

Springfield Marine

About Springfield Marine

Springfield Aluminum Company was founded in 1952 by Garnett Carnahan as an aluminum foundry and quickly found itself in a new emerging marine market that developed across the USA. By the late 1970's, the marine industry was the primary customer base that allowed Springfield Marine to develop as a brand of marine seating hardware. Springfield Marine has pioneered the marine seating industry with innovative designs that have allowed numerous patents and design acknowledgments that still hold the brand strong today. Springfield Marine continues to develop products to meet the growing needs of the marine industry while maintaining durability for safety, stability, and comfort.

Springfield Marine Company has been doing business in China since 1990. Our state of the art facility in Jiangsu offers nearly 70,000 M² of in-house product designs and manufacturing, molding, and logistic services. To ensure quality and customer satisfaction, we have continuously obtained the following authentications:

- Certificate of type approval of China Classification Society (CCS)
- DNV Business Assurance Management System Certificate (DNV)
- Type Approval Certificate (BV)
- EC Type-Examination Certificate
- ABYC H-31 Classifications (USA)

Our goal is to establish long term relationships to help grow and increase your market shares, as well as provide top of the line products that offer the comfort and safety your customers demand.

Warranty Information

HARDWARE: 5 Year Limited Warranty: Hardware (Pedestals, Mounts & Accessories)

For a period of 5 years from the date of sale to the first use purchaser, SPRINGFIELD MARINE CO. will repair or replace, at our discretion, any product which proves to have manufacturer's defect in materials and workmanship under normal and proper usage.

SEATING: 1 Year Limited Warranty: Upholstery & Cushions.

(Upholstery & cushions) For a period of 1 year from the date of sale to the first use purchaser, SPRINGFIELD MARINE CO. will repair or replace, at our discretion, any upholstered product which proves to have manufacturer's defect involving vinyl, fabric, leather or foam components in materials and workmanship under normal and proper usage.

SEATING: 5 Year Limited Warranty: Frame & Substrate.

(Frame & substrate) For a period of 5 years from the date of sale to the first use purchaser, SPRINGFIELD MARINE CO. will repair or replace, at our discretion, any seating product which proves to have manufacturer's defect involving frame or substrate components in materials and workmanship under normal and proper usage.

THIS WARRANTY DOES NOT EXTEND TO CONSEQUENTIAL DAMAGES. (Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.)

The foregoing is the only warranty or representation made, express or implied, and specifically there is NO WARRANTY OF MERCHANTABILITY and NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

SPRINGFIELD MARINE CO. is not liable for improper installation or improper use of the product or any failure or problems from lack of reasonable maintenance, racing activities, or commercial applications.

THIS WARRANTY SHALL BE CONSIDERED VOID IF, The seat or any accessory/equipment has been altered, modified, changed or reworked, subjected to abuse, neglect, or accident, including abnormal use, the seat is installed in a manner that would subject the seat to abnormal use. THIS WARRANTY IS VOID IF MIXING SPRINGFIELD MARINE COMPONENTS WITH NON-SPRINGFIELD MARINE PARTS.

In order to obtain service under the warranty, the customer must notify our customer service department to obtain a return authorization, Phone: (417) 725-2667

SPRINGFIELD MARINE CO.
Attn: Returns (Your RA#)
1093 N. Cynthia Drive
Nixa, MO 65714

Our dealers and distributors are not authorized to modify the warranty in any respect.

SPRINGFIELD MARINE's continuing program of product development and improvement makes specifications, colors, standard features, designs, prices and availability subject to change without notice or obligation. See your Springfield Marine dealer for current information.

These products are not designed or warranted for racing or high performance use.

NOTE: COMMERCIAL USE RESTRICTIONS APPLY. CONTACT US FOR DETAILS.

Customers are responsible for paying return freight as well as the freight on a new order if you are making an exchange. Springfield Marine is not responsible for lost items in return shipping so please insure your package.

ABOUT SEATING SYSTEMS

Springfield Marine knows that comfort is important in marine seating. Whether behind the wheel for long passages in rough water, dropping a line in a quiet creek, or anywhere in between. Springfield Marine offers a wide range of configurations and options.

Quality, comfort, and strength add up to value, and value is an important consideration in choosing the best seating system that's right for you. Our wide variety of chairs and even greater choice of seating hardware provide an array of combinations second to none.

Matching the chair with the correct seating hardware is also an important consideration in product selection. So whether selecting one of our seating packages or making your own combinations, Springfield Marine offers the right product to meet a wide range of needs.

Seating Bases

KingPin™ Series

ABOUT KINGPIN™

Springfield Marine's first generation removable pedestal, the KingPin™ is still the most popular seating system among freshwater boaters. The centerpiece of the KingPin™ system is the Hi-Lo pedestal. In the Hi position, the pedestal is a comfortable fishing seat. Remove the post and insert the seat mount into the base for the Lo position - ideal for compact storage to provide maximum visibility for the driver while the boat is underway.

It's simple... a 3/4" E-Coated steel pin extends from the bottom of the pedestal as well as from the bottom of the seat mount. And each pin fits into the socket of the KingPin™ deck base.

