once the type of buoy has been selected, the next question is selecting the proper size. Buoy flotation is measured according to the pounds of buoyancy that they provide. A buoy flotation rating is based on the amount of weight that it can suspend while remaining afloat just below the surface of the water. As a general rule, you should select a buoy that offers slightly more than twice the amount of flotation that is required for the weight of the anchor chain you will be using. (e.g., 50 lbs. of anchor chain will require a buoy with a flotation rating of slightly over 100 lbs.) This ensures that the stripe appears above the water line.

A permanent mooring system, when properly designed, should securely position a boat so that it can be left unattended, with little attention, for long periods of time. Each system usually consists of a mooring buoy (to float the chain), a mooring anchor and a length of chain (running between the anchor and the mooring buoy). Also the proper ground tackle includes correct sized galvanized shackles and swivels. Always keep in mind, that the mooring system is only as reliable as the "current" conditions of the environment.

All Taylor Made® Sur-Moor™ Buoys are built to withstand the constant abuse of most mooring environments.

Sur-Moor™ T3C™ Mooring Buoy

Sur-Moor™ hard skin mooring buoys have a seamless and tough, one-piece polyethylene shell. Hard skin shells feature ultraviolet light absorbers for long-term life under the sun, and have a sandblasted finish which allows the buoy to be easily painted for identifying. Filled with closed cell foam to positively displace water. Tube-through-the-center design with blue reflective striping. Hardware not included.

Stock No.	Tube Diameter	Buoy Diameter	Circumference	Approx. Buoyancy† (lbs.)
#46370	2"	12"	38"	30
#46371	2"	15"	47"	60
#46372	2-1/2"	18"	57"	100
#46374	2-1/2"	24"	75"	240
#46375	3"	30"	95"	460

Three-year flotation warranty on all hard skin buoys

Flanged collar made from rigid PVC tubing. Blue stripe is reflective for nighttime visibility.

Sur-Moor™ Shackle Buoy

The rope nest design has a built in cup shape at the top of the buoy that allows the anchor shackle to nest below the buoy surface. This recessed area helps shield the shackle from contacting the boat hull while making a convenient nesting place for the pennant line when the boat departs from the mooring. The hard-skin polyethylene shell is UV protected to resist the weathering effects of sunlight and is foam filled to positively displace water. Hard skin shell now has a sandblasted finish which allows the buoy to be easily painted for identifying. Tube-through-the-center design with blue reflective striping. Hardware not included.

Stock No.	Tube Diameter	Buoy Diameter	Approx. Buoyancy†(lbs)
#46818	2-1/2"	18"	100 lbs.

† Buoyancy rating: The number indicated is the maximum flotation the buoy provides while fully submerged. 50% of this value will be the weight the buoy can support at the level of the blue stripe.

Sur-Moor™ Taper Buoy

The Sur-Moor™ taper shape design places more flotation area at the waterline creating a higher visibility mooring. The hard-skin polyethylene shell is UV protected to resist the weathering effects of sunlight and is close cell foam filled to positively displace water. Shell has a sandblasted finish which allows the buoy to be easily painted for identifying. Available in the Tube-Through-The-Center design with blue reflective striping. Hardware not included.

Stock No.	Tube Diameter	Buoy Diameter	Buoy Height	Approx. Buoyancy†(lbs)
#46718	2-1/2"	18"	16-3/4"	70 lbs.
#46724	2-1/2"	24"	22-11/16"	165 lbs.
#46730	3"	30"	30"	410 lbs.

Three-year flotation warranty on all hard skin buoys

Traditional Sur-Moor™ Mooring Buoy

- Hot-dipped galvanized steel hardware included.
- Blue stripe is reflective for nighttime visibility.
- Sandblasted finish allows the buoy to be easily painted for identifying

Stock No.	Diameter	Circumference	Approx. Buoyancy†(lbs.)
#22170	12"	38"	30
#22171	15"	47"	60
#22172	18"	57"	100
#22174	24"	75"	240

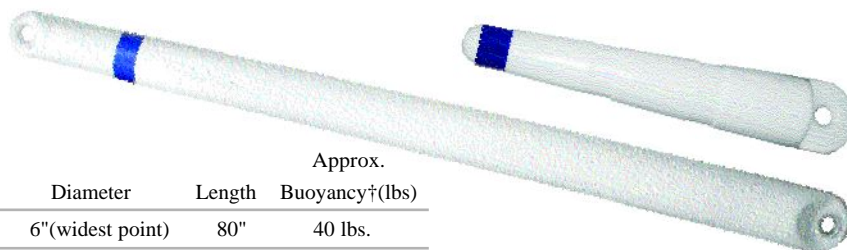

Three-year flotation warranty on all hard skin buoys

WARNING – Mooring lines must never be tied to the top loop. Mooring lines should always be attached to the anchor chain.

Sully Stick™ Winter Stick

A long tapered buoy used in place of a standard round mooring buoy during the winter months. The Sully Stick has a molded in eyelet at the top for easy retrieval and is close cell foam filled to positively displace water. The base eyelet is reinforced with a galvanized metal bushing to attach a rope and connect to the anchor chain. The shape of the Sully stick helps it escape ice entrapment better than a round buoy and can extend the useful life of a mooring buoy by protecting it from the damaging effects of freezing temperatures.

Stock No.	Diameter	Length	Approx. Buoyancy†(lbs)
#22140	6"(widest point)	80"	40 lbs.
#22120	6"(widest point)	31"	15 lbs.

T3C™ Mooring Collar

Galvanized protective collar.

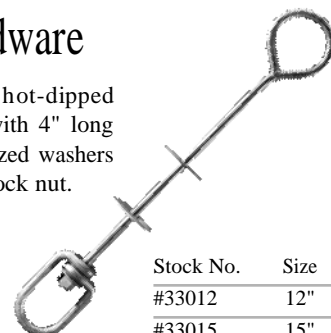

Hot-dip galvanized steel collar protects your T3C buoy from anchor chain wear, prolonging the life of the buoy. Designed to work in combination with standard shackles. Mooring collars are sized to slip into the top of 2" or 2-1/2" tube diameters.

Stock No.	Tube Diameter	Fits T3C Stock No.
#33020	2"	46370 and 46371

Bridle Plate Mooring System

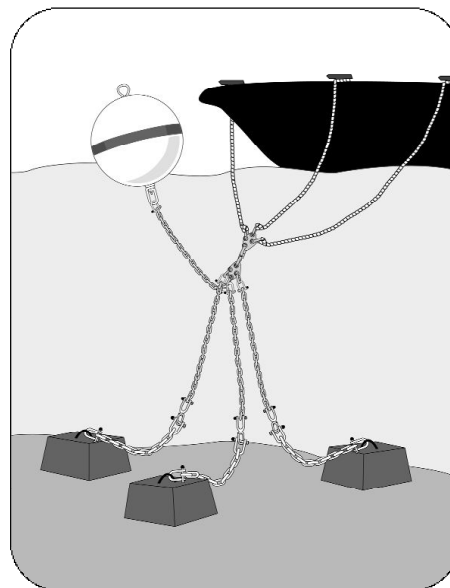

Mooring attachment system that allows up to three lines from the mooring to your boat. The system maintains mooring line separation to minimize chafe and increase line life. No more tangled mooring lines! Two systems are available for multi-hulls (3 lines to boat) or mono-hulls (2 lines to boat). Also available with safety shackles and swivel that utilize nuts and cotter pins that eliminate the need for wire seizing. For boats 25'-60' in length and 8,000 lbs-fSWL (safe working load). Breaking strength 32,000 lbs-f. The system can use up to 1 inch lines with normal thimbles or 3/4" lines with HD thimbles. Recommended attachment point is below the mooring buoy.

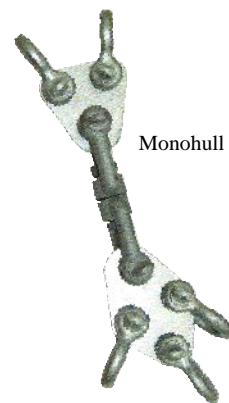

Stock No.	Description
#33040	Monohull (2 shackle attachment points)
#33040S	Monohull (2 shackle attachment points) with safety shackle
#33050	Multihull (3 shackle attachment points)
#33050S	Multihull (3 shackle attachment points) with safety shackle

Storm Surge Anchor System

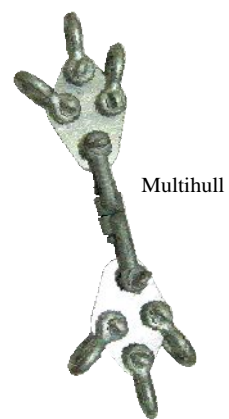

System allows for the placement of three anchors on a swivel and up to three lines back to the boat. The boat can swivel on the anchors without getting anchor chains and lines twisted around each other. For boats 25'-60' in length and 8,000 lbs-fSWL (safe working load). Breaking strength 32,000 lbs-f. It comes complete with galvanized bridle plates, shackles and a swivel. Also available with safety shackles and swivel that utilize nuts and cotter pins that eliminate the need for wire seizing. The system can use up to 1" lines with normal thimbles or 3/4" lines with HD thimbles. 3/8" HDG shackles are needed for attaching chain to the system.

Solar Warning Light

- Solar powered light charges during the daylight hours and automatically turns on at dusk to alert boaters of hazards.
- Easily attaches to buoys, docks, moorings, or anything else that needs night time identification.
- The light comes equipped with steady on mode, slow flash (15 times/minute), and fast flash (60 times/minute) all within the same unit.
- Available in white, red, or green LEDs. All come with clear lens.
- Unit is constructed with a tough, waterproof (not submersible) plastic housing to keep the light working in all conditions.

NOTE: Check with the local agency governing your waterway before installing.

Regulatory Buoys

Taylor Made Products manufactures the most rugged and complete line of navigational buoys in the United States. We have been meeting the stringent requirements of states, municipalities, and private harbors for many years. Our buoys are used in the toughest applications.

Regulatory buoys feature rotationally molded high density polyethylene shells that are UV stabilized. The rotational molding process allows for uniform wall thickness without the internal stresses that cause cracking over time and under extreme temperature changes. This process imparts tremendous impact strength to the shell.

