Heritage

Born from a love of camping and outdoor living, coupled with a desire to always create and innovate, Campingaz® products are instinctive and inspired, simple yet clever solutions based on over 70 years of expertise.

Campingaz® stands for safe and reliable products that are made to stay with you. Be a part of our family!

It's the simple things that count...

Often simple thoughts spark big ideas; in 1949, when a young man embarked on a camping holiday with his family, he could never have anticipated that his thoughts that day would change the way in which people camped for generations to come.

Frustrated by the alternatives available, he set about creating a revolutionary refillable cylinder; compact and convenient, economic and easy to use. The Campinggaz® brand was born...and life outdoors was liberated.

From the beach to the campsite, or from the garden to the hills, Campinggaz® innovations have changed the blueprint for outdoor cooking and adventure, each decade introducing revolutionary innovations.

With over 70 years as a leader in outdoor gas and gas appliances and 70 years experience as the Outdoor Cooking Expert®, Campinggaz® has created reliable products that also form lasting memories.

New Barbecue Range**

The simple pleasures are the best.

The flavour of food cooked outdoors. The warm glow of evenings by lantern light. These are the moments, the memories and the feelings that inspire us at Campingaz[®], and have done for 67 years.

Since 1949 we've enhanced people's experience of the outdoors, becoming part of their life. We continue to innovate and inspire our versatile products that suit all your outdoor needs or wherever your adventurous spirit takes you. All our products are designed with one aim in mind: to make outdoor freedom accessible to everyone.

Today we still believe in that combination of practicality and inspiration – whether in your own back garden, on a beach or camping far from home. We continue to innovate because we know there are always smarter ways to do things, but we retain the classic solutions you know and love.

ATTITUDE

The Campingaz® Attitude Series of table top barbecues pairs sleek, urban styling with pioneering precision cooking, all within a compact, portable package.

Attitude 2100 LX

Attitude 2 Go

A woman with curly blonde hair, wearing a white t-shirt, is smiling and looking towards the right. In the background, another woman is visible, and there are trees and a wooden deck. In the foreground, a barbecue grill is visible with a skewer of food on it.

PREMIUM AND ONYX BARBECUES

Cook up a feast for family and friends with our premium series barbecues. Featuring efficient and high-performance stainless steel burners with our efficient Blue Flame Power System that ensures significantly less flare ups by design and keeps your food nice and juicy. Together with a large, enamelled cooking surface these barbecues are perfect for preparing a wide range of al fresco meals. The included Campingaz® Culinary Modular System provides keen grillers with even greater cooking versatility. Cleaning is quick and hassle-free thanks to the Campingaz® InstaClean™ Aqua System. Our newest addition to the Campingaz® Barbecue range make for the perfect companion: Either for hungry families as a 4 Burner or for everyone who loves high quality barbecue as a space efficient 3 Burner.

BLUE FLAME POWER SYSTEM

Significantly less flare ups by design!

The new Blue Flame power system by Campingaz® offers accelerated pre-heating, optimal heat distribution and significantly less flare ups by design.

The new shaped burner cleverly distributes flames under the entire grilling surface offering a perfectly even heat distribution. The burner protection is integrated into the cast iron grids removing the burner protection layer below the cooking surface. Hot grease and juices

are thereby prevented from collecting and causing dangerous flames in the fire box. Water from the InstaClean™ Aqua further assists in keeping inflammation in check.

The new stainless steel burners of the Blue Flame power system come with a 5 year warranty.

The new Campingaz® Blue Flame power system; durable, powerful and efficient burners for the perfect sizzle!

Keep it juicy AND crispy!

There is nothing better than grilling fresh food on your barbecue. But how do you keep it juicy without sacrificing that delicious crunch?

The Campingaz® Blue Flame power system generates delicate water evaporation, that locks in the succulent moisture of your food without losing the crispy barbecued crust.

Similarly, to how crusty loaves of bread are made, the Blue Flame power system keeps your grilled food juicy & crispy, whether you are grilling or roasting.

* Third Party testing confirms the new Campingaz® BBQ Series with the Blue Flame power burner keeps food juicy and improves crispiness for an overall better grilling result, when compared to the traditional burner of the Campingaz® BBQ Classic Series. For more information visit campingaz.com/keepitjuicy

INSTACLEAN™ AQUA SYSTEM

No more scrubbing!

Effortless cleaning thanks to InstaClean™ Aqua System.

We love to grill – but cleaning is always a pain. Good news: Our Campinggaz® Instaclean™ system just got even better.

Integrated in our Series barbecues, the clever and effortless Campinggaz® Instaclean™ Aqua technology harnesses the power of water to make cleaning a piece of cake.

Water is filled into the front-loading grease drawers, preventing all residual grease and food waste, from baking into the material. Similarly, the small amount of resulting evaporation during your grilling session, also works as a grease repellent, preventing

grease and grime from burning into the firebox materials. When it's time to clean, thanks to this clever system, you can remove the greasy grill parts and simply wash them off. No scrubbing required!

The waste water in the grease drawer can simply be drained by removing a plug. Premium and Onyx models come fitted with a waste water container including a removable filter to separate dense grease, making waste water disposal even more convenient.

Quick, effortless and squeaky clean!

CAMPINGGAZ® CULINARY MODULARS

Unleash your grilling creativity with prolonged cooking versatility

Extend your kitchen outdoors with Campingaz® interchangeable cooking solutions!

Simply take out the inner ring of the cast iron modular, or remove/reverse the adjacent griddle and insert one of the various Campingaz® Culinary Modular Barbecue Accessories. (items sold separately)

Culinary Modular System integrated in all Campingaz® Master, Onyx, Premium and Select models. System integration can vary on Classic range.

The Campingaz® Culinary Modulares offer every option your gourmet barbecue heart desires.

SELECT

Select the right BBQ! The new Select range of BBQ's make it easy to find the right BBQ for you.

Whether its 3 or 4 burners for small and larger families, a cast iron cooking surface that includes the Culinary Modular System for those inspiring grillers or a steel cooking surface for those that want value for money. Now made in Italy, the new Select range has something for everyone.

CAMPINGGAZ® CULINARY MODULARS

Versatile cooking and grilling options are quick and convenient with Campingaz® Culinary Modulares

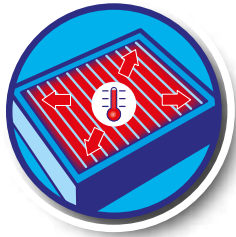

Extend your kitchen outdoors with Campingaz® interchangeable cooking solutions!

Simply take out the inner ring of the cast iron modular, or remove / reverse the adjacent griddle and insert one of the various Campingaz® Culinary Modular Barbecue Accessories. (items sold separately)

The Campingaz® Culinary Modulares offer every option your gourmet barbecue heart desires.

