Triple Engines with DEC Controls - 2nd Station

Parts order list for basic installation:

Quantity	Description	Part Number
1	Command Link Plus® 2 nd Station Triple Engine Control Box	CL-3SB
1	Command Link Plus® 2 nd Station Switch Set	6X6-W0035-90-00
3	CLP Primary Harness	See List ¹
3	DEC Secondary Harness	See List ²

¹ CLP Primary Harness

16 ft.	6X6-8258A-G1-00
26 ft.	6X6-8258A-H1-00
40 ft.	6X6-8258A-J1-00

² DEC Secondary Harness

16 ft.	6X6-8258A-B1-00
26 ft.	6X6-8258A-D1-00
40 ft.	6X6-8258A-F1-00

Adding a Multi-Hub

If there are no unused "Device Ports" on the Multi-Hubs already installed, before adding additional accessories or gauges to the network another Multihub must be added.

Parts order list for basic installation:

Quantity	Description	Part Number
1	Multi-Hub	6Y8-81920-01-00
1	Main Bus Harness	See List ¹

¹ Main Bus Harnesses

1 ft.	6Y8-82553-01-00
10 ft.	6Y8-82553-50-00
15 ft.	6Y8-82553-11-00
20 ft.	6Y8-82553-21-00
25 ft.	6Y8-82553-31-00
30 ft.	6Y8-82553-41-00

Adding a Gateway

Adding a Gateway to the Digital Network requires one open "Device" port. If no open port exist, a Multi-Hub must also be added.

Parts order list for basic installation:

Quantity	Description	Part Number
1	Command Link® / Command Link Plus® Gateway	MAR-GTWAY-KT-10

Kit includes 2 ft. Pigtail Harness (6Y8-82521-11-00) and NEMA 2000® Wirelead (6YG-82521-00-00)

Parts order list for basic installation:

Quantity	Description	Part Number
1	Command Link® / Command Link Plus® Gateway	MAR-GTWAY-KT-10
2	Inline Hub	6Y8-81920-11-00
1	Orange Extension Harness (14 ft.)	6Y8-82553-60-00
1	Pigtail Harness	See List ¹

¹ Pigtail Harnesses

1 ft.	6Y8-82521-01-00
2 ft.	6Y8-82521-11-00
3 ft.	6Y8-82521-21-00
6 ft.	6Y8-82521-31-00
9 ft.	6Y8-82521-41-00
12 ft.	6Y8-82521-51-00

Kit includes 2 ft. Pigtail Harness (6Y8-82521-11-00) and NMEA 2000® Wirelead (6YG-82521-00-00)

Adding a AGI (Analog Gauge Interface)

Adding an AGI to the Digital Network requires one open "Device" port. If no open port exist, a Multi-Hub must also be added.