#22126	96"	6

- Perfect as a pick-up buoy and ideal for all diving applications.
- Newly designed 5/16" diameter pultruded fiberglass mast with PVC outer layer adds strength, flexibility and no more fiberglass shards to become exposed.
- Float is Urethane foam filled - Blow-molded high density polyethylene outer shell provides great flotation and years of service.
- Corrosion resistant Vinyl coated cast metal weight for superior scratch protection for your boat

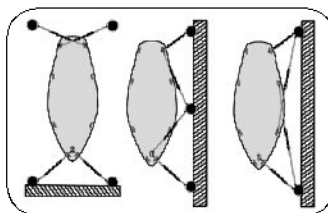

Mooring Products

Rubber Mooring Snubber

Mooring Line Shock Compensator

Made from super elastic isoprene natural rubber. Our NEW design eliminates the self-locking internal system, which caused unnecessary stress on the dock lines. These LineSaver Mooring Snubbers prevent mooring line breakage along with compensating for sudden jolting and excess stretching of lines beyond parting strength. The LineSaver also provides maximum protection against the stress caused by wind, waves, and wakes.

- Absorbs dock line loads and increases dock line life
- NO tools needed to install.
- 3 sizes to match line diameter.

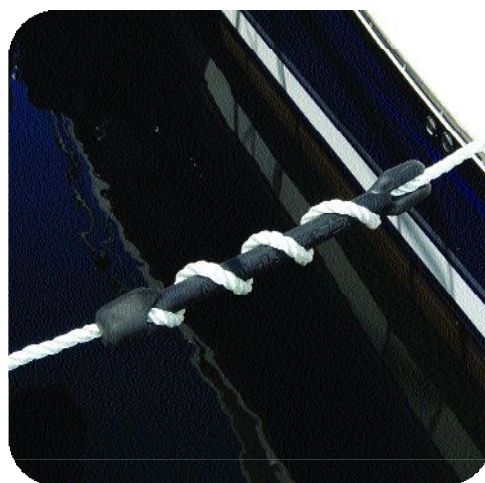

NEW Improved Design!

#307 3/8"

#308 5/8"

#309 3/4"

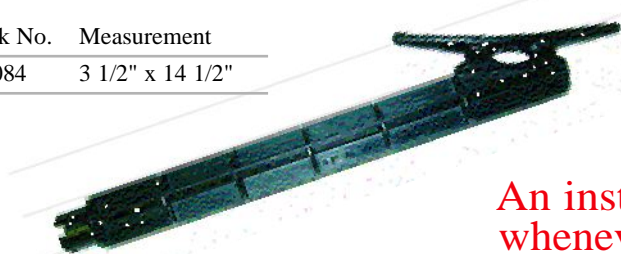

Ready Cleat®

A portable instant cleat that is used as an insert to the rod holder, when a fender is required for docking and no permanent cleat is available along the beam in the cockpit of a boat. ReadyCleat® is inserted into any standard size rod holder, up to 9.5 " in depth, providing an instant fender cleat ready for action. Made from high-impact glass fiber reinforced Lexan to withstand the harsh marine environment.

Stock No. Measurement

#1084 3 1/2" x 14 1/2"

An instant portable cleat whenever one is needed!

BoatGuard® Mooring Whips

DESIGNED FOR:

- Fresh water use
- Low wake areas
- Non tidal regions

Base is injection molded from high impact reinforced plastic for incredible strength and durability.

Taylor Made Products now provides a more economical way to protect your boat in higher wake areas. Designed with the same tough standards as our fixed base and our premium Mooring whips, these new whips provide the "safety zone" between dock and boat for many types of docking applications. Unlike the competition, Taylor uses a large (3/4") diameter solid fiberglass pole that withstand rugged environments and provide that Spring Action to keep your boat safely away from the dock. CAD designed Whip Base is injection molded from high impact reinforced plastic for incredible strength and durability. Sold as pairs and include all lines and hardware to complete the installation.

Note: Some docking conditions may be too rugged for this product.

**Specifically designed for boats
up to 25 ft and under 10,000 lbs**

Stock No.	Description	For Boat Sizes by Weight
#99079	BoatGuard Mooring Whip 8'	UP to 2500 lbs.
#99080	BoatGuard Mooring Whip 12'	Up to 5000 lbs.
#99081	BoatGuard Mooring Whip 14'	Up to 10000 lbs.

Standard & Premium Mooring Whips

Mooring whips are a safe way to protect your boat against costly dockside and seawall damage. The Mooring Whip system pulls your boat a safe, convenient distance away from the dock thereby protecting it from the damaging forces of waves, wind, tides and wakes. Mooring Whips are made of high quality solid fiberglass poles, aluminum-magnesium base units, tips, and mooring whip lines. Each set comes complete with all of the hardware necessary for installation. Standard Mooring Whips and Premium Mooring Whips are sold in pairs. The PWC Mooring Whip is a one-pole system with a flush mount base & is commonly used on swim platforms.

Tips allow your boat to return to the dock effortlessly when you want to board.

Standard Mooring Whips

DESIGNED FOR:

- Fresh or Salt water use
- Moderate wake areas
- Minimal tide areas

Standard Mooring Whips are equipped with fixed angle bases with a 60° angle and are most commonly used for ski boats, runabouts, center consoles, and bass boats.

Stock No.	Mooring Whip Description	For Boat Sizes Length/Weight
MW.080	Fixed Angle Base 8'	Up to 20' / to 2500 lbs.
MW.120	Fixed Angle Base 12'	18' to 23' / 2500-5000 lbs.

MW.160	Fixed Angle Base 16'	29' to 33' / 10000- 20000 lbs.

Premium Mooring Whips

DESIGNED FOR:

- Salt water use
- Large tidal areas
- Ideal for Large Boats

Premium Mooring Whips are equipped with unique rocker arm bases that return the whip poles to the vertical position when not in use. These are ideal for sailboats and larger, heavier or high profile boats.

Boat Mounted & Towing System Mooring Whips

Towing Whips are the very best answer when it comes to towing smaller craft behind a larger vessel like a yacht, sailboat or houseboat. The Towing Whips take the guesswork out of securing tenders, inflatables and PWCs.

The system consists of a stainless steel flush-mount base which is attached to the transom or swim platform and holds the solid, flexible fiberglass whip with tip. A line at the whip's end connects to the towed vessel's transom keeping it away from the larger vessel. Another line, at the whip's base, affixes to the front of the towed craft applying tension to the whip and securing it at a safe distance from the tow boat.

Each kit comes with everything you need for a complete installation:

- Two Stainless Steel flush mount bases.
- Two 1" diameter solid fiberglass whips with tips.
- Two whip cleats for line adjustment.
- All necessary hardware and lines.
- Complete installation instructions.

Boat mounted models are the same as the Tow models except include 13/16" dia. solid fiberglass poles; for lighter duty applications. Marina models are the same as the Tow models except they include a single pole and base, and are primarily used for temporary mooring under specific situations.

Other Models

Dock Pro™ Vinyl Dock Edging

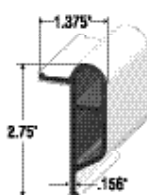

Heavy Duty Double Molded Profiles

Double molded vinyl dock edging is molded twice then molecularly bonded for extra durability and protection. A tough inner core is surrounded with our soft white vinyl for extra cushion against tough docks. Each piece installs easily to the edges of dock piers or floats with screws or nails. Available in our four most popular profiles and a full range of lengths.

TaylorMade  Green Solutions

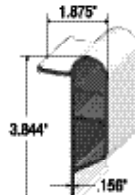

HD Double molded and Commercial Grade Edgings are made from 85% recycled material

90 Degree Vinyl Corner Bumper

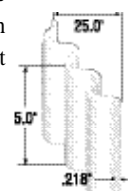

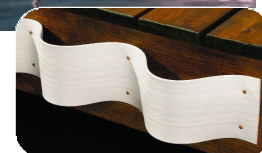

Made from the same tough PVC as our dock extrusions, this 90 degree corner (outside) will protect your boat from this critical point. Inside structural ribs provide the impact resistance you need while it's flush fit side sections give your installation the "finished" appearance. The 90 degree cut fits flush with the Large Commercial P-Shape (above). Inside dimensions cover 6" each side.

Stock No.	Description
#46015	90° Corner 6"x6" White
#46016	90° Corner 6"x6" Black

The "Wave"

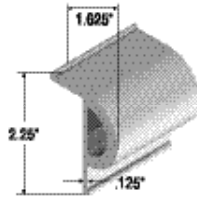

The "Wave" shape is 1/4" x 5" wide. This profile is a heavy-duty PVC strip that is designed to completely cover the sides of your dock. Form this flexible extrusion into a "wave" or loop shape and nail it down. By doing so, you create a bumper grid with superior shock absorbing and protective ability. The "Wave" is available in a 25 ft. coil and comes complete with mounting nails. 25 ft. Coil will protect approximately 18 ft. of dock space.

Stock No.	Description
#46069	25' Coil

Traditional Vinyl P-Shape Gard

Traditional vinyl profiles are solidly molded from vinyl especially formulated for softness and durability. Each piece installs easily to the edges of docks, piers or floats with screws or nails. Available in a full range of lengths.

Dock Pro™ Heavy Duty Vinyl Dock Bumpers

Taylor Made now offers the ultimate in versatile, durable docking protection! Dock Pro heavy-duty vinyl bumpers are ideal for rough conditions, and can take a beating. Made from U.V. resistant, marine-grade vinyl, they provide excellent protection for your boat and dock. Straight piece can be mounted horizontally, or the curved back panel allows for vertical mounting on pilings. Corner piece provides superior impact protection on dock corners. Both bumpers have inflation valves for easy adjustment to desired firmness. Pre-drilled for easy, permanent mounting with plated fasteners.

Stock No.	Size	Description
#45500	37"L x 4.5"W x 6"H	Straight Mount
#45510	13.5"L x 6"W x 10.5"H	Corner Mount

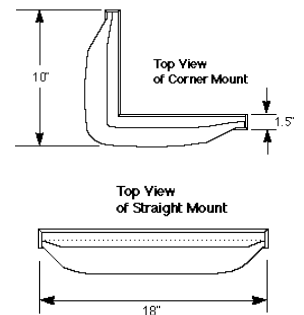

Dock Pro™ Vinyl Dock Bumpers

Protects the side and top of the dock with 1-1/4" cushion above dock level. Made from the same tough marine grade vinyl as our fenders. Solid flaps attach easily to any dock. Superior cushioning protects boats and docks from each other. Color is permanently molded into the vinyl and will not transfer to the hull.