Cast iron Culinary Modular Grid is included on the following Select models: All 3 and 4 burner LX Plus and EXS models

EVEN TEMP™ TECHNOLOGY

Even Temp™ Technology Guarantees Even Heat Distribution

Grill effectively and efficiently with our Even Temp™ Technology for perfectly even heat distribution

Campingaz® BBQs with Even Temp™ Technology cook your food evenly across the entire cooking surface of your barbecue.

Thanks to the patented Even Temp™ Technology, Campingaz® barbecues reach

more than 250°C on the cooking surface.

This system is featured on all 4 & 3 Series, Select and Attitude Barbecues and Master Plancha and Blue Flame Planchas

INSTACLEAN™ SYSTEM

**Discover the ease of BBQ
cleaning** with the Campingaz[®]
InstaClean™ System

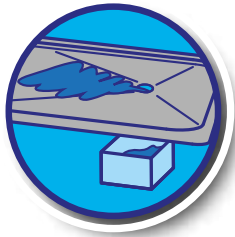

**Quick and simple!
Let your dishwasher do the work!**

The system allows you to remove all dishwasher safe parts in less than 60 seconds. The dishwasher will help remove remaining oil and grease.

All parts are designed to fit a standard dishwasher for even easier cleaning

INSTACLEAN™ EASYFLOW

Making cleaning up even easier
The new Campingaz® InstaClean™ Easyflow

Keep your BBQ ready for action

The InstaClean™ EasyFlow grease tray directs grease into the grease collection container while cooking so that you can easily keep your barbecue clean and ready for action

The grease tray and container are easily removable from the barbecue and can be cleaned effortlessly after every grilling session.

Tip: fill your grease collection container with some water to prevent grease from sticking to the plastic and make it easier to clean.

ATTITUDE

The Campingaz[®] Attitude range of table top barbecues pairs sleek, urban styling with pioneering precision cooking, all within a compact, portable package. The new Campingaz[®] Attitude 2go brings BBQ pleasures to all who want to stay flexible.

Intuitively designed for effortless barbecuing, you benefit from even heat distribution thanks to the Campingaz[®] Blue Flame burner system.

The elegant lid of our Attitude 2100 models, opens to reveal a split cast iron grid and griddle, while the Culinary Modular Accessories allow you to unleash your cooking creativity with options from pizza to paella. When you're done, InstaClean[™] ensures cleaning couldn't be easier - parts just pop in the dishwasher.

CAMPINGAZ® CULINARY MODULARS

Campingaz® Culinary Modulares One System, Endless Possibilities!

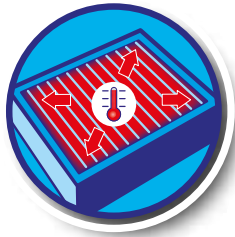

Redefine urban outdoor cooking with Campingaz® Culinary Modular accessories and the Campingaz® Attitude!

Simply take out the inner ring of the cast iron modular and insert one of the various Campingaz® Culinary Modular Barbecue Accessories. (items sold separately - not compatible with Campingaz® Wok)

Cast Iron Culinary Modular Grid included on the Attitude 2100 LX and EX models.

EVEN TEMP™ TECHNOLOGY

Even Temp™ Technology Guarantees Even Heat Distribution

Grill effectively and efficiently with our Even Temp™ Technology for perfectly even heat distribution

Campingaz® BBQs with Even Temp™ Technology cook your food evenly across the entire cooking surface of your barbecue.

Thanks to the patented Even Temp™ Technology, Campingaz® barbecues reach more than 250°C of the cooking surface.

This system is featured on all 4 & 3 Series, Attitude Barbecues, and Master Plancha and Blue Flame Planchas

CAMPINGAZ®

A man in a white shirt and a woman in a striped shirt are sitting at a wooden table outdoors. The table is set with various dishes, including corn on the cob, bread, and meat. There are also grilling tools like tongs and a knife on the table. The background is a dark, textured wall.

Barbecue Accessories

Improve your grilling experience from cooking to cleaning, with our recommended accessories.

Easily upgrade your barbecue with our Culinary Modulares and transform traditional grilling into a discovery of new flavors.

OUR COOKING SURFACES

Campingaz® cooking surfaces are engineered to provide you with all the tools needed for successfully cooking any recipe on our barbecues.

From grids to griddles that protect the grilled food from direct exposure to flames and even heat distribution. You'll find that cooking, grilling, or even baking are possible with Campingaz's® multiple cooking surfaces.

Grid: Steaks, sausages or larger pieces of meat should be grilled on a grid. Especially, if you want to achieve the characteristic BBQ grid pattern.

Griddle: The griddle is mainly used for delicate grill items, such as fish, vegetables, fruits or strips of meat. A griddle protects the grill items from direct exposure to flames and distributes heat more evenly. Most of our cast iron griddles are reversible and have a flat and ridged side for multiple cooking options.

Warming Rack: Different foods take different lengths of time to cook. A warming rack is a smaller second grill that's positioned above the main grill. The warming rack can keep food that has already been cooked hot without cooking it further allowing other slower-cooking food to catch up. It can also be used as an additional grilling surface when using the barbecue like an oven for dishes such as stuffed tomatoes or baked potatoes.

Plancha: Plancha-style embraces low-fat, high-heat cooking on a flat surface for delicious and easy-made dishes in a southern European flair. Grill a steak to perfection with an accompanied sautéed sauce. Or cook some Huevos Rotos con tortas at your next dinner party, followed by caramelized bananas. Cleaning is simple on our enamelled cast iron griddle.

OUR COOKING MATERIALS

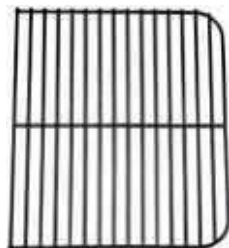

Campingaz® surface materials are engineered and tested to resist corrosion. In addition the materials used play a direct role in heat conduction and heat accumulation for even temperature distribution.

Enamelled Cast Iron: Enamelled cast iron grids and griddles conduct heat more intensively and sustainably than other materials. The pre-heating time of barbecues with cast iron cooking surfaces is slightly longer due to the thickness of the grids and griddles. The cast iron cooking surfaces are porcelain enamelled, protecting the cooking surface material from corrosion. They are produced in either a shiny/glossy look or in a textured, matte appearance. Grilled food doesn't stick as easily to the surface which aids cleaning and extends the lifetime of the cooking surface. We recommend to oil the cooking surface, regardless of the material, to avoid food from sticking to the surface.

Enamelled Stamped Steel Cooking Surfaces: These cooking surfaces are lightweight, easy to handle and easy to clean. The enamelling prevents residue from burning into the material and sticking to the cooking surface. They are dishwasher-safe, but can also be easily cleaned with a sponge and detergent.

Enamelled Wire: Used on Xpert models and as warming rack in the Master Series. Compared to chromed wire grids, the Enamelled surface is easier to clean and protects the chrome. The grids are dishwasher-safe, but can also easily be cleaned with a sponge and detergent.

Chromed Wire: This material is often used for warming racks. The grids are very light but need special care as grill residues might burn into the material. Generally, chromed grids are dishwasher-safe, but we recommend a manual pre-cleaning with washing-up liquid and a sponge.