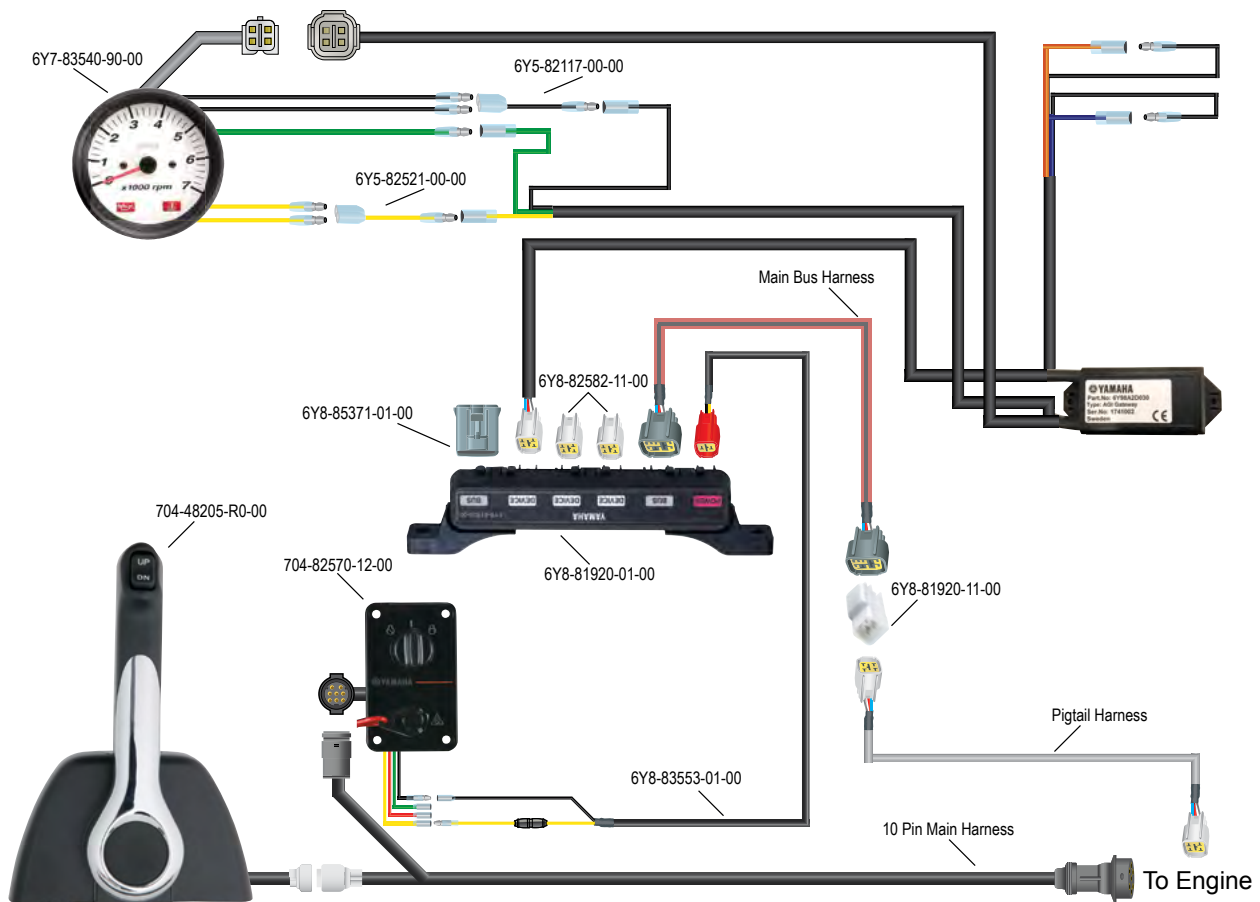

Parts order list for basic installation:

Quantity	Description	Part Number
1	Command Link® / Command Link Plus® AGI	6Y9-8A2D0-30-00
1	Pigtail Harness	See List ¹

¹ Pigtail Harnesses

- 1 ft. 6Y8-82521-01-00
- 2 ft. 6Y8-82521-11-00
- 3 ft. 6Y8-82521-21-00
- 6 ft. 6Y8-82521-31-00
- 9 ft. 6Y8-82521-41-00
- 12 ft. 6Y8-82521-51-00

Adding a Multisensor

Adding a Multisensor to the Digital Network requires one open "BUS" port. If no open port exists, refer to the diagram on the next page (The "Bus" ports maybe come full with a CLP network installed on a second station).

Parts order list for basic installation:

Quantity	Description	Part Number
1	Command Link Plus® Multisensor Kit	MAR-3DCER-KT-00
1	Main Bus Harness	See List ¹

¹ Main Bus Harnesses

1 ft.	6Y8-82553-01-00
10 ft.	6Y8-82553-50-00
15 ft.	6Y8-82553-11-00
20 ft.	6Y8-82553-21-00
25 ft.	6Y8-82553-31-00
30 ft.	6Y8-82553-41-00

Adding a Multisensor to the Digital Network requires one open "BUS" port. When no open port exists refer to this diagram.