Stock No.	Color	Description
#46075	Black	Straight mount 18"
#46076	Black	Corner mount 10" x 10"
#46081	White	Corner mount 10" x 10"
#46082	White	Straight mount 18"

Dock Pro™ Inflatable Dock Wheels

Smooth rolling wheels offer substantial dock cushioning and feature molded-in valves to adjust the level of firmness. Heavy duty hot-dipped galvanized hardware mounts securely to the dock. 12" and 18" wheels use a large 2" diameter axle housing for maximum strength.

NOTE: Brackets and wheels are not interchangeable. Replacement wheels include cap and washer.

3 Year Warranty!

Rubber Dock Products

Taylor Made Products offers a line of EPDM rubber edging for docks and piers. EPDM rubber is designed to withstand the harshest of environments, and is soft enough to cushion your boat from the dock or pier. At 70 Durometer this new premium line of dock edging starts softer than vinyl, and stays flexible when exposed to UV, offering uncompromising longevity.

"D" Profile

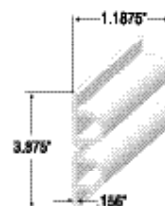

A convenient way to protect the edge of the dock. Not only easy to install, but it also fits snugly around the radius of the dock corners.

Stock No.	Description
#96041	12' Length - Small
#96042	12' Length - Large
#96000	6' Length - Small
#96001	6' Length - Large
#96017	6' L Small Retail Pkg.
#96018	6' L Large Retail Pkg.

Double "D" Profile

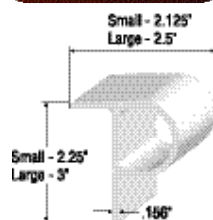

Same great design as the "D" profile, times two. With a custom designed notch in the back of this edging, it can easily bend around everything from pilings to 90 degree dock edges.

Stock No.	Description
#96036	12' Length

"P" Profile

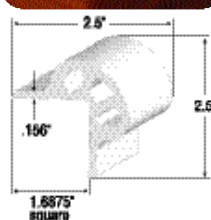

The "P" profile is designed to attach to the top of the dock and wrap around to also protect the side of the dock. Two different sizes to best suit all applications.

Stock No.	Description
#96039	6' Length small
#96040	6' Length large

Top-Side Profile

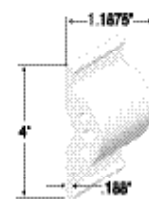

This edging offers protection for your boat right where you need it most. The Top-Side profile not only covers the side of dock, but it also protects the top as well.

Stock No.	Description
#96038	6' Length

Heavy Duty Side Profile

Specially designed edging can be used as side protection for docks, or for vertical protection on pilings.

Stock No.	Description

Removable Post Bumpers

Are you tired of cruising into a new port only to find that there is no protection on the pilings? Perimeter's Removable Post Bumpers are the solution that you've been looking for. Made out of the same high quality materials as our Dock and Post Bumper, Perimeter Removable Post Bumper comes equipped with polyester webbing (53" long) and a heavy-duty Derlin buckle system which allows for a quick, easy and secure installation. Simply wrap the webbing around the piling, snap the buckle and pull tight. When you're ready to depart, simply unbuckle and stow away.

- **Protect your boat at unfamiliar or unprotected docks.**
- **Stays in place better than fenders.**

Pacific Blue and Gray Hot Shot™ Colors only!

Our selection of sail boat covers offer many styles to accommodate multiple uses; covering hulls and mast up/mast down options. Constructed from our Hot Shot™ fabric for a cover that is both lightweight yet strong enough for trailering.

- "No Mast" - The cover does not accommodate the mast at all (example: mast off the boat)
- "Over Mast" or "Covers Mast" - The cover accommodates the mast laying down on the boat - not in the use position.
- "W/Mast" - The cover accommodates the mast up in the use position, with fabric boot which velcros around the base of the mast.
- "BTM COVER" - The cover covers the bottom of the hull while trailering. The cover comes up over the gunnel, over the top edge.

Perimeter® Spreader Boots

Foam inner cushion provides extra protection for your sails. Available in sizes to fit all spreaders. Sold in pairs.

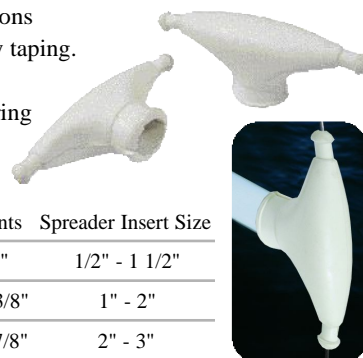

- Protect sails from chafing or tearing on spreaders!
- Fit better than other products on the market.
- Delrin buckle system makes installation quick, simple and secure.

Stock No.	Desc.	Boat Size	Spreader Size

#18549	8 ft. Bailer (extended)
#200025	Bailer Floor Merchandiser (4 of ea.)

Bazoooka Bailer™

The only combination boathook/bailer/power washer on the market today, this is truly a unique product.

As a boat hook, this product is one of the most durable boat hooks you will ever own. From it's hook to it's anodized aluminum shaft only quality parts and materials are used in this product's construction. The telescopic pole collapses nearly in half for storage and automatically locks firmly in place when fully extended. Two non-slip grips ensure a solid hold when fending off from other boats or hauling in a mooring.

As a bailer the 8' model drains nearly a quart per stroke, and reaches into spaces few bailers can. Simply place the hook under water and extend the Bazoooka Bailer. The piston draws the water up a small hole located at the end of the hook. Don't worry about the oil and scum found in the bottom of most bilges, unlike some rubber washers the nitrile piston is not broken down by such substances, instead they serve as a healthy dose of lubrication.

Finally, as a power washer, water is expelled from the Bazoooka Bailer approximately thirty six times faster than it's operating speed, giving it a firing range of over 50 feet and the power to clean. The Bazoooka Bailer is a handy product when cleaning hulls, cleaning decks or when you find yourself in a water fight!

• **Power Washer**
all in one!

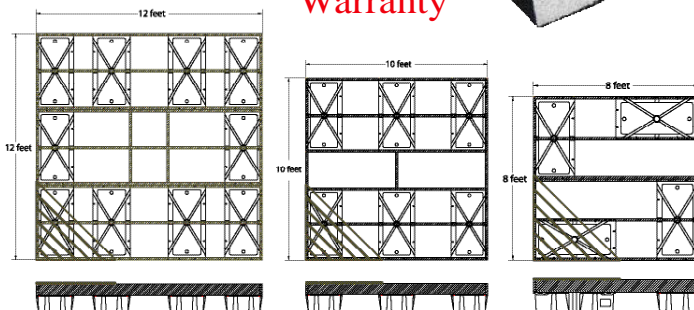

Dock Floats

**8 Year
Flotation
Warranty**

Cross section shows EPS foam core, and 1/8" wall thickness.

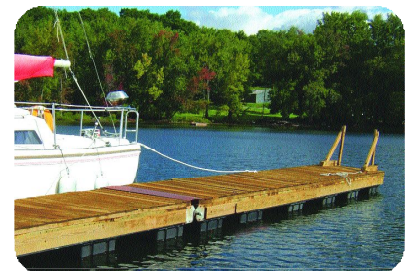

Seamless, UV-resistant black polyethylene shell filled with EPS foam. The tough outer shell resists impacts and protects the foam core from saltwater, gasoline and most chemicals. Thick mounting flange can be drilled to accommodate attachment fasteners for easy mounting to any dock design. Constructed with ventilation holes that let air in and keep water out. NOTE: Not designed to attach to each other.

- 3/8" x 3" lg. lag screw
- 3/8" washer & 5/8" washer American National Standard Type A plain washers (series W)

TaylorMade Green Solutions
Made from 50% recycled polyethylene

StepSafe™ Dock Hand Rail

- The Dock Hand Rail can be mounted to any dock to aid in boarding and unboarding your boat.
- Made from rust proof extruded aluminum, with a bright dip anodized finish.
- Features an etched top surface to ensure a solid grip.
- Large solid mounting plates are drilled for half inch bolts.
- Sized to perfectly fit 6 inch wide dock boards

StepSafe™ Dock Steps

Molded in durable U.V. resistant Polyethylene, our dock steps are offered in three different tread step models. On the top of each step, Taylor Made Products own StepSafe™ non-slip pad is adhered for additional slip protection while boarding. 1 1/2" wide flange provides adequate mounting surface for docks. Cleans easily with soap and water. Additional hand rails are available for two and three step models, sold separately. Maximum weight up to 300 lbs.

Stock No.	Description	Size (Length x Wide x Height)
#47100	Single Tread Step	22"L x 18"W x 11.5"H
#47200	Double Tread Step	26.75"L x 23.75"W x 17"H
#47201	Aluminum Hand Railing (double step model)	19.5"W x 49"H

#47301	Aluminum Hand Railing (triple step model)	26"W x 58"H

StepSafe™

Step with Comfort & Safety . . . Wet or Dry!

StepSafe™ will retain its grip wet or dry, and is resistant to gas, oil, and UV rays. We've combined Toughtek™ with a soft padded feature for a safe, secure climb aboard. Also great for the pool area, aluminum ladders, or any surface where slipping is a concern. Comes with a pressure sensitive backing for easy installation, and trims easily with scissors to almost any size and shape. Use on gunnels, swim platforms, stair rungs, transoms or anywhere you step and could slip!

Stock No.	Cut Size
#11990	3 1/2" x 14 1/2"

12 Pack master comes pre-packed clipped on a clip strip.

Post Bumpers

Post bumpers are great protection for pipe supported type docks. Protects the boat from contact with the metal dock pipe and hardware at dock level. Easily slides over 1 1/2" dock pipe and rests securely against the dock. Molded from marine grade vinyl with an inflation valve to adjust firmness. Bumper measures 7" dia. x 17" long.

Dock Pro™ Dock Cart

Curved handle design reduces bending-over, making the Dock Pro dock cart easier to handle than conventional carts, while the unique angled tub feature provides better leg clearance for maneuvering. The Dock Pro dock cart is simply the easiest way to carry all your gear from the car to the boat. Features a spacious 7 cu. ft. (47"L x 23"W x 13"D) heavy wall roto-molded poly-tub that will not rust or rot. Zinc coated corrosion resistant hardware used throughout. Plastic rim wheels with roller bearings will stand up to the harshest marine environment.