CAMPINGAZ® CULINARY MODULAR BARBECUE ACCESSORIES

Along with the Culinary Modular Cast Iron Grid, you have the ability to use all Culinary Modular cooking inserts listed below. Simply remove the inner ring for use with the Pizza Stone, Wok, Poultry Roaster, Paella Pan. Please see page 66 for more information.

Culinary Modular Pizza Stone and Pizza Cutter

Ref: 2000014582
EAN: 3138522069711

Compatible with Campingaz® Culinary Modular System. Serve up a pizza at your next barbecue! Simply roll the pizza dough onto the stainless steel plate & transfer to the ceramic pizza stone insert over the grill. Grill with lid closed for a perfect result! Please see page 12 & 15 for more information.

Culinary Modular Paella

Ref: 2000015104
EAN: 3138522071301

Compatible with Campingaz® Culinary Modular System. The stainless steel, non-stick coated modular Paella pan fits directly into your cast-iron grid to ensure that heat is distributed evenly. Please see page 12 & 15 for more information.

Culinary Modular Poultry Roaster

Ref: 2000014576
EAN: 3138522069650

Compatible with Campingaz® Culinary Modular System. Simply fill the inner compartment with your favorite cooking liquid: beer, wine, broth, or any combination of oils and seasoning and place poultry directly on top of the cylinder. Please see page 12 & 15 for more information.

All Campingaz® materials for cooking surfaces are certified to be used with food according to the EN 1935/2004. Additionally they have all passed a sensorial check to make sure that the material does not impact the taste of your recipe.

Stainless Steel Tongs

Ref: 2000014567
EAN: 3138522069568

The long handles of the tongs ensure you won't get any nasty burns and the serrated ends ensure a good grip while you easily and effortlessly turn food.

Premium Plancha Spatula

Ref: 2000035410
EAN: 3138522113858

Campingaz® stainless steel spatula with comfortable handle, specifically designed to easily mix vegetables, meat or seafood on your plancha or barbecue. Also aids plancha surface cleaning and removal of grill residue.

Culinary Modular Mandarin Wok

Ref: 2000038449
EAN: 3138522122720

Compatible with Campingaz® Culinary Modular System.

Carbon steel wok with non-stick coating, perfect for Asian dishes made directly on the grill. Please see page 13 for more information.

Premium Rotisserie Kit

Ref: 2181640
EAN: 3138522128654

Compatible with all Campingaz® 3&4 burner barbecues (excl. Adelaide & 4 Series RBS)

Kit composed of 1 electric motor, 1 spit, and two double forks. The heavy duty kit is dedicated to rotisserie cooking lovers. Its heavy duty spit and forks support a weight up to 3 kilograms!

BARBECUE ACCESSORIES

Benefit from Campingaz®'s barbecue upgrades and replacement burner covers, grids, and InstaClean™ kits to bring new life into your loved barbecue.

3 in 1 Brush

Ref: 2000032608
EAN: 3138522104078

One brush for three actions: scraping off grease with the metal scraper, rubbing away sticky food with the abrasive nylon pad and cleaning between the grill grates with the strong, brass bristled brush. Sold in 18 piece PDQ

Premium Barbecue Glove

Ref: 2000035057
EAN: 3138522112349

Give your hand full mobility with a glove that can withstand heat up to 350°C. Use the Premium Barbecue Glove to easily lift modular units in and out of your barbecue (culinary modulars found on page 48)

Genuine Lava Rocks

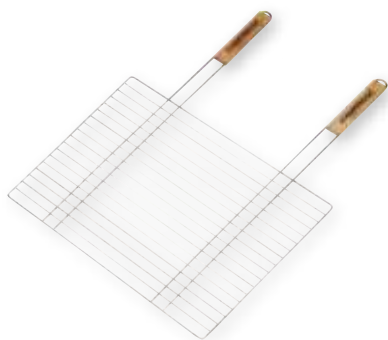

Ref: 205637
EAN: 3138522056377

- Replacement pack
- Natural product with a porous surface
- Sufficient for a 1500cm² cooking surface

BARBECUE ACCESSORIES

Grilling multiple burgers, sausages or fish at the same time? Simplify rotating food and avoid singed arms with these handy grids and baskets.

Rectangular Single Grid Basket

Ref: 205704 53x39cm
EAN: 3138522057046

Chrome plated double grid with wooden handles.

Double Grid Basket

Ref: 205703 40x29cm
EAN:3138522057039

Chrome plated grid with wooden handle.

PREMIUM BARBECUE COVERS

These covers don't just keep the rain out, they force condensation out too, using our water-resistant, breathable technology. Combine that with an included storage bag, and you've got a compact, unobtrusive and highly effective range of covers.

CAMPINGAZ®

Cartridges

Energy for your outdoor-living!

Powerful & convenient.

From lightweight stoves on backpacking adventures to powerful cookers at your favourite campsite; from gardening equipment to your hobby or DIY devices; our cartridges are your source of energy. Easy to handle, safe and efficient!

WHY YOU CAN RELY ON CAMPINGAZ®

Campingaz® is one of the European pioneers when it comes to portable energy solutions. Since 1949 Campingaz® branded products enable people to enjoy living and cooking outdoors.

The Campingaz® cartridges

- Available as Butane and Butane/Propane blend
- Available as a pierceable cartridge with innovative Gas Lock system (as of 2014)
- 100% quality controlled in Europe
- Available with the patented Easy Clic™ Plus valve system for utmost consumer comfort
- Dedicated cartridge solutions for distinct products like table top stoves and DIY tools
- Available all over Europe and beyond

With Campingaz® you never run out of gas!

CHOOSE THE RIGHT GAS...

Valve cartridges

Featuring a self-sealing valve, they can be disconnected and reconnected even when not empty!

Pierceable cartridges

Economical single use cartridges that cannot be disconnected from a product until the cartridge is empty.

2 SECURE CONNECTION TYPES

Easy Clic™ Plus

An even more convenient system made for valve cartridges – simply rotate 45° to get connected!

The Easy Clic™ Plus connection is the most simple and technically sophisticated connection which allows the fixing of a valve cartridge on a stove or on a lantern with a simple 45° rotation.

1- Fix

Applying a small amount of pressure on the device with the cartridge is enough

2- Turn

Apply a 45° left turn on the device and you're connected!

Screw in system for the cylinder connection

1- Insert

Insert the device in the valve head of the cylinder

2- Turn

Turn right to screw it in and connect, turn left to unscrew

Butane/Propane mix
Recommended for better performance
at low temperatures.

VALVE CARTRIDGES

Our range of valve cartridges have a high security self-sealing valve giving them all the advantages of being resealable – so they can be disconnected and reconnected even when they're not empty. Ideal for periodic, moderate use.

Butane/Propane mix

Recommended for better performance at low temperatures.