Springfield Marine offers the KingPin™ system in a choice of two styles... Standard and Threaded. The Standard pin, with its high-strength composite clip, is designed to prevent unintentional detachment. Threaded has a threaded pin at the bottom of the post which can simply and easily be threaded into the base. Both systems provide an effective, safe, and secure boating experience, that meet the ABYC H-31 standard for fishing positions.

Posts have been updated to Anodized for corrosion resistance and visual appeal.

System meets ABYC H-31 B Rating.

Taper-Lock™ Series

ABOUT TAPER-LOCK™

Springfield Marine introduced the Taper-Lock™ pedestal system in 1982. Since then, over One Million units have been sold!

The design of the Taper-Lock™ provides the most stable, secure, and versatile systems in the industry. The slight taper of the high-strength composite bushing matches the corresponding taper in the socket of the pedestal base, thus creating a snug, secure fit that can be disengaged as needed. To prevent turning freely, the Taper-Lock™ bushing features a locking tab which also helps hold the pedestal firmly in place.

Ideal for fishing boats, the Taper-Lock™ has been widely used by many of the top-name boat builders in the industry for many years.

PACKAGES • SEAT MOUNTS • PEDESTALS • BASES • ACCESSORIES

Products in the Taper-Lock™ series are
DESIGNED FOR RECREATIONAL USE ONLY

ABOUT *PLUG-IN™*

Springfield Marine's removable pedestal series includes the Plug-In™. Stainless steel hardware, high-strength aluminum, and engineering grade plastics are used throughout to ensure the highest quality of all parts.

The Plug-In™ series features a unique notched and keyed design that provides security against rotation in the base and seat mount. Once the post is securely engaged into the base, the Plug-In™ provides a safe and stable seating system for your comfort.

This strong and sturdy interlocking design has continued to make the Plug-In™ series an ongoing popular choice of removable pedestal systems for boats used in punishing freshwater conditions.

2-3/8" aluminum splashguard with drain.

ABOUT THREAD-LOCK™

Springfield Marine originally introduced the Thread-Lock™ to be used as a table system. Soon we adapted our post-style grill to use the same attachment as the table.

The success of those two products made way for the redesign of the post and base for use as a seating system. A locking mechanism was added to the seat post to provide a secure and wobble free experience in both fishing models as well as underway models.

Thread-Lock's™ interchangeable parts allow the seating base to be used with the grill or table. The perfect base for a fishing deck... simply remove the seating post, install the grill or table, and enjoy. However, the seat post will not fit into the table base.

With the Thread-Lock™ system, attaching the post to the base is as easy as turning on a light bulb. And the locking collar gives you peace of mind that your post stays on the base... safe and secure.

Thread-Lock™

Spring-Lock™ Series

ABOUT SPRING-LOCK™

Springfield Marine presents Spring-Lock™ ... the world's first push button activated pedestal. The industry demanded it -- we created it. Tired of problems resulting from similar sized plastic bases, the industry needed a new pedestal system that could retrofit with plastic-base units already in use.

With Spring-Lock™ pedestals, we've combined a sturdy and secure ride with fast and easy post removal. The locking latch of the Spring-Lock™ extends from the post and secures it in the base. A push of the button and the latch unlocks the post from the base for easy removal.

For an even simpler approach, Springfield Marine presents the Clip-Lock even better performance and an easier-to-use system. Designed to capture the end of the post, the base provides all the strength needed to hold it in place during punishing freshwater action. Simply plug the Clip-Lock into the base and go. When you are done, a simple pull on the post removes it up and out of the base.

Use On  Fishing Boats

ABOUT WAVE DAMPENING

Wave dampening pedestals are designed to reduce the impact and vibration while fishing or cruising in rough waters. Shock absorbing mechanical springs with adjustable shock absorber allows progressively dampened travel to provide a smoother ride.

Wave Dampening

2-7/8" EZ-RIDE PEDESTAL • 4" EZ-RIDE PEDESTAL • SHOCKER PEDESTAL • AVENTO SYSTEMS

Wave Dampening

2-7/8" EZ-Ride Pedestal

Retail				
Image	Part Number	Description	Pack Quantity	ABYC
A.	1080136-L1	2-7/8" EZ-Ride Pedestal Package	1 Pack	AD

OEM				
Image	Part Number	Description	Pack Quantity	ABYC
B.	1080136	2-7/8" EZ-Ride Wave Dampening Pedestal	1 Pack	AD

Uses a gas shock inside a mechanical spring to provide non adjustable wave dampening and soft ride.

12" anodized aluminum pedestal with 9" round base, 3-1/2" outer post with 2-7/8" inner post and four grooves with keys to provide rotation lock and restrict movement collar covers bushing and inner post keys.