Stow 'n Go™ Fiberglass Dock Boxes

With a UV gelcoat finish and the stainless steel lockable latch and hardware these fiberglass dock boxes are built tough. Our dock boxes incorporate gas shock lifts, which come standard on all models. These shocks help to keep your lid open on rocking docks and in higher wind areas and allow for a slower, more controlled closing. These fiberglass molded dock boxes are also constructed with a smooth interior finish which helps prevent splinters in your hands when storing or retrieving your boating accessories.

Standard Dock Boxes

Provides a large rectangular space in which to store all your boating needs. (2 shocks installed)

NEW!

Stow 'n Go Dock Boxes

Smooth interior surface is easy to clean. No scrubbing in hard to reach spots where dirt and algae like to hide.

Other Dock Box Brands

Dirt and grime can collect in the pores of the rough interior surface making cleaning a difficult task.

Smooth interior surface has no stray glass fibers that may splinter and become a source for cuts or slivers.

Rough surface has many stray glass fibers that can splinter and become a source of cuts and slivers.

Cross Section of Top-Seat Dock Box

Solid wood core is stronger than cardboard and contains no trapped air making it more resistant to absorbing water and odors.

Stow 'n Go Dock Boxes

Double glass layer resists cracking and adds strength in critical areas where hardware is attached.

Flimsy cardboard core is filled with air pockets that can absorb water and nasty odors.

Other Dock Box Brands

Single glass layer provides minimal strength and may develop stress cracks over time.

Standard Dock Boxes

Low Profile Box

Top-Seat Dock Box

Replacement Gas Shocks

Standard Gas Shocks

These reliable gas shocks incorporate a strong annealed steel rod with a special coating for added corrosion resistance. These shocks are an ideal choice when used near or around high salt water areas where corrosion is a large factor.

Stainless Steel Gas Shocks

These shocks are constructed from highly corrosion resistant 316 stainless steel which make them the best selection for use in the harshest marine environments.

Oil-Free D-Icer™ & Accessories

Why Choose Our Oil-Free D-Icer?

The innovative motor design, high-efficiency, and extra features leave the competition behind. A superior product that costs no more than the competition. It is a powerful submersible motor-driven water circulation unit that prevents ice formation during winter months by continuously propelling warmer subsurface water up to the surface. The D-Icer keeps the area ice-free. It's ideal for use around a boat or dock.

Unique Design

The unique one-piece design of the shroud prevents large debris from being sucked through and damaging the propeller, a major cause of failure in other ice prevention devices. Optional thermostat control is available, as well as an optional flotation collar to hold the D-Icer near the surface for aerating.

Product Features:

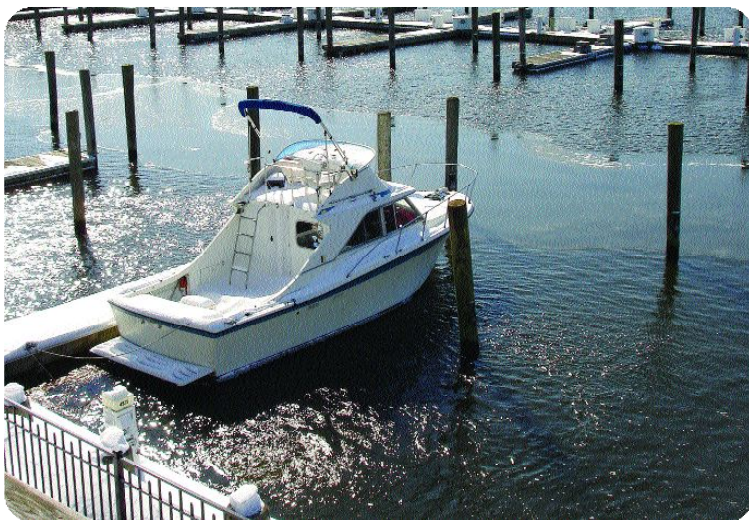

- NEW Oil-Free Design - no chance of oil leaks polluting our environment.
- More Energy Efficient than Oil-Filled Units - costs less to operate. Pays for itself.
- Molded Glass Filled Nylon Shroud - guides water flow, and blocks debris.
- Stainless Steel Motor Shaft and Motor Housing - eliminates corrosion.
- Dual Internal Seals and Double Lip Shaft Seal - keep water and dirt out for long life.
- High Efficiency Motor and High Performance Propeller - give the most flow for your energy dollars.
- Continuous Duty 120v or 230v Single Phase Motors - can run non-stop for years without maintenance.
- Standard 50' or 100' Field Replaceable Power Cords - get you to the middle of the slip without modification.
- Designed for Harsh Saltwater Environment with Renewable Zinc Anode for Corrosion Protection - thrives in salt or mineral filled water.
- Easy to Install by One Person - fast setup allows use as a portable unit.

CCF Linear Lights

Direct benefits of using Taylorbrite CCF Marine and RV Lights:

- CCF lights draw very little power for the light they deliver.
- CCF lights operate at a much lower fixture temperature.
- CCF lights provide up to 25,000 hours of service life and unlimited starts.
- Very durable due to their heavy duty electrode construction. They hold up under shock and vibration typically experienced in commercial and recreational marine environments.
- Energy saving dimming capability is incorporated into the CCF lights.

Surface Mount Single Linear Specifications

Waterproof & Shock Resistant!

Classic Fluorescent Lights

Classic Light:

Taylor Made Classic fluorescent lights offer low power draw, high light output, and low cost. Additionally, fluorescent light run much cooler and are 3 times more efficient than halogen bulbs. Standard fluorescent bulbs included.

Classic Wood Grain Light:

The wood grain accent helps preserve the look of your boat when directly replacing older lights. Standard fluorescent bulbs included.

Fluorescent Lights feature:

- Corrosion resistant aluminum housing and opaque acrylic lenses.
- Lights run on 12 volt DC and only consume 16 (1.3 amps) to 30 (2.5 amps) watts of power.
- Lights are UL approved and meet IEC 60945 (marine conducted and radiated emissions standard), meaning they will not interfere with your boat's on-board electronics.

Dimming System

Taylorbrite's dimming system uses a technology known as Pulse Group Modulation. The true benefit of this system is the ability to dim efficiently, without generating heat. Furthermore, dimming does not impede the life of the electrode, nor does it create RFI. Because a "signal" is sent from the dimmer that alters the frequency of the light's sine wave, power draw of the CCF lights is reduced in proportion to the light output. This is ideal for maintaining battery capacity at night, when full brightness is not necessary, but a slight amount of light may be desired.

Slim CCF Dimmers

LED Replacement Bulbs

- Direct replacement of your high power draw, dangerously hot halogen bulbs.
- LED replacement bulbs offer warm white color temperature, very little heat output, and very low power draw.
- Replacement bulbs will last the life of your boat, guaranteed!
- By just replacing the bulbs, you gain the benefits of LEDs without the added cost of a new light fixture.

Stock No.	LED Replacement Bulb	Fits Models
LHR11	Warm white, 15LED	MR11/G4
LHR16	Warm white, 21LED	MR16

This cover is the perfect blend of economy and simplicity. Designed to fit most common hull styles and sizes, the BoatGuard Rainbreaker is ideal for most mooring and storage applications. The Rainbreaker is made from Legacy™ fabric that is both mildew resistant and water repellent. Includes a handy storage bag for the cover when not in use.

All BoatGuard Rainbreaker covers feature:

- 3.2 oz. pigment coated polyester fabric
- Gray Color
- Mooring and storing only
- Includes storage bag and tie-down rope
- One year warranty

*As with any boat cover, a support pole should be used to allow water to run off.

BoatGuard®

BoatGuard® boat covers are America's best selling universal-fit trailerable boat covers. Strong enough to be trailered, and are fully capable of surviving the rigors of the road. BoatGuard® Covers are manufactured from acrylic coated polyester gray Hot Shot™ fabric that is both lightweight and water repellent. Storage bag and tie-downs included.

All BoatGuard covers feature:

- Four-ply folded seams and double-folded hems.
- Strong 1" wide tie-down loops to secure the cover without scratching the boat.
- Shock cord in the hem for a close fit.
- Sizes to fit most models.
- 2 Year limited warranty

BoatGuard® ECLIPSE BOAT COVERS

- Heavy duty 6.25 oz. polyester fabric in two-tone colors.
- Fully trailerable
- Includes storage bag, tie-down straps and support pole.
- Sewn-in air vents provide proper air circulation under cover.
- Five Year Warranty

Tie-downs

Sewn-in vent

Taylor's newest offering of universal covers is the BoatGuard Eclipse. This cover is designed to be eye catching and fully trailerable. Made from strong, durable 6.25 oz. polyester in two (2) colors. BoatGuard Eclipse offers excellent mildew and water resistance and can withstand harsh environments with ease. Unique design spreads strap tension evenly across cover surface. Each cover includes a storage bag, tie-down straps, and a support pole for a complete boat cover care system.

BoatGuard® SST Self-Supporting Technology

Patented Self Supporting Technology represents the latest Taylor innovation in manufacturing Boat Covers. In order to prevent rain water and other debris from collecting on the cover surface, support poles are integrated into the fabric covers forming a convex surface, allowing water to run right off. Unlike the other support devices, these poles are easy to install and more importantly STAY in place! In addition, there is no need for both bow and stern support, as the SST covers are fully supported over the entire length of the boat. NOTE: SST covers are not intended nor warranted to support snow loads.

- Hot Shot™ fabric is 6.25 oz/sqyd 100% marine grade pigment coated polyester.
- Lightweight and highly water repellent, this fabric is durable, has U.V. protection additive and comes in our popular sand color.
- Patented mold, mildew and algae fungi inhibitor.
- Includes integrated shock-corded fiberglass poles that provide exceptional support for water run-off.

Now available for Pontoon Boats!

U.S. Patent #6,789,495

Poles are easy to install, stay in place and fold down for compact storage when not in use.

Fabric Comparison

Ultima™ vs. Acrylic Fabric

- *Fabric Strength* is a measurement of the breaking strength of the fabric.
- *Tear Resistance* is a measurement of the force required to continue a tear previously started.
- *Hydrostatic Pressure* is a measure of a fabric's resistance to the penetration of water under static pressure.
- *Taber Abrasion* is the wearing away of any part of a material by rubbing against another surface.