CV300 Plus

2179842
3138522128135

Contains 240g Butane/Propane mix (80/20)

Size (without cap) ø 9 x 10.5 cm

Weight 410 g

CV470 Plus

2179821
3138522128111

Contains 450g Butane/Propane mix (80/20)

Size (without cap) ø 11 x 14 cm

Weight 710 g

CP250

For Bistro™ type stoves
2000033971
3138522109271

Contains 220g of Butane/Isobutane mix

Size (without cap) ø 6.9 x 18 cm

Weight 315 g

* Not Made In France

PIERCEABLE CARTRIDGES

Pierceable cartridges can't be disconnected once they've been plugged into an appliance, so they're suitable for more intensive or longer use – they're also our most economical and widely available cartridges.

C206 GLS

The cartridge has an integrated leakage limiter, the Gas Lock System, which is compliant to the European standard EN 417:2012 legislation. The system prevents the majority of residual gas from escaping the cartridge when accidentally disconnecting it from the appliance, thereby also preventing flare-ups.

C206 GLS

3000002290 - Butane
3138522069179

Ref: 3000002295 - Butane/Propane mix
3138522069216

Contains 190g Butane or Butane/Propane mix (80/20)

Size ø 9 x 9.5 cm

Weight 280 g

C206

3000006403 - Butane
3138520182009

Contains 190g Butane

Size ø 9 x 9.5 cm

Weight 280 g

This C206 cartridge does not include the Gas Lock System and will be kept available only for markets not following the EN417:2012 standard.

A person in a floral dress stands on a balcony with a grill and food. The balcony has a metal railing and a view of a city with trees and buildings under a blue sky with clouds. The person is holding a wooden spatula. On the balcony, there is a grill with a plate of food, a bowl, a glass of water, and a small jar. The background shows a cityscape with trees and buildings under a blue sky with clouds.

Versatile Urban & Caravan Grilling

Whether you are looking for a space saving grill for your city balcony or practical cooking gear for your caravan kit, we've got the right grills for you.

Explore our wide range of grill and stove combos perfect for small urban outdoor spaces or cozy evenings while on a caravanning adventure. All grills and stoves are supported by our globally available range of gas cartridges and cylinders. Whichever you choose, you can be sure that they're reliable, safe and practical.

MULTI-COOKING OPTIONS

The Campingaz® cooking world - a world of multi-cooking options!

Whether camping with family and friends, for long or short periods, for a day on the beach or a simple picnic in a park, Campingaz® offers a wide range of portable stoves that enable all cooking possibilities. There is no need to compromise, even when outdoors, you have all the options to prepare your favourite meals, like at home.

Why not prepare an English breakfast with beans, sausages and toast? Or perhaps grill some fresh fish whilst cooking some pasta? Alternatively, you may prefer to bake a pizza? All these tasty dishes are possible with the Campingaz® gas stove range.

Cooking

Grilling

Toasting

Spit style roasting

CHOOSE THE RIGHT STOVE...

Make sure you choose the right stove for your needs.

1. Cartridge or cylinder?

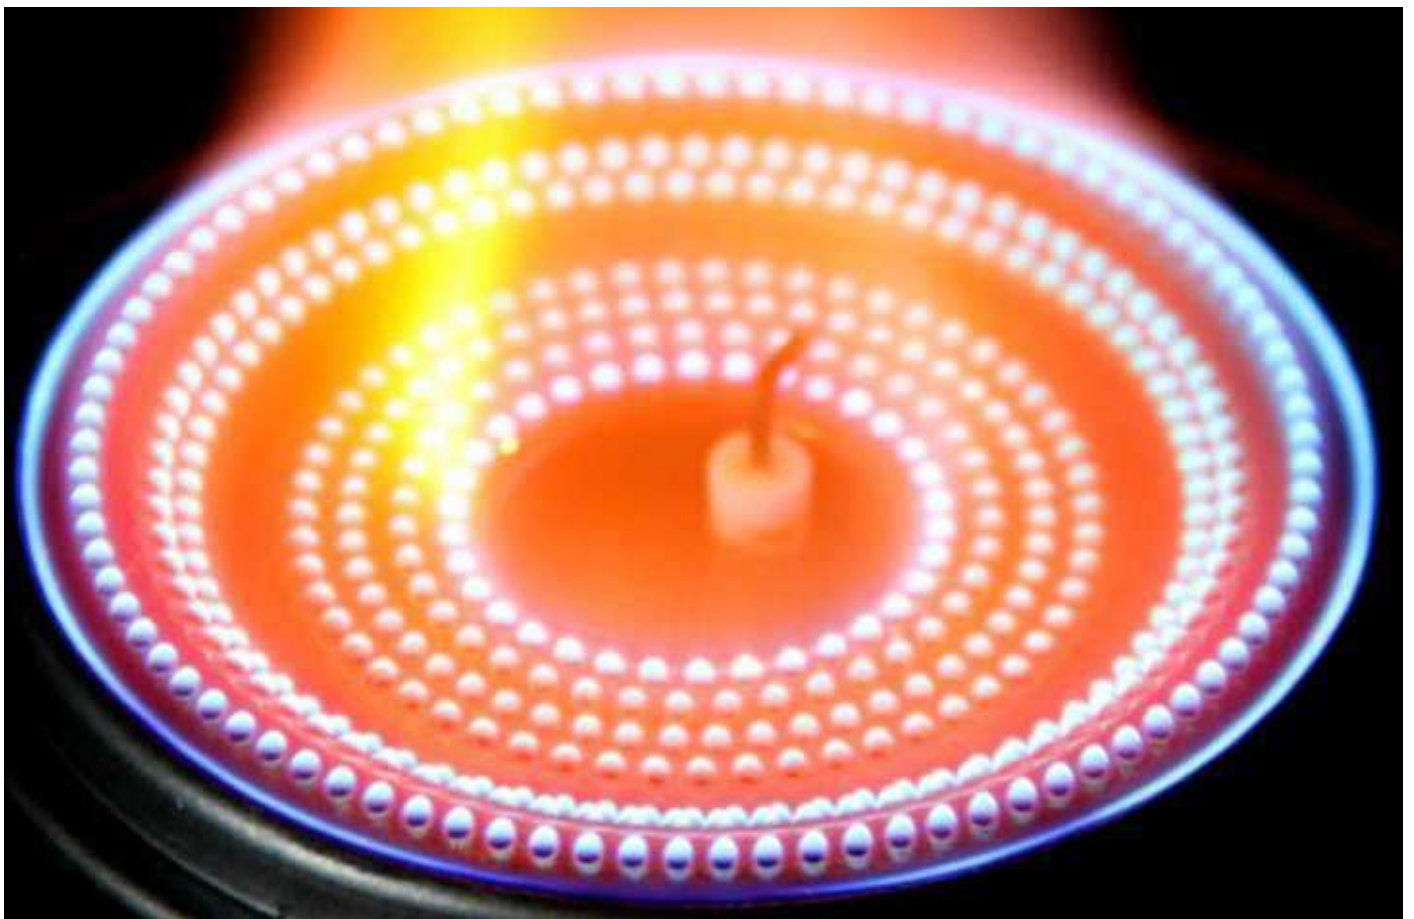

Cylinder stoves are designed to run for much longer and produce more power for intensive use. Refillable cylinders are heavy and not very practical if you're going hiking. For portability, a cartridge stove is the way to go! Each of our two burner cylinder stoves can run off either Campingaz® R904/907 gas cylinders or any standard butane or propane 6kg gas cylinder.