Parts order list for basic installation:

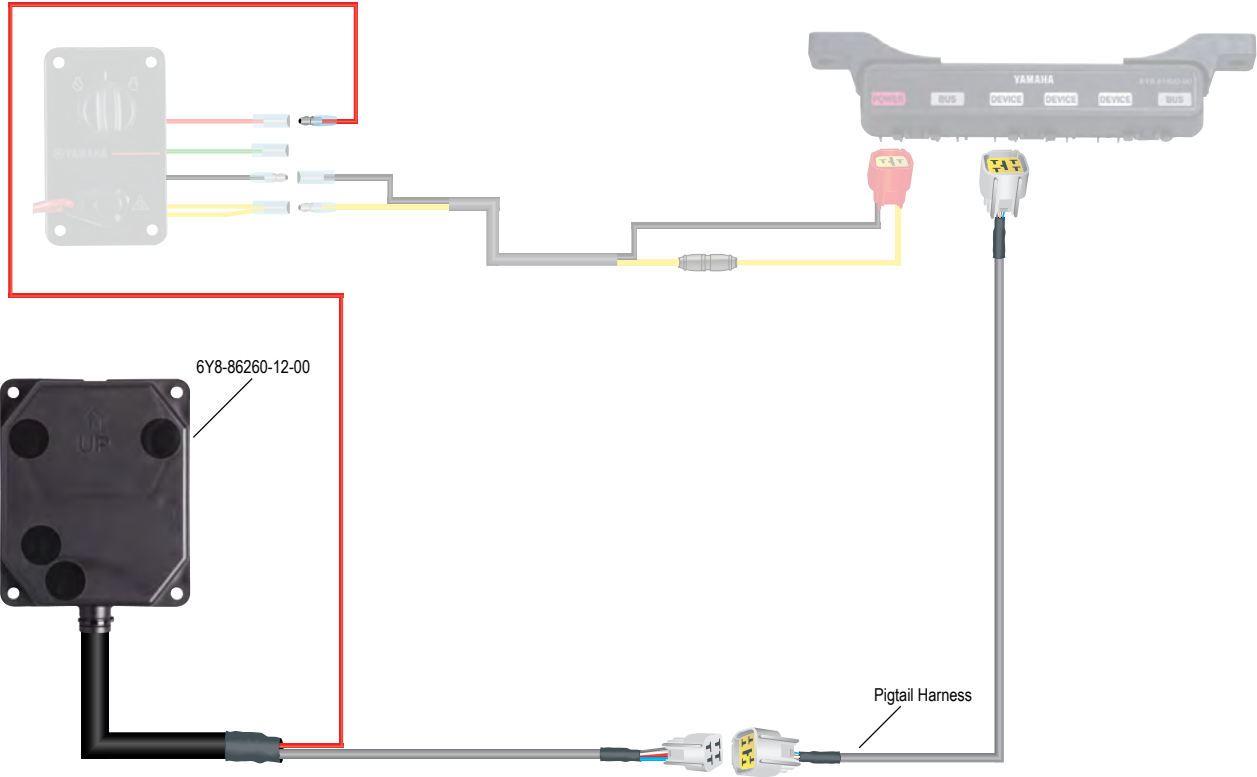

Quantity	Description	Part Number
1	Command Link Plus® Multisensor Kit	MAR-3DCER-KT-00
1	Command Link Plus® Y Adaptor	6Y9-83553-10-00
1	Main Bus Harness	See List ¹

¹ Main Bus Harnesses

1 ft.	6Y8-82553-01-00
10 ft.	6Y8-82553-50-00
15 ft.	6Y8-82553-11-00
20 ft.	6Y8-82553-21-00
25 ft.	6Y8-82553-31-00
30 ft.	6Y8-82553-41-00