Trailerite® Semi-Custom Boat Covers

Now all Semi-Custom covers include tie-downs and shock cord in hem for a custom fit against your hull

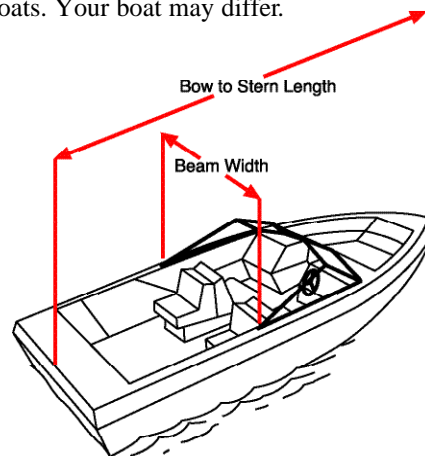

IMPORTANT: To choose the correct semi-custom fit cover for your boat, you must know the beam width and center line length of your boat! Taylor Made Products semi-custom boat covers are designed to fit several makes and models of boats with same hull styles. This means that the windshield pocket is in the average position for this range of boats. Your boat may differ.

ASK US IF WE HAVE A CUSTOM COVER FOR YOUR BOAT!

To order your Trailerite® boat cover in Hot Shot™, use the Taylor Pattern No. with the letter O as a suffix, then the proper color code after the O. For example: 70215OT = Hot Shot in Teal. The different color codes are as follows: Cranberry = Y, Hunter Green = F, Gray = G, Navy = N, Pacific Blue = B, Teal = T and Black = R.

Extra care should be taken to protect your cover from coming into contact with sharp edges such as windshields, accessory brackets, or bow mounted electric trolling motors. Please pad these areas before installing your cover.

CAUTION: Over the years, some boat manufacturers occasionally reuse boat model numbers or names. Boats having the same name or model number can actually vary in style or size. ALWAYS MEASURE YOUR BOAT TO BE ABSOLUTELY SURE THAT YOU ARE GETTING THE CORRECT COVER FOR YOUR BOAT!

V-Hull Runabouts

- Open or Closed Bow
- Fits integrated swim platforms and square transoms
- Does not accommodate extended/aftermarket swim platforms
- Bow rails under 6"
- Accommodates low profile accessories and windshields up to 27"
- Sewn in motor hoods

**FEATURING THE
LARGEST SELECTION OF
NEW MODELS**

Bows mounted in bow sockets are the sure and easy way to keep a boat cover taut and free from water-collecting pockets. Sockets can be mounted on any rail system (A) or anywhere on deck wall (B). Rubber gasket provides snug fit for fiberglass bows.

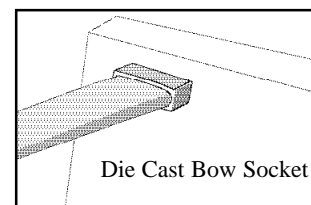

Rail Bow Sockets (A)

- Accepts any bow, and fits 7.8" rails
- No mounting holes to drill.
- Includes hardware for fastening bow to socket.
- Made of tough nylon.

Stock No. #936 Rail bow socket (pair)

Die Cast Bow Sockets (B)

- Accepts any bow.
- Chrome-plated.

Stock No.	Description
#935	Die cast bow socket (pair)
#144935	Bulk pack (144 pair)

Types of Bows - Wood Bows are 1 1/2" wide x 5/16" thick

WOODEN BOWS - (Fixed Length)
Strong. Resilient. Sap-free Poplar wood

WOODEN BOWS - (Adjustable)
Two pieces held by "D" ring.

FIBERGLASS BOWS

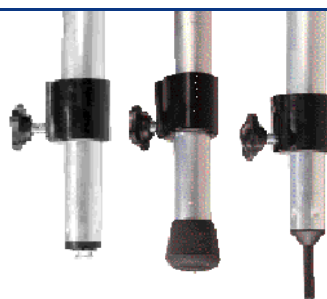

Super strong and flexible. Will not take a "set." Cut to desired length. Shipped with rubber end covers to grab socket. Orange color

Super Support Pole

This fully adjustable support pole is 3 support poles in one! We supply a male canvas snap, a grommet tip, and a plain end cap with these Super Support Poles. So, if you have a female canvas snap or a grommet on your boat cover, you can get a support that will work with your cover. The pole is aluminum, with a durable plastic adjuster to set the correct height for your cover. Also comes in a 3 piece pole that collapses down to 22" for easier storage.

Stock No.	#11992	Super Support Pole, 36" to 64"
Stock No.	#11981	3 Piece Super Support Pole, 22" to 59"

Adjustable Boat Cover Support Pole

Extend the life of your boat cover by preventing water from pooling on top. Our standard boat cover support pole has a non-marring tip on each end of a telescoping aluminum tube. A durable plastic knob allows for easy adjustment of the height.

DON'T FORGET THAT PROPER SUPPORT LENGTHENS THE LIFE OF YOUR COVER!

Stock No.	#11991	Adjustable boat cover support pole, 36" to 64"

Boat Cover Accessories

Boat Vent II - Newest in Boat Cover Venting & Support

Don't let your interior suffer from mold and mildew damage. Proper ventilation can keep these boat destroying fungi from attacking your boat! The patented Boat Vent II installs quickly and easily, with no screws or fasteners. The venting area provides for greater volume of exhaust air while closing the top to bottom gap - keeping water out! The Boat Vent II is manufactured from a superior grade poly carbonate blend material for strength and UV resistance and will accommodate either 3/4" or 7/8" support poles. Sold Individually.

**PROPERLY VENTS
YOUR BOAT COVER
WHILE KEEPING
WATER OUT!**

Stock No. #11982

Boat Vent II

Taylor Super Snap

Portable and Easy to Use

Simply place the disk underneath the tarp and slide the loop onto the grooved disk. The Super Snap can be attached either semi-permanently, enabling you to slip the disk on and off as needed, or permanently, using nails, screws, etc. Use the end hook for hanging light objects, or run a line through the hole for heavier objects.

Stock No. #823 (4 per pack)

Tarphooks™

Simply fill an ordinary soda bottle with sand, screw on a detachable Tarphook, and you have a versatile and inexpensive weight.

Use For:

- Tarp weights
- Hanging storage containers for clothes pegs, nails, nuts and bolts, garden seeds, liquids.
- Bird feeders
- Targets
- Hanging baskets
- Plus many more household items.

Stock No. #50 (4 per pack)

Camouflage Boat Covers

Protect your boat while in storage or while trailering and keep it concealed from wary waterfowl the next time you hunt. Covers are manufactured from Hot Shot™ acrylic coated polyester in a jungle camo print. Aluminum bass and jon boat models include bound-in motor hoods. UV resistant and water repellent finish.

2 Year Warranty!

Motor Hood Covers

Not only can you hide your boat from wary waterfowl, but you can also hide that protruding outboard motor. Manufactured from the same great Hot Shot™ fabric as the Camouflage covers. Hoods come in 3 size to best accommodate your outboard motor.

Pontoon Playpen Shade

A quick and easy way to gain additional shaded area on your pontoon boat while protecting your seats from the harmful UV rays from the sun or other harsh weather conditions. Shade is available in sizes to accommodate boats up to 102" width and extends out to 12 ft. of coverage. Constructed from Hot Shot™ marine grade polyester fabric, the top is strong yet light weight. It is secured to the front bow of your existing bimini or hard top and down to the playpen railing with adjustable straps with quick release buckles for simple and fast installation. Shade folds down to compact size for ease of storage and is available in (9) colors to best match your boat. **Not for use while underway.**

Pontoon Gazebo

A quick and easy way to gain additional shaded area on your pontoon boat. Top accommodates both 96" and 102" wide boats and extends out to 8ft. of coverage. Constructed from Hot Shot™ marine grade polyester fabric, the top is strong yet light weight. It is supported by shock-corded fiberglass pole framework that breaks down for convenient storage. The large interior radius allows you to sit comfortably without bending over and provides excellent head room. After initial installation of permanently mounted hardware to your playpen rail, the Pontoon Gazebo attaches easily and comes down in minutes. Comes complete with shade top, frame, marine grade hardware and storage bag, and is available in (9) colors to best match your boat. The Gazebo measures 8' Long x 102" Wide x approximately 50" High from mounting point.

NOTE: The Gazebo obstructs the drivers vision and as such should NEVER be put up while the boat is in motion; at any speed. This product is designed to provide shade while moored or anchored only!

Pontoon Boat Accessories

Pontoon Boat Cover Support System

Extend the life of your pontoon boat cover by preventing water from pocketing. This easily installed system includes two (2) adjustable support poles (bright dip anodized - snap ends). 60 ft. of 1" polypropylene webbing, quick release adjuster buckles and four injection molded hooks to secure to decking.

Stock No. #55745

Pontoon Boat Cover Support System

Pontoon Enclosure

SHADE • SHELTER • PRIVACY

Add all of these great features to your Pontoon Boat

Providing comfort and convenience, this spacious enclosure fits easily over the bow area of your pontoon boat. Constructed from durable polyester fabric shell (fire retardant) with zippered entryway, mesh windows and supported by a shock-corded fiberglass pole framework. The Enclosure measures approximately 56" deep x 74" tall (varies slightly by beam and railing height) by the width of the playpen area (fits both 96" and 102"). The large interior radius allows you to sit comfortably on existing seating without bending over or crouching down.

After initial installation of permanently mounted hardware, the Pontoon Enclosure sets up easily and comes down in minutes for convenient storage. Comes complete with enclosure, frame, marine grade hardware, storage bag and instructions. Enclosure is available in multiple colors to best match your existing bimini or canvas.

NOTE: Not to be used while under way. Enclosure should not be left up for storage or extended periods of time.

Pontoon Flag Pole Socket with Flag

Developed with the Pontoon Boater in mind, this new injection molded, black nylon mount attaches easily to the top of your pontoon railing and features a 10 degree presentation angle. The 3/4" diameter bright dipped anodized aluminum pole simply snaps into the base and features color matched Charlevoix flag clips. The 24" model includes a 12"x18" sewn US Flag. The 30" comes complete with a 16"x24" sewn US Flag.