2. Single or multi-burner?

A single-burner stove is lighter and more compact but only allows you to cook one thing at a time. Two burner stoves give you more options for your cooking and often come with a stand but can be a little less handy and more heavy than a single-burner stove.

3. Burner and grill?

Ask yourself what kind of cooking you would like to do. If you intend on mainly making a cup of tea or heating baked beans, one burner may be enough. If you want to cook a full breakfast, consider a burner and grill combination.

360 GRILL RANGE

Introducing the very first table-top style gas grill with a flat design that can be grilled on from 360° while comfortably sitting at the table. The Campinggaz® 360 Grill offers extensive grilling and cooking versatility with an included ribbed griddle, flat plancha as well as a pan support for stove cooking. The practical grill

comes completely pre-assembled and the sexy, yet simple design ensures it will harmoniously integrate into both close to home urban settings as well as on any caravan adventure. Light, compact and convenient to take along with you wherever the road takes you.

Gives you space to cook for all family and friends...

Easy to set up...

To ignite...

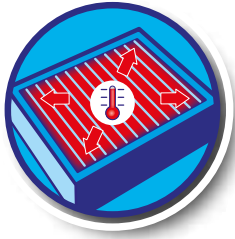

To clean...

And to carry.

EVEN TEMP™ TECHNOLOGY

Even Temp™ Technology Guarantees Even Heat Distribution

Grill effectively and efficiently with our Even Temp™ Technology for perfectly even heat distribution

The Camping Kitchen 2 Grill & Go with Even Temp™ Technology cook your food evenly across the entire cooking surface. Thanks to

the Even Temp™ Technology, griddles reach more than 250°C on the cooking surface.

**Heat distribution testing done per internal process*

CAMPING KITCHEN™ 2

Camping Kitchen™ 2 Multi-Cook

2197176

NEW

With Flame Guard™ technology you'll get cooking fast under windy conditions. 1 liter of water achieves 90 degrees celsius boiling time, with up to 3m/s wind, in under 12 minutes.

The new Flame Guard™ technology is designed for optimal flame protection and less gas consumption.

Flame Guard™ technology for **optimal flame protection** even with wind up to 3m/s

Independent **piezo ignition**

Compact, all-in-one portable stove

Optimal heat diffusion with tube burner set along entire width of the die-casted aluminum griddle