Y-COP® Installations

Y-COP® installed with a Single Engine

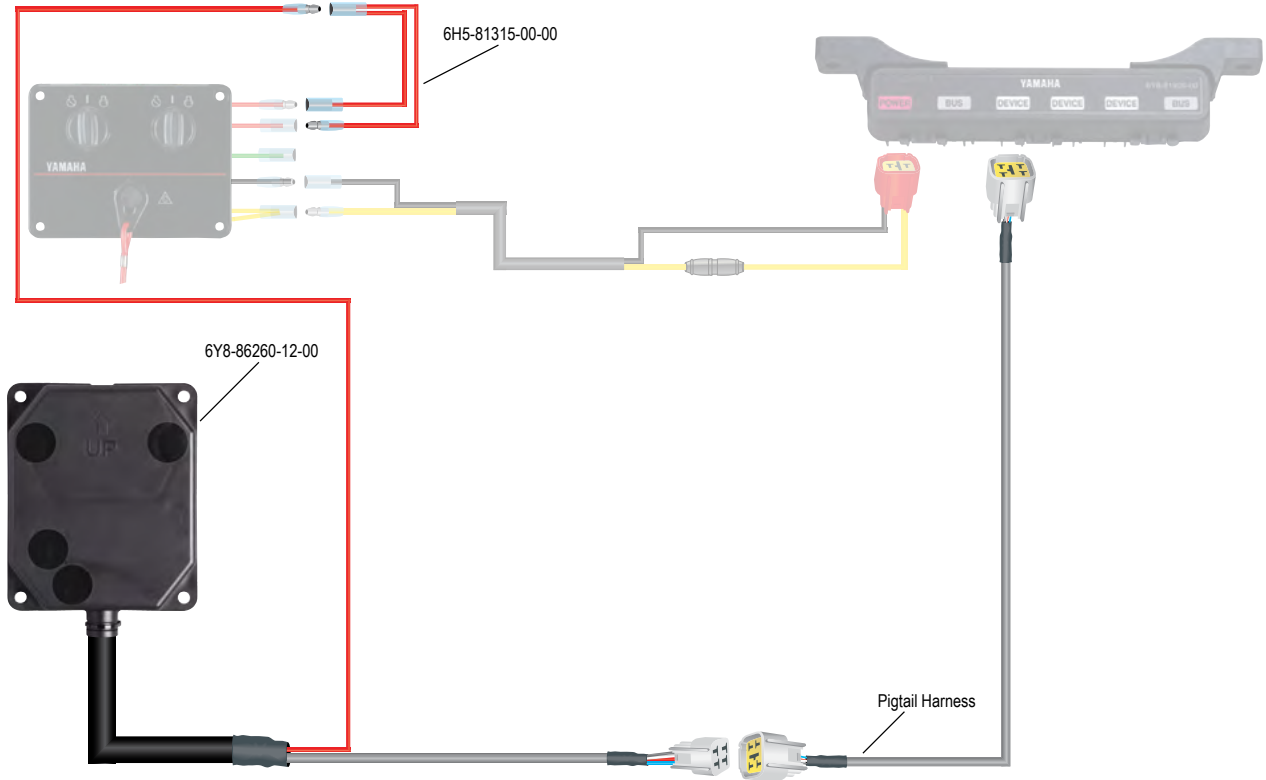

Parts order list for basic installation:

Quantity	Description	Part Number
1	Y-COP® Kit	6Y8-W0035-87-00
1	Pigtail Harness	See List ¹

¹ Pigtail Harnesses

- 1 ft. 6Y8-82521-01-00
- 2 ft. 6Y8-82521-11-00
- 3 ft. 6Y8-82521-21-00
- 6 ft. 6Y8-82521-31-00
- 9 ft. 6Y8-82521-41-00
- 12 ft. 6Y8-82521-51-00

Y-COP® installed with Twin or Triple installations with Command Link® Main Switches

Parts order list for basic installation:

Quantity	Description	Part Number
1	Y-COP® Kit	6Y8-W0035-87-00
1	Adaptor Harness	6H5-81315-00-00
1	Pigtail Harness	See List ¹

¹ Pigtail Harnesses

Command Link Plus® CL7 Touchscreen Display

The new Command Link Plus® display has now been integrated with the latest technology in a touchscreen display and dual GPS mapping. This display has a 7 inch full color display that will display up to four engines and up to six tanks.