Easy Up Privacy Partition

This partition provides privacy from on-lookers while out on the water. It can be installed anywhere under your bimini top or hard top with included straps and hardware. Constructed from "fire retardant" marine grade polyester, it easily secures with UV resistant tie downs and fasteners. Features a full length, heavy duty zipper for easy access and when installed measure 30" wide x 30" deep x 70" tall. Gray color only.

Polyester Gray

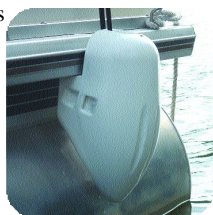

Stock No. #67867

Pontoon Boat Accessories

Pontoon Fender

These unique fenders offer a level of protection to areas on the Pontoon boat other fenders can't provide. The Pontoon Fender is specifically designed to fit snugly between the pontoon and the deck of the boat, protecting both from rafting boats, docks, or other objects. All pontoon fenders are made from our own marine-grade, U.V. resistant vinyl and have an integrated rubber football style valve for easy inflation. Measures 9" wide x 16" Long.

Stock No. #31030

U.S. Patent #6,758,156

Fence Saver

The Fence Saver secures to the fence or railing and is designed to prevent contact to the delicate aluminum fencing. The fence saver is especially effective preventing those nasty dings that occur when rafting a pontoon boat to a conventional hull boat. Measures 9" wide x 36" Long.

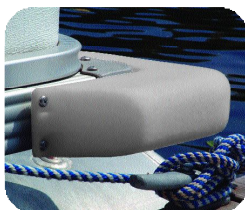

**Great protection
while rafting against
other boats!**

Stock No. #32000 Fence Saver

Corner Bumpers

The pontoon corner bumpers come in two shapes for both radius style or 90° pontoon corners. Bumpers mount over the original factory installed aluminum corner section to provide air-cushioning impact protection when docking. Special gray pvc formulated to match the aluminum color of the boat and secures with stainless fasteners. Each measure 3" wide x 12" Long.

Stock No.	Description
#31033	90° Corner
#31034	Radius Corner

Pontoon Protector

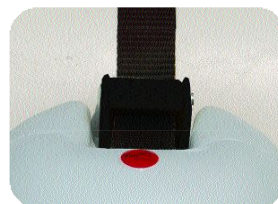

Protect the leading edge of your pontoons with our double molded PVC Pontoon Protector. Manufactured from the same vinyl as our rugged Dock Pro™ dock edging, these will save both dock and boat from impact damage. Easy to install with water proof, self-adhesive strips. Measures 3" wide x 12" Long. Sold in pairs.

Stock No. #46010 Pontoon Protector

Fence Saver II

The Fence Saver II offers the same great features as the original Fence Saver but with greater cushioning. Constructed from soft PVC it's flexible make up allows the Fence Saver II to absorb impacts similar to an air-filled product but without the need for an inflation valve. Measures 9" wide x 36" Long.

Stock No. #32000 Fence Saver II

New cam lock and strap fastening system no longer requires access behind fence rail. Simply hang fender over top rail, attach strap hook to boat deck and draw tight.

Pontoon Rail Fender Adjuster

Finally, a fender adjuster designed specifically for the 1" square tube rails of Pontoon Boats. The mounting structure clamps securely to square tubing yet can be repositioned quickly and easily. Constructed from durable ABS plastic this fender adjuster allows for simple height adjustment for lines up to 3/8".

Stock No.	Description
#1139	Fender adjuster for square tube rails, 4/pack
#11391	Counter top merchandiser, 36 pieces

Inflatable Boat Shade Top

A quick and easy way to gain shaded area on your PVC inflatable boat. Top accommodates boat widths up to 5' 7" and lengths to 10' 8" and is supported by shock-corded fiberglass pole framework that breaks down for convenient storage. Fabric shade constructed from Hot Shot™ fabric which is lightweight, water, and UV resistant. After initial installation of permanently mounted hardware to your boat, the top sets up and attaches easily and comes down in minutes. The large radius allows you to sit and operate the boat comfortably without crouching over and provides excellent head room. Shade comes complete with shade top, frame, marine grade hardware, storage bag and instructions.

Stock No. #12007OG Shade Top for SB4/5 HP4/5 Gray

Under Seat Storage Bag

Much-needed storage space on an inflatable boat is provided with our Under Seat Storage Bag. It attaches with a hook-and-loop enclosure and will fit most bench seats. We've also included a shoulder strap that allows you to

carry the bag with you when you leave the boat. The top of the bag is padded to "soften the ride" on the wood bench seat. Vinyl material will not mildew and is waterproof.

Stock No. #888 Measures 10"W x 23"L x 7" Deep

Bow Bag

Keep all of your "stuff" together on your inflatable boat with our handy Bow Bag. Dual zippers provide easy access, while water resistant vinyl material provides for an effective dry storage area. The bag is 24" wide at the zippers, 10" tall, 19" front to back, and will fit most inflatable boats.

**Keeps your belongings
clean and dry all day!**

Stock No. #889 Gray Bow Bag

Don't let too much sun cut your boating day short! Taylor Made® Bimini BoaTops® provide lots of refreshing shade while affording you visibility over your windshield instead of just through it. These tops are freestanding, providing more air circulation, and can be mounted in several locations on the boat. Note: Bimini Top should never be open when boat speed is over 25 mph.

Ultima™ Bimini BoaTops

Taylor Made Products' free-standing Bimini BoaTops feature Ultima™ fabric, which has been the top line fabric for custom boat covers. Ultima (solution dyed polyester) insures the absolute best performance in strength, color fastness & UV stability, and longevity. Its urethane coating provides superior water repellency, while maintaining breathability.

*Ultima Bimini BoaTops®

* Excluding white vinyl

Selecting Your Bimini BoaTop®

***Remember;** The combination of height and length determine how much shade your Bimini BoaTop® will provide. Think about how you use your boat and what you want to shade; for example, if you want to shade yourself and your children in the back, you probably want the longest Bimini available in a medium height. If you are out fishing by yourself most of the time, you probably want the smaller, shorter Bimini BoaTop®.

Don't Forget; The width depends entirely on your boat - You must use a measuring tape to ensure the correct fit!

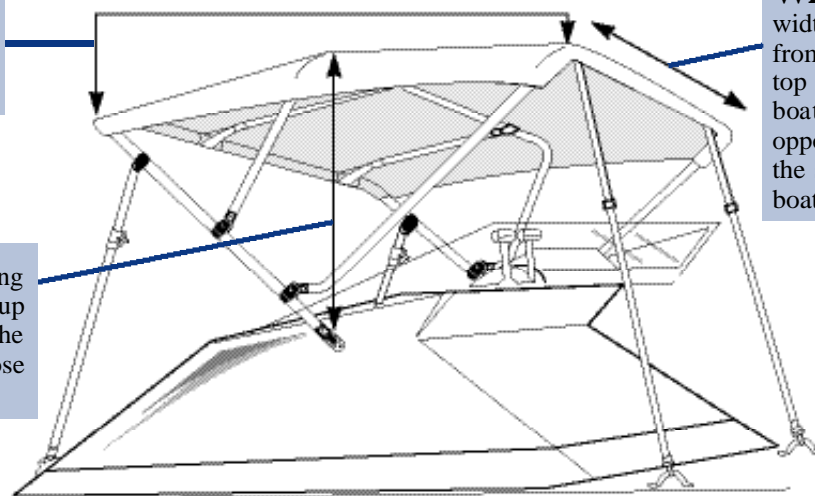

**Seams Guaranteed
for a Lifetime!**
To Outlast All Fabrics... or we'll Repair it Free!

Length

*Determine length of top, 4', 6', or 8'.

Height

*From mounting location, measure straight up with a tape measure for the correct top height. Choose from 36", 42", or 54".

Width

*Determine the width of the top: Measure from mounting point (where top attaches) on one side of boat to same location on opposite side of boat (not the same as the beam of the boat or boat width)

**All sizes shipped
unassembled.
Can be shipped UPS.**

ALL BIMINI BOATOPS® SHIP WITHIN 5 BUSINESS DAYS!

8 Colors Available

Taylor Made® Bimini Boatops® included:

- Non-corrosive, high density black nylon fittings.
- Heavy-duty thick wall 7/8" bright anodized aluminum tubing.
- Double-wall tubing in main bow (on larger models).
- Bow Straps for extra support.
- Sewn in Bow Sleeve helps eliminate "parachuting" effect.
- Both horizontal and vertical hardware included.
- Adjustable polypropylene tie down straps and strap eyes included.
- Ultima™ Fabric Top (Highest Quality Available), Traditional Marine Vinyl is also available.
- Bimini Boots included except where noted.
- All sizes shipped unassembled and ship UPS.

#62171	67"- 75"
#61993	Inflatable Boat Mounting Kit

Available in
8 great
Hot Shot™ colors!

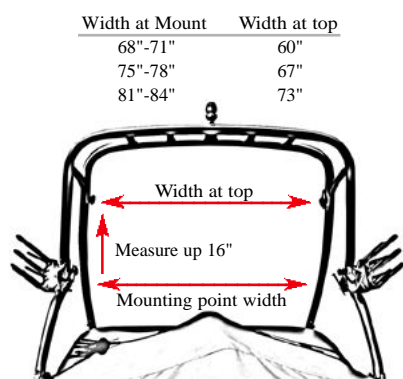

Tower Bimini Top

These Bimini Tops are designed to mount within the confines of most wake board towers to provide shade for driver and spotter. All tops are 48" long and approximately 16" (from mounting point) and are available in three different widths to best fit most towers. Frame is constructed from bright dip anodized aluminum tubing and uses high quality marine grade hardware. Top features Ultima fabric™ for the best performance in strength, UV stability and longevity and is available in 8 popular colors.

Choosing the correct size top:

The tops will mount directly onto the tower frame at the center point, so pick the best position on the tower that will provide the best shade to the driver's seat. The tops are low profile at approximately 16" high at the maximum, so be sure that the position will keep the top high enough to clear the driver and spotter when seated. Measure across the tower at the mounting point that has been selected and choose the dimensions from the chart, noting the bimini width that matches your measured width on the tower. Check the width at the top and be sure that the angle of your tower will accommodate that dimension.

Bimini Boatop® Accessories

Bimini Support Poles

Keep your Bimini Boatop® off the gunwales with a pair of bimini support poles. Available in adjustable or fixed lengths, use these poles to replace your rear straps and keep your top "up and out of the way." Two jaw slides (7/8") and deck hinge are included.