Removable pan supports for quick and **easy cleaning**

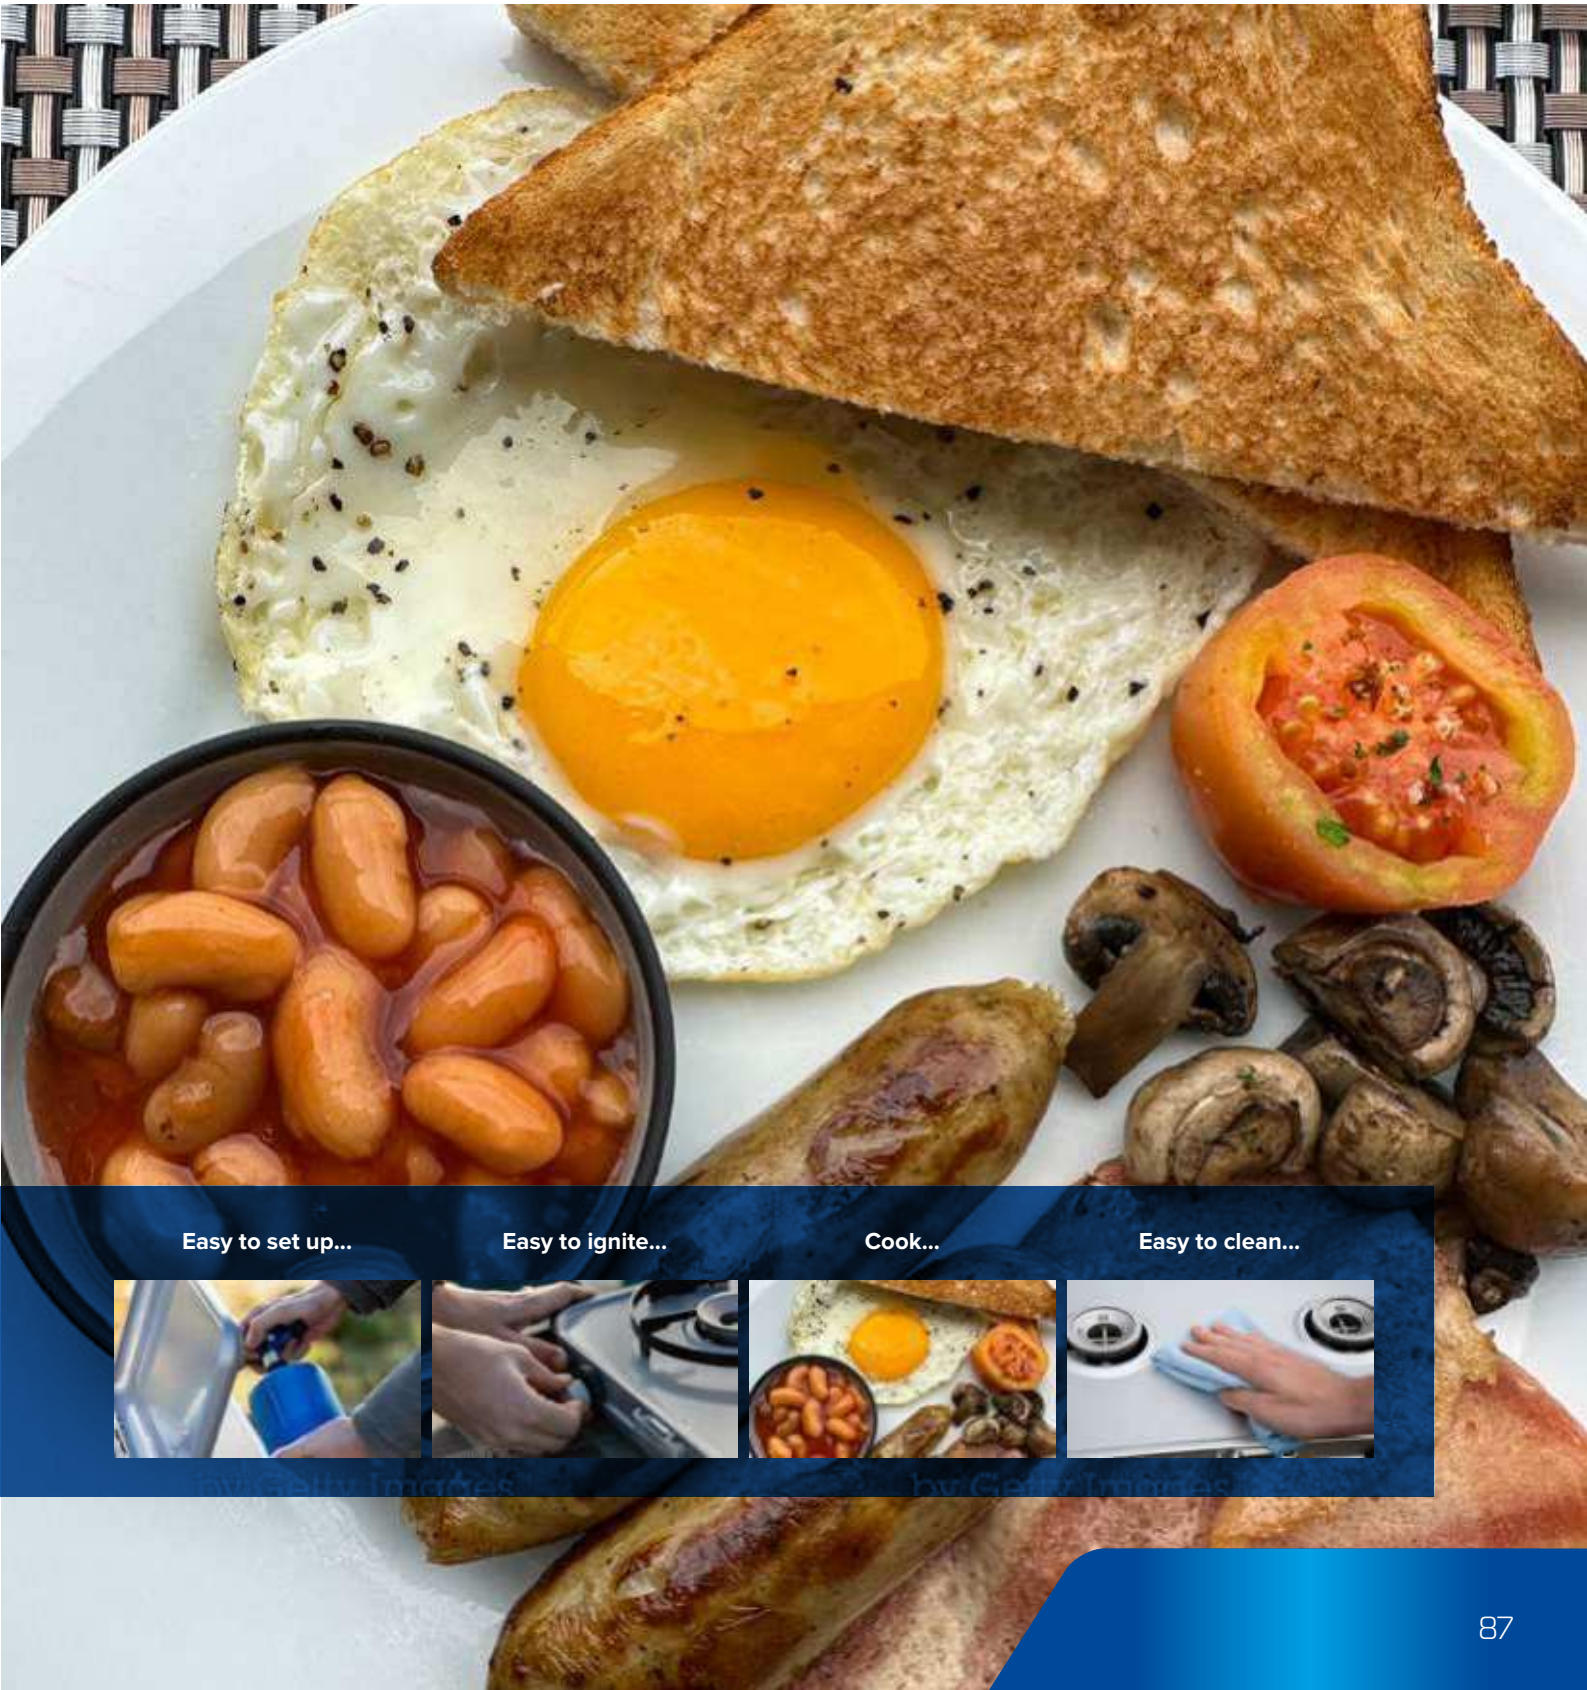

3 cooking zones with **individual heat control**

Food Preparation

The Camping Kitchen™ 2 Multi-Cook stove combines cooking and grilling in one, with three independent burners allowing to individually control your heat. Simultaneously boil, saute', and toast for a hot and timely served meal. Even when the weather is unpredictable, the burners' Flame Guard™ Technology is designed for optimal flame protection for the best outdoor cooking

experience. Not only is cooking all-in-one, but so is portability. With reinforced hinges connecting the lid to base, the entire stove becomes its own case for clean and quick packing before and after your trip. Pan supports and grilling plate are all removable for easy clean-up.

BISTRO™ GRILL

Bistro™ Grill

NEW

2197182

Grilling surface: 1000 cm², die casted aluminum with non-stick coating

Removable components for easy cleaning : griddle, grease tray and grease drainer.

Piezo ignition with **heat**

Over 1.5 hours of cooking time with **CP250** (max. power)

Dual **safety system**

Pre-assembled: Ready to grill after 6 minutes preheating

Hard plastic carry case included

Food Preparation

The legendary Bistro™ is making an entrance in the extra-mobile barbecue world, to be your grilling companion for every occasion: at home on your balcony or in your garden; camping or on the road. The new Bistro Grill, with its large non-stick grilling surface, needs only 6 minutes to preheat and you're ready to start cooking. The grilling plate offers a ridged surface for cooking

grease to flow downward and into a removable, grease tray. The grill runs on a CP250 gas cartridge and has a dual safety system installed to cut the gas flow and disconnect the cartridge in case of any overheating. Packing for travel will remain hassle-free with its 100% recycled plastic, travel case, keeping all components organized.

COLEMAN® COOKING STAND

NEW

For the ultimate European Camper, the Cooking Stand kitchen designed by Coleman®, but with Campinggaz® stoves in mind. The Cooking Stand portable kitchen is your compact kitchen companion with all the features needed to set-up your kitchen. Easily folds and portable, the Cooking Stand features standard counter height for cooking comfortably with your stove, plus a bottom shelf to hold either a cylinder or cooking supplies. An easily accessible hanging trash bag compartment and an additional gas cartridge holder is integrated into the fold-out Cooking Stand. The attached, and sturdy side table makes cooking convenient from food prepping, directly to cooking on the stove-top. The side table has a protective antimicrobial lining to prevent bacterial growth, mould, and mildew. A hanging textile cupboard with shelving attachment to store additional cooking or food supplies keeps your campsite organized and tidy.

CAMPINGAZ®

Coolers

Cold, hot, large, small, rigid, soft, electric, traditional, funky, plain... we've got them all.