- Allows 3-1/2" of vertical travel
- Developed and intended for recreational inshore use
- Tested to ABYC H31 dynamic static loads

4" EZ-Ride Pedestal

Retail				
Image	Part Number	Description	Pack Quantity	ABYC
A.	1080117	4" EZ-Ride Wave Dampening Pedestal	1 Pack	AD
B.	1080115	4" EZ-Ride Thru-Deck Pedestal	1 Pack	AD

(A.) Proven mechanical spring and hydraulic shock technology in a traditional pedestal configuration.

- Thick wall (.213) posts.
- Allows 5-1/2" of vertical travel

(B.) Proven mechanical spring in a traditional pedestal configuration

- Polished brite dip aluminum pedestal with 12" round base
- Thick wall (.213) posts.
- Allows 5-1/2" of vertical travel

175lbs per inch rating.

Shocker Pedestals

Retail				
Image	Part Number	Description	Pack Quantity	ABYC
A.	1080160	Shocker Pedestal, 1100 Pound Spring	1 Pack	AD
A.	1080165	Shocker Pedestal, 550 Pound Spring	1 Pack	AD

Uses proven mechanical spring and hydraulic shock technology. 1100 lb rated spring with adjustable flow shock absorber to control stiffness and dampening.

- Adjustable pitch control allows for softer or stiffer ride.
- Top plate has standard chair mounting pattern.
- Built in swivel rotates 360° and locks in 8 positions.
- Allows 4" of vertical travel

Wave dampening pedestal reduces the impact caused by harsh waves.

Avento Pro Air Package

ABOUT ACCESSORIES

Although Springfield Marine is best known for some of the highest quality seating hardware in the business, we have also become well known as a supplier of fantastic boat and trailer accessories made to protect and extend the life of your boat's components and to enhance your boating fun and safety.

From practical boat mounted items such as fishing rod holders to fine recreational products like ski tow pylons, we offer a wide variety of boat accessories.

Our trailer accessories follow close behind... Practical and easy to use products from portable trailer jacks to a wide range of fully adjustable motor supports, we provide safety and functionality to make life easier at a time when you should be relaxing.

So explore the accessories that Springfield Marine has to offer and then go out and enjoy!

Accessories

Inboard Pop Up Ski Tows

OEM			
Image	Part Number	Description	Pack Quantity
A.	1800090	Pop Up Ski Tow, Inboard, Round Base	1 Pack

Pop Up Ski Tows are designed with the strength to handle most tow sport activities. The single post design conceals neatly away into the deck when not in use and is activated with a single locking feature for easy conversion into ski ready position.

Pops up with just a twist, then is held up with a spring.

- 2-1/2" above deck, and 5-1/4" below deck
- Made from high strength aircraft aluminum
- Anodized finish
- Designed for 2000 lbs static load

Stows flush

Outboard Pop Up Ski Tows

OEM			
Image	Part Number	Description	Pack Quantity
A.	1800095	Pop Up Ski Tow, Outboard, Round Base	1 Pack
B.	1800096	Pop Up Ski Tow, Outboard, Oval Base	1 Pack
C.	1800096-E	Electric Ski Tow, Outboard, Oval Base	1 Pack

Ski Tows are designed with the strength to handle most tow sport activities. The single post design conceals neatly away into the deck when not in use.

- Stows flush with deck
- Made from aircraft grade aluminum
- Designed for 2000 lbs static load

(A. & B.) The Pop Up Ski Tows are activated with a single locking feature for easy conversion into ski ready position. 22" above deck and 37" below deck.

(C.) The Electric Ski Tow tracks up and down on a guid rail, and raises in under 25 seconds, at the press of a switch. 23" above deck and 37.5" below deck.

SPRINGFIELD MARINE'S
Color Coding System

Our Color-Coded Packaging System
 simplifies your search for the right item to fit your boat.
 Simply match the parts according to the color of your
 product series to ensure proper fit.

Springfield Marine Company

is a proud member of these associations and subscribe to the standards and practices which they set forth.

About ABYC H-31 Classifications And Safety Standards

The American Boat and Yacht Council (ABYC) has recommended marine industry seating standards for pedestal applications into two separate categories as follows:

- Class A** Seat designed for occupancy while the boat is underway at any speed.
- Class B** Seat designed for occupancy only at boat speeds not exceeding five miles per hour (fishing or trolling).

All pedestals must pass a series of tests within each of these classifications which include horizontal and vertical impacts, torque, static load, fatigue, and fastener pull testing.

There are two types of class A seats:

- Class AP - Passenger** Seat mount must resist 30 foot pounds of torque (non-locking).
- Class AD - Driver** Seat mount must incorporate a "mechanical interference lock" and resist 150 foot pounds of torque (locking).

CLASS B

CLASS AP

CLASS AD

Look for these labels to identify the ABYC H-31 Classifications

Springfield Marine Company has been a leader in establishing and complying with these ABYC recommended standards.

IN ORDER TO COMPLY WITH THESE STANDARDS, SPRINGFIELD COMPONENTS MUST BE COMBINED WITH OTHER SPRINGFIELD PARTS. MIXING SPRINGFIELD PARTS WITH NON-SPRINGFIELD COMPONENTS VOIDS THESE STANDARD CLASSIFICATIONS.