Stock No. Description

#11995 Adjustable Bimini support poles (2) 28" to 48"

#11989 Fixed Bimini support poles (2) 40" length

CAUTION: These poles should never be used to replace the front support straps. Only the rear straps should be replaced with adjustable support poles. Do not exceed 35 miles per hour while using adjustable Bimini top support poles.

Zippered Storage Boots for Bimini Boatops®

Keep your Bimini Boatop® neatly stored when you are not on the boat. Boots feature one separating plastic zipper for easy on/easy off, and are made of marine vinyl to last for years. Available in our marine grade vinyl or Hot Shot™ acrylic coated polyester fabric, that makes the boot strong yet light weight and easy to store.

Pattern No.	Width
#63164	60" to 66"
#63170	67" to 72"

T-Top Boat Covers

For Boats with Fixed T-Tops

- Bow and stern sections zip together; for single person installation.
- "Console tube" secures up underneath the T-Top, protects the center console and will accommodate most sizes and locations of tops and consoles on boats up to 25'4".
- Tie-Downs System included, this system relieves stress on the zippered ends during over the road trailering.
- Now available for boats without bow rails.

Sur-Lock Mechanism

"Market Style" Top

Long known for manufacturing quality marine products, Taylor Made Products has re-invented the highly successful Anchorshade. Several important design changes are being introduced, including larger diameter and solid fiberglass structural ribs, and hinge connectors which are twice as strong as on our last model. Also added to these improvements, is a powder-coated aluminum frame (so even if scratched, it will not rust), a 4-point locking height adjuster and a Sur-Lock push-up mechanism. These newest innovations are sure to keep your Anchorshade II looking and working well, for years to come!

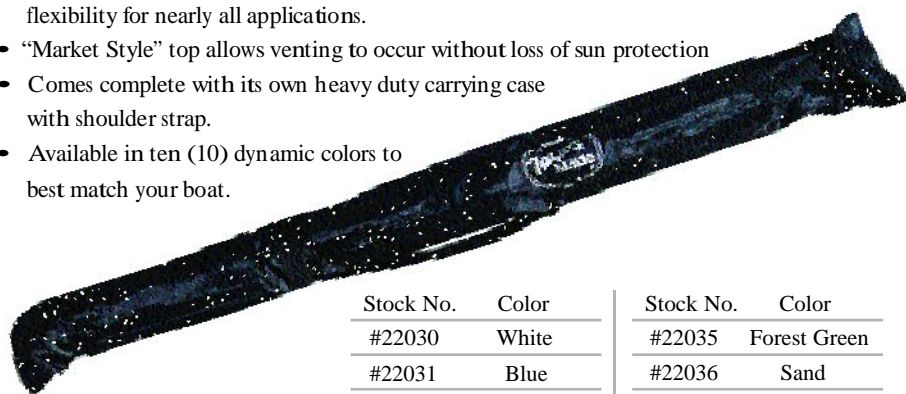

This uniquely designed 7ft. x 7ft. square umbrella can be used on almost any vessel from a small fishing boat to the larger high performance boats. AnchorShade®II is designed to be used when anchored or at idle speed on a calm day. AnchorShade®II is perfect for relaxing on the water, at dockside, or just lounging on the beach.

U.S. patent #5,441,066

- Adjustable pole locks in place up to 8'.
- Lightweight, mildew/fade resistant UV-treated nylon top.
- Excellent sun protection. Blocks out 85-90% of harmful rays.
- Adjustable straps with non-corrosive hardware provide mounting flexibility for nearly all applications.
- "Market Style" top allows venting to occur without loss of sun protection
- Comes complete with its own heavy duty carrying case with shoulder strap.
- Available in ten (10) dynamic colors to best match your boat.

Comfort Zone™ Boat Misting System

How the System Works

Misting is based on the theory of Evaporative Cooling. The system forces water through specially designed misting nozzles creating a fog of ultra fine water droplets with an average size of 50 microns or less. The water droplets are so small they can instantly flash evaporate, which can reduce the surrounding temperature as much as 30 degrees in just seconds. The system uses a one of a kind booster pump that draws only one amp, delivers 130 psi and keeps a flow rate as low as one gallon per hour depending on the number of nozzles installed. This cool refreshing air makes your boating experience more enjoyable and can lengthen your stay on the water during the hottest summer

Basic Kit

Cools
Temperatures
Up to 30°
Instantly!

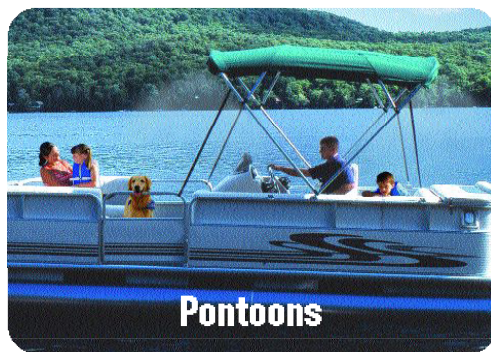

Water Source Options

Use our direct connect system to tap into the onboard water source. We have quick "Push to Connect" tee connectors that splice right into the boats on-board water lines (for systems using 1/4" tubing lines). Find water supply line from galley pump to sink/shower, cut line and use our Quick Connector fittings to tee into the red inlet line. A water container (not included) can also be used. We offer a 7 gallon hard plastic container or a 5 gallon folding collapsible container (see all available accessories below). Both containers have attachments that hook up directly to the red inlet lines. NOTE: Systems can also draw water from most fresh water lakes.

Aerators & Fountains

Environmentally Friendly Oil-Free Design is the Perfect Choice!

Taylor Made aerators and decorative aerators, commonly called fountains, are simple, mechanical devices. They offer an easy, cost effective solution to water quality problems in ponds and small lakes up to two acres. All models offer high oxygen transfer with low initial and operating costs. They are perfect for back yard ponds, golf course ponds, retention ponds, and ornamental ponds. Fountains offer the same benefits of aeration while providing an attractive display, are ideal for ponds in the public eye. Easy to install by one person

Product Features

- **NEW oil free design** - no chance of oil leaks polluting our environment.
- **Up to 50% more energy efficient than oil filled brands** - costs less to operate.
- **Molded glass filled nylon shroud** - guides water flow, protects fish.
- **Stainless Steel motor shaft and motor housing** - eliminates corrosion.
- **Dual internal seals and double lip shaft seal** - keep water and dirt out for long life.
- **High efficiency motor and high performance propeller** - give the most flow for your energy dollar.
- **Continuous duty 120v or 240v single phase motors** - can run non-stop for years without maintenance & are rugged enough for fish farming.
- **Standard 50' or 100' field replaceable power cords** - get you to the middle of pond without modification.
- **Designed for harsh saltwater environment with renewable zinc anode for corrosion protection** - thrives in salt or mineral filled water.

Complete line of accessories also available!

- Adjustable locking hinge allows you to choose from several comfortable positions!

2 Available Colors

Navy Blue
#99104

Pacific Blue
#99105

The comfortable seat that Sto's Away when not in use!

- Soft padded seat for lounging, reclining and relaxing.
- Protection from sand, debris and hard decks/docks.
- Great for sailboats, cuddy cabins, concerts, picnics, tanning, beaches, and so much more.

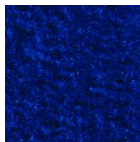

Snap-In Replacement Carpet

The Cockpit Kit by Taylor Made makes custom fit carpet a snap! Our custom cut carpets are constructed with a tough rubber backing which can be cut to virtually any shape or size. Our carpet is designed to brave the sea, sun, and salt so you can be sure it's tough!

With our custom carpet replacement you can:

- Replace old shabby snap-down carpet
- Carpet an area that was never carpeted previously
- Design a custom mat or runner to protect high traffic areas.

Flag Poles & Accessories

Yacht Bag

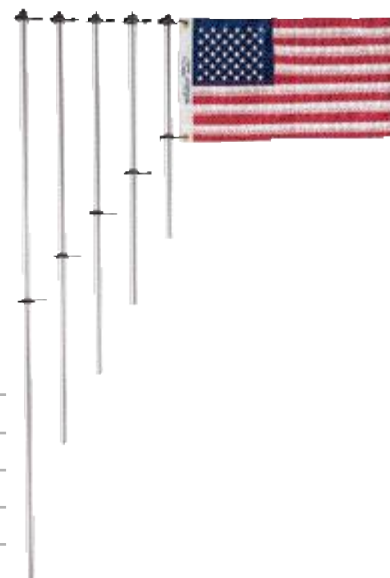

Show your pride in being an American boater with a **Taylor[®]Made[®]** yacht bag. We use the same red and white nylon that we use in our flags for these bags. The stars and U.S. Yacht Ensign design are embroidered on the Duffel. The bag is lined for added durability and has a non-corrosive plastic zipper for trouble free use in the marine environment. The bag has two hand straps and a shoulder strap.

Stock No.	Description
#92603	Yacht bag, 11" diameter by 23" long

Flag Pole with Charlevoix[®] Flag Clips

- Clips are designed to clamp tight or spin around the pole.
- Bottom clip and O-ring can be moved to accommodate any size flag.
- Marine grade 3/4" diameter anodized aluminum with nylon flag clips.

Screws not included.

Stock No.	Size
#915	18" flag staff
#916	24" flag staff
#917	30" flag staff
#918	36" flag staff
#919	48" flag staff

Skipper Flag Clips

Stainless Steel Skipper Clips provide an easy way of attaching flags, canopies, curtains etc. The extended length of these versatile clips reaches grommets 3/4" from fabric edges. Package includes (4) Skipper Clips and self-tapping screw eyes for attachment to wood, metal or fiberglass.

Stock No.	Description
#57933	Skipper Clips w/screw eyes (4 pk.)

Charlevoix[®] Flag Clips

The original Charlevoix Flag Clip ends the trouble of attaching your flag to a standard flag or stern light pole. This simple one-piece clip attaches semi-permanently to your pole and will keep your flag securely in place at speeds up to 50 miles per hour. Flags can be attached or removed in seconds. The clips can also be removed, if desired. Sold in pairs

Stock No.	Description
#57926	One-piece flag clip fits 3/4" pole
#57928	Fits 7/8" to 1" flag pole

Charlevoix[®] Burgee and Antenna Clips

Like Charlevoix Flag Clips, these Burgee & Antenna Clips are designed to allow you to fly your burgee or courtesy flag from your antenna without fear of losing it. These clips fit standard 1/2" burgee poles or 1/2" whip antennae. Neoprene is provided for use with poles on antennae smaller than 1/2".