All our coolers are built to last and offer high performance at great value. Whether you're camping or just out in the countryside for the day, keeping your food and drink chilled is a basic luxury, and with a wide selection available, you'll find the right cooler for all occasions.

THE RIGHT COOLER...

Whether you are on a campsite, travelling by car or undertaking a spontaneous day trip - the Campinggaz® cooler ranges cover all your needs for different occasions, just choose the right one:

**ANTIMICROBIAL
LINER
PROTECTION
LIMITED TO PRODUCT**

An antimicrobial additive is melted down into the plastic before it's moulded into the liner to ensure that it's "there for life" and cannot be scratched off or weakened over time.

Thermoelectric coolers

Thanks to an integrated cooling system, Thermoelectric coolers offer a longer, excellent performance for your camping holiday and are treated with an antimicrobial liner. They can be plugged into:

- A car cigarette lighter
- A 230Vac via a transformer (integrated or sold separately)

Hard coolers

The Campinggaz® hard coolers are perfect for a weekend trip to keep your food and drinks fresh.

A wide range covers your individual needs and offers performance for your camping holiday:

- Antimicrobial treated lining only on Icetime Plus Extreme coolers
- Excellent insulation
- Superior quality supported by numerous tests

Soft coolers

A great combination of superior insulation, lightweight textiles and attractive designs for outings and short trips:

- Antimicrobial treated lining on all The Office and Jasmin soft cooler ranges
- Easy to carry thanks to its lightness
- Easy storage due to foldable system and flexible shoulder strap
- Easy to clean thanks to seamless inner liner and fabrics used
- Different designs ranging from 'Classic' to 'Fashion' meeting your individual desires

Freeze'Pack™ will increase your cooling performance

Flexi Freeze'Pack™ will increase your cooling performance

A guide to the new Campingaz® TE and passive cooler ranges

CAMPINGAZ® THERMOELECTRIC AND HARD-SIDED COOLERS

Campingaz® lineup of stylish & sleek, high performance electric and passive coolers, jam-packed with brand new features from the lid to the base! With the long-standing tradition and heritage for cooling performance from

Campingaz®, campers, picnic-goers, and vacationers alike can rest assured their food and drinks will stay cool for the whole journey!

FOUR MODE ADJUSTABLE COOLING PERFORMANCE

The Campingaz® Powerbox™ Plus AC/DC hard cooler features a control dial with 4 modes, allowing you to choose the performance and efficiency level. The coolers can be turned off by putting the dial on “OFF” mode without the need to unplug the cord.

To reduce the noise level of the fan switch to “NIGHT” mode. The internal fan operates at a 36db level, which is quieter than the suggested night noise level by WHO (World Health Organization)

For an efficient, yet environmental friendly operation, the “ECO” mode can be used, giving an A++ energy rating.

“MAX” mode is available for the ultimate cooling performance.

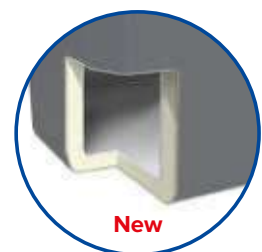

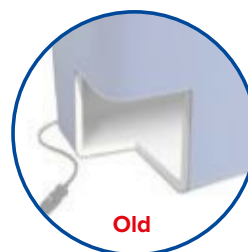

THICK, PREMIUM PU HARD COOLER INSULATION

Tests show that cooling loss is significant through the base of coolers.

Campingaz® models feature an increased insulation base and have two integrated, rounded feet providing the perfect amount of space for air to flow.

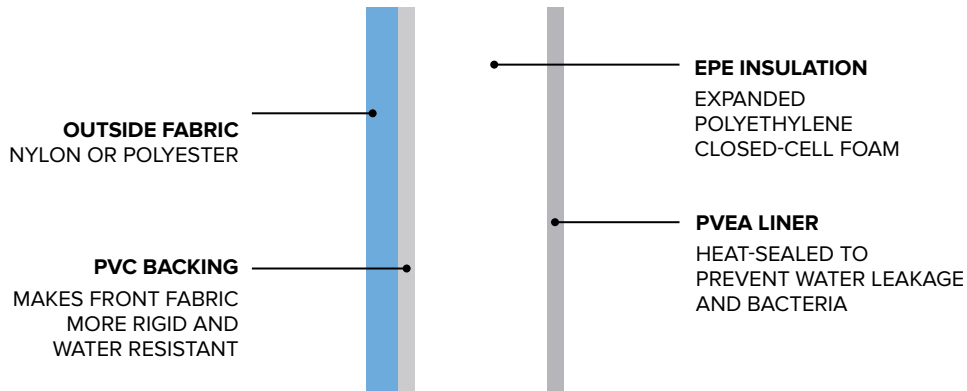

All Campingaz® hard coolers are constructed with Polyurethane (PU) insulation material, the highest quality insulation material available on the market — utilising more insulation on each of our new coolers than competitors!

Prior to assembling, the PU is injected into the casing of the cooler; whereas most competitors use Expanded Polystyrene – EPS which is 20% less effective than our PU insulated coolers.

Increasingly more PU insulation compared to prior and competitor models.

SOFT COOLER INSULATION

ANTIMICROBIAL LINER PROTECTION LIMITED TO PRODUCT

Campingaz® was the first TE cooler on the market to contain an antimicrobial liner which resists the formation of mould, mildew, and unpleasant odours which may develop from bacteria inside a cooler.

Our non-toxic, safe to use, antimicrobial effect is obtained from an additive which is melted down into the plastic before it's moulded into the liner and it's a lifetime treatment. It cannot be scratched off or weakened over time.

FREEZE GUARD

An integrated sensor protects cooler contents from being frozen.

Includes: Powerbox™ Plus 12V/230V

BATTERY SAVER

An electronic chip senses when a car battery does not have enough charge to start ignition and shuts off power to the TE cooler.

NEW HINGED LIDS AND WIDE LID OPENING

Snug fit handle for convenient storage, wide mouth for easy filling.

Includes: All new Campingaz® Passive and Electric coolers.

THERMOELECTRIC COOLERS

The Campinggaz® Powerbox™ Plus AC/DC active cooler range operates off a 12V car plug-in or a 230V electrical outlet (both cables included), combined with the high-performance injected PU foam, the coolers will keep contents at 19°C below the ambient temperature. They feature a control dial with 4 modes, allowing you to choose the performance and efficiency level. The

coolers can be turned off by putting the dial on “OFF” mode without the need to unplug the cord. To reduce the noise level of the fan switch to “NIGHT” mode, and for an efficient, yet environmental friendly operation, the “ECO” mode can be used, giving an A++ energy rating. “MAX” mode is available for the ultimate cooling performance. Assembled in Italy.

ANTIMICROBIAL LINER PROTECTION LIMITED TO PRODUCT

Inhibiting the ability of microorganisms to grow, many Campinggaz® coolers feature an Antimicrobial Liner, a powerful protection ensuring resistance to mould and mildew growth inside the coolers and it also blocks unpleasant odours from developing.