Stock No.	Description
#57925	Pole/antenna flag clip

Looking for the best way to display the #1 selling fenders in America without taking up limited shelf space? Taylor Made has the way! Taylor Made Products realizes that space is always limited and extremely valuable, so we have specially designed several ways to help eliminate the problem and increase your fender sales.

Bulk Packed Fender Bins

Both front and back panels are perforated for removal. This allows for easy access to the fenders as the level drops.

Fender Bin Measures:
48" Long x 23" deep x 43" tall

Stock No.	Contents	Quantity
#102245	#1022/#1023 Hull Gard Fenders	45/30
#102272	#1022 Hull Gard Fenders	72
#102356	#1023 Hull Gard Fenders	56
#102574	#1025 Big B Fenders	74
#102630	#1026 Big B Fenders	30
#102525	#1025/#1026 Big B Fenders	25/21

Fitted cover insures secure shipping of the bin.

Mini Fender Center

Made from black powder-coated wire, with a 1" square tube frame and includes a smaller four-color sizing chart for the side of the rack. Each one of the three shelves is adjustable to fit taller fenders. Rack dimensions are approximately 2' wide x 6' tall x 2' deep and holds about 6 - 10 cases of fenders, depending on the size of the fenders and includes directions for easy installation.

Stock No. #1475

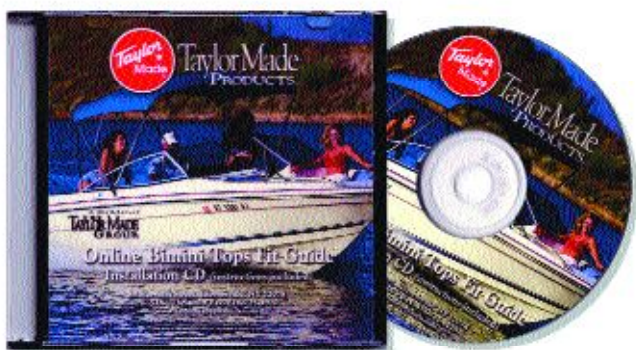

Taylor Made Products offers an innovative selection of internet tools for our customers. These can be installed on your website to increase your online sales while decreasing returns. We offer product selection guides for most of our major product lines (boat covers, bimini tops, and boat fenders). In many cases, our selection guides can be installed in minutes.

Boat Cover Fit Guide

Taylor Made Products' Online Boat Cover Fit Guide makes finding your customer's specific boat cover fast, easy and convenient! Just answer a few quick questions and we will find the right boat cover from our database of over 20,000 covers. All boat covers from Taylor Made Products ship within 5 days or less. Give your customers quality made boat covers fast, with Taylor Made Products' Online Fit Guide on your site.

Stock No.	Description
#WEB101	Boat Cover Fit Guide CD (Ver. 1.3)

Bimini Top Fit Guide

Taylor Made Products' Online Bimini Top Fit Guide is a great solution for helping your customers find the bimini top that's just right for their boat. Taylor Made Bimini BoatTops® provide lots of refreshing shade while affording your customers visibility over their windshield instead of just through it. These tops are freestanding, providing more air circulation, and can be mounted in several locations on the boat. Taylor made bimini tops ship in 5 days or less.

Stock No.	Description
#WEB102	Bimini Tops Fit Guide CD (Ver. 1.2)

Boat Fender Fit Guide

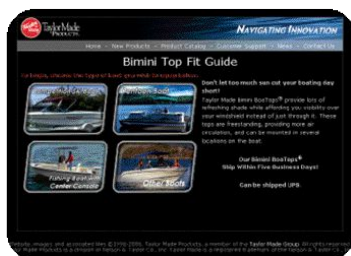

Offer your customers peace of mind by knowing the fender they've selected is sufficient to protect their boat. Taylor Made Products' Online Fender Selection Guide helps your customers pick the right fender for their boat type and docking needs. Combined with the Taylor Made Products Lifetime Guarantee against splitting or bursting (on select fenders), this selection guide will convince your customers that they made the right choice in style and brand.

Limited Warranty Information - Applicable to All Products

TAYLOR MADE PRODUCTS SHALL NOT BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, NOR FOR ANY DAMAGES OR REMEDIES NOT SPECIFICALLY SET FORTH IN THIS WARRANTY. TAYLOR MADE PRODUCTS SHALL NOT BE LIABLE, IN THE EVENT, FOR ANY DAMAGES IN EXCESS OF THE COST OF THE PRODUCT. Some states do not allow the exclusion or limitation or consequential damages, so the above limitation or exclusion may not apply to you.

THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE SHALL NOT BE EXTENDED BEYOND THE DURATION OF THE EXPRESS WARRANTIES HEREIN. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

All potentially defective products must receive a Return Goods Authorization (RGA) # before they are returned to Taylor Made Products. Products returned without an RGA# will be refused, and the product will be returned to sender. To receive an RGA#, call us at 1-800-628-5188. All products returned to us MUST be accompanied by a proof of purchase,

without exception. Freight on defective products is the responsibility of the consumer (UPS is the preferred method of returning a product to us). Repaired or replacement products will be shipped back to the consumer freight prepaid.

This written warranty is the only warranty expressed or implied, made by Taylor Made Products. No person is authorized to change, add to, or create any warranty or obligation other than set forth herein. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State. To obtain service under this warranty, contact Taylor Made Products at the following address:

Taylor Made Products • 65 Harrison St. • Gloversville, NY 12078 • 518-773-9400 • www.taylormadeproducts.com • sales@taylormadeproducts.com

Freight on returned products is the responsibility of the consumer. Repaired or replacement products will be shipped back to the consumer freight prepaid.

Boat Covers and Bimini BoaTops Limited Warranty

Taylor Made Products warrants its Trailerite® boat covers and Bimini BoaTops® to be free of defects in material and workmanship. The different types of products, and their warranty periods, are specified below:

Boat Guard Rainbreaker covers:	1-year limited warranty
Boat Guard covers:	2-year limited warranty
Boat Guard Eclipse covers:	5-year limited warranty
Boat Guard SST covers:	2-year limited warranty
Trailerite® boat covers:	2-year limited warranty
Trailerite® Hot Shot™ boat covers:	5-year limited warranty
Bimini BoaTops®	2-year limited warranty

This limited warranty pertains to defects in material and workmanship only. Damage caused by improper use or care is not covered by this warranty.

Examples of damage that is not covered are:

- Allowing water, snow, or ice to pool or puddle on the product.
- Tears or rips caused by failure to protect the product from sharp objects.
- Wind damage due to improperly tying down of the product.

- Fabric discoloration or failure due to chemical exposure (includes tree sap, bird droppings, oil, and gas).
- Mildew caused by dirt resting on the product, or the product being stored while damp.
- Damage caused by acts of God.

Under the terms of this warranty, any Trailerite® boat cover or Bimini BoaTop® found to be defective will be repaired or replaced, at Taylor Made Products' option. If minor repairs can return the product to useful service, it will be repaired at no charge. If the product is beyond minor repair, the cost of replacement (a new product) will be calculated by subtracting the residual value of the defective product from the current actual retail price for the same item. When you call us for a Return Goods Authorization (RGA) #, we can estimate the replacement cost of the product.

This warranty is in lieu of all warranties, express or implied, and under no circumstances shall Taylor Made Products be liable for any damages in excess of the boat cover's original purchase price.

Taylor Made Vinyl Fender & Vinyl Buoy Limited Warranty

"Lifetime" Limited Warranty applies to: Super Gard™, Hull Gard®, Big B™ and Survivor® fenders only.

One Year Limited Warranty applies to: Tuff End™ Fenders and Buoys, Fender Cushions™, Low Freeboard Fenders, PWC Fenders, and Transom Fenders.

All warranted replacements must meet this simple criteria: The fender has split or burst from normal use and damage is not the result of a knife cut or puncture from a sharp object.

Taylor Made Products warrants its vinyl fenders to be free of defects in workmanship and materials under normal use and service for which the product is intended. This warranty is limited to product failure as a result of air loss from SPLITTING or BURSTING. Excluded from this warranty are fenders that have become useless from cuts or punctures, or disfigured from continued wear or use, or products that have been exposed to solvents that degrade vinyl. Over-inflation of any fender voids any warranty claim. Obligation under this warranty is limited to repair, replacement or credit of the defective fender at our discretion. Taylor Made Products reserves the right to request return of the product for inspection. No return merchandise will be accepted without prior authorization. Taylor Made Products shall not be liable for indirect, special, incidental, or consequential damage or penalties and does not assume liability of purchaser or others for injury to persons or property. This warranty is in lieu of all other warranties, express or implied.

Foam Filled Mooring Buoy Limited Warranty: Flotation for 3 Years.

This product is warranted to be free of defects in materials and workmanship. The float of the buoy is warranted for three years from the date of sale: that it will maintain its flotation when used for its intended purpose under exposure to normal sun, wind, weather, and water conditions. It is NOT warranted against acts of vandalism. It is NOT warranted against attack by animals, birds, fish, or people. The hardware of the buoy is warranted for one year from the date of sale: that it will maintain its structural integrity when used for its intended purpose, under normal exposure to weather and water conditions. IT IS NOT IMPLIED THAT THIS PRODUCT WILL WITHSTAND UNUSUAL CONDITIONS SUCH AS SEVERE STORMS, SEVERE TIDES, OR HURRICANES. THE USER SHOULD CHECK THE MOORING EVERY THREE MONTHS TO BE SURE THAT IT IS SECURE AND HAS NOT DETERIORATED TO A LEVEL WHERE IT MAY FAIL UNDER STRESS.

A copy of the original sales receipt, documenting the date of purchase, must accompany all warranty claims. Obligation under this warranty is limited to repair, replacement, or credit for the defective buoy at our discretion. Taylor Made Products reserves the right to request return of the product for inspection. No return merchandise will be accepted without prior authorization. Taylor Made Products shall not be liable for indirect, special, incidental, or consequential damage or penalties and does not assume liability of purchaser or others for injury to persons or property. This warranty is in lieu of all other warranties, express or implied.