An antimicrobial additive is melted down into the plastic before it's moulded into the liner to ensure that it's “there for life” and cannot be scratched off or weakened over time.

The coolers can be turned off by putting the dial on “OFF” mode without the need to unplug the cord. To reduce the noise level of the fan switch to “NIGHT” mode, and for an efficient, yet environmental friendly operation, the “ECO” mode can be used, giving an A++ energy rating. “MAX” mode is available for the ultimate cooling performance

Powerbox™ Plus 36L 12/230V

Reference	2000037448
EAN code	3138522119751
Capacity	36L
Fit	10
Features	Thick, premium PU insulation, runs off a 12V car plug-in or a 230V wall outlet, built in transformer, four mode adjustable cooling performance, locking lid that 'clicks' on close, antimicrobial liner, two side handles, assembled in Italy
Insulation	PU
Insulation performance (+/- 1°C)	19 degrees below ambient temperature
Weight	5.2kg
Outer Dimension (LxHxW)	55.9 x 40.4 x 34.8 cm
Inner Dimension (LxHxW)	46.7 x 29 x 27.5 cm
Qt. Master carton	1

THERMOELECTRIC COOLERS

The Campingaz® thermoelectric cooler range is packed with 30% more premium insulation than its predecessor. When plugged into your car or into the main electricity port via a transformer, they keep their contents 20°C below the ambient temperature. The improved and very quiet fan emits a maximum of 39 dB, that won't wake you up at night! The power cord and plug can also be easily removed and conveniently stored inside the cooler during non-use. The 12V easily removable cord can be quickly stored inside the cooler when not in use.

The Campingaz® thermoelectric coolers also have a breakthrough, antimicrobial liner that resists odour, mould and mildew. The antimicrobial additive is injected into the plastic of the liner, meaning it's there for the life of the cooler – it can never be scratched off or removed. With a new and modern shape built from strong and thick polypropylene these coolers stay cool for hours even when unplugged.

ANTIMICROBIAL LINER PROTECTION LIMITED TO PRODUCT

Inhibiting the ability of microorganisms to grow, many Campingaz® coolers feature an Antimicrobial Liner, a powerful protection ensuring resistance to mould and mildew growth inside the coolers and it also blocks unpleasant odours from developing.

An antimicrobial additive is melted down into the plastic before it's moulded into the liner to ensure that it's "there for life" and cannot be scratched off or weakened over time.

DIY

Whether you want to work in and around the house, tidy up weeds and light bonfires, we'll help you enjoy your time in your house and the garden. Campingaz® products for DIY are designed to make life easier.

You can use blowtorches on a whole range of jobs, from stripping paint to clearing weeds or even just starting a bonfire.

PIERCEABLE CARTRIDGE BLOWTORCHES

The Pierceable blowtorches, in particular the Soudogaz® X2000 and the Soudogaz® X2000 PZ, are our bestsellers among blowtorches, they are our icon products and well-known for years. They are extremely versatile tools, ideal for many types of DIY jobs. The Soudogaz® X2000 models are equipped with a metal housing, for a greater

protection of the cartridge and for longer durability. The cartridge can be easily loaded and connected. The nozzle is in brass and it can be easily removed; it is compatible with separately sold multifunction accessories. The blowtorches have a comfortable grip and the power can be adjusted precisely.

- Glossary

CARTRIDGES FEATURES

Valve cartridges: Featuring a self-sealing valve, they can be disconnected and reconnected even when not empty!

CV300 Plus

CP250

CV470 Plus

Pierceable cartridges: Single use cartridge with the exclusive Clip & Go™ system makes cartridge connection and replacement very easy and user friendly.

C206

C206 GLS

Easy Clic™ Plus: Simple method for attaching a valve cartridge

1. Click.
Simply press the appliance into the valve cartridge.

2. Rotate.
Twist the appliance 45° to the left to secure cartridge.

COOLER FEATURES

A non-toxic and safe antimicrobial treatment on the liners to stop mildew, mould, and odour-forming bacteria.

12Vdc: Runs off 12Vdc car cigarette lighter.

12Vdc/230Vac: Can be used in 230Vac mode with an 230Vac/12Vdc transformer.

Capacity: Capacity of the cooler, indicated by the amount of litres that the cooler can hold.

Capacity: Capacity of the cooler, indicated by numbers of bottles that the cooler can hold.

Cooling performance: Guarantees 17 hours (numbers will vary) temperatures below 15°C (with Freez'Pack).

Cooling function: The outside temperature minus 18 degrees Celsius (number varies between products) equals the temperature inside the cooler.

WARRANTY APPLICATION TERMS AND CONDITIONS: Please refer to the Instruction Manual. To find out more about our warranty visit www.campinggaz.com and view the After Sales section.

TYPE OF IGNITION

Piezo ignition: In a traditional piezo ignition, a small hammer hits against a crystal which creates a small spark that is used to ignite the gas. This always happens with an easily recognizable sound. Sometimes it needs more than one push to successfully ignite the gas with a piezo ignition.

Electronic ignition: Easy start due to a battery-powered circuit. A battery-powered tension is used to create a spark. The typical noise here is a silent clicking.

InstaStart™ ignition: This special type of electronic ignition is a convenient push and turn-button lighting system designed specifically for our BBQ grills. Pushing the button creates a spark. Turning the same button starts the flow of gas, that then ignites the spark to become a flame.

Push & Turn Piezo ignition: This special type of ignition is a convenient push and turn-button lighting the system designed specifically for our gas stoves. Pushing the button creates a spark. Turning the same button starts the flow of gas, that then ignites the spark to become a flame.

BBQ FEATURES

Stainless steel burners

Standard burners

Patented blue flame burner

Side burner: More cooking possibilities with a side burner that can be used for pots and pans.

Even Temp™ Technology: Even heat distribution across the entire cooking surface.

Less flare ups: Designed for healthier cooking with less flaring from the burners.

BBQ FEATURES

Campingaz InstaClean™ System:
Removable dishwasher safe parts.

Easy clean: Can be washed and cleaned easily.

Campingaz™ Culinary Modulars:
Experience different cooking possibilities with exchangeable inserts.

Thermometer

Durable cast iron grilling grid with integrated resistance protection reducing the risk of flare-ups

Foldable side tables: Fold away for space saving storage.

Slidable side tables: Slide away for space saving storage.

Number of people that can be served per grilling session

Illuminated control knobs

STOVE FEATURES

Power adjustable: Fully adjustable power.

Boiling time: Takes 3min and 3sec until boiling (numbers will vary)

Quick cooking: Quick cooking using a powerful burner.

Stopgaz: for added safety, the gas cuts off automatically if the flame is blown out.

Weight: Product weight.

Regulator and hose included

Easy to carry: Convenient carrying and easy storage.

Fat collecting: Fat collecting system for healthier cooking.

Stable and tough base for better stability when cooking and working on uneven surfaces