Basic Maps - 6YD-83710-00-00

Detail Maps - 6YD-83710-10-00

Replacement Cover: **6YD-87278-00-00**

6YC Information Station

Today's boater demands convenience, and insists on accurate and instant information about boat and outboard systems. With the plethora of modern electronics, the call is for more information and more available dash space than ever before. Yamaha answers the call with the all-new 6YC "Information Station" display.

6YC-83710-02-00

Replacement Cover: 6YC-87278-00-00

Command Link Plus® / Command Link® Round Gauges

Yamaha's integrated information systems are simple, streamlined and sophisticated. These new multi network gauges make the rigging process simple as well by working in both Command Link Plus® and Command Link® networks. Allows the use of the NEW F150's Variable Trolling Speed

Round Tachometer: 6Y8-8350T-20-00

Round Speed Fuel Meter: 6Y8-83500-20-00

* Part number is for gauge(s) only.

Digital Multifunction Tachometer

Accurate information is available to let you fine tune settings to achieve the best overall efficiency and performance for operating conditions. Designed for optimum visibility and long-term durability. Displays: engine rpm, trim angle, oil level, warning lamps, overheat warning lamp, hour meter for trip (reset able) and total operating hours.

6Y5-8350T-D0-00*

Digital Multifunction Speedometer

Accurate information is available to let you fine tune settings to achieve the best overall efficiency and performance for operating conditions. Designed for optimum visibility and long-term durability. Displays: Speed, trip, time, fuel, low fuel warning-flashes on the lowest bar, battery voltage reading-displays battery output (10~16 volts) and flashes the readout if the output falls below 12 volts.

6Y5-83570-A0-00*

Digital Multifunction Fuel Management Meter

Accurate information is available to let you fine tune settings to achieve the best overall efficiency and performance for operating conditions. Designed for optimum visibility and long-term durability. Displays: Fuel consumption, fuel economy (using speedo or GPS input for readings), fuel contamination warning (when deluxe fuel/water separator is used), engine synchronization (for dual engine applications).

6Y5-8350F-B0-00*

Pro Series II™ Speedometer (0-50 MPH)

Yamaha's Pro Series II quality instrumentation provides you with high accuracy, and easy readability in virtually all conditions. Distinctive appearance will complement any dash. Direct faceplate illumination on gauge allows for easy night-time viewing. Displays KMH and MPH.

White Face - 6Y7-83510-30-00*

Black Face - 6Y7-83510-20-00*

Pro Series II™ Speedometer (0-75MPH)

Yamaha's Pro Series II quality instrumentation provides you with high accuracy, and easy readability in virtually all conditions. Distinctive appearance will complement any dash. Direct faceplate illumination on gauge allows for easy night-time viewing. Displays KMH and MPH.

White Face - 6Y7-83510-10-00*

Black Face - 6Y7-83510-00-00*

Pro Series II™ Tachometers

Yamaha's Pro Series II quality instrumentation provides you with high accuracy, and easy readability in virtually all conditions. Distinctive appearance will complement any dash. Direct faceplate illumination on gauge allows for easy night-time viewing. Warning indicators included in the gauge face.

White Face - 6Y7-83540-90-00*

Black Face - 6Y7-83540-80-00*

* Part number is for gauge(s) only.

Digital Electronic Control (DEC) Gauge Kits

Yamaha's DEC gauge kits offer you convenient rigging solutions. There are several configurations to meet most applications, and offer a great price advantage over individual components. Most installations will require additional parts, see section 10 for additional rigging information.

Command Link Plus® CL7 Display Kit (Basic Maps)

1	Tachometer Assy.	6Y8-8350T-20-00
2	Multi-Hub Assembly	6Y8-81920-01-00
1	Power Lead, 8 ft.	6Y8-83553-01-00
1	Cap, 2 Pin	6Y8-82582-01-00
4	Cap, 4 Pin	6Y8-82582-11-00
1	Pigtail Harness, Engine to Rear Hub, 9 ft.	6Y8-82521-41-00
1	User Operation Guide	6Y8-2819W-70-E0

Command Link® Single Engine Gauge Kit

(This kit DOES NOT allow for accessories like a gateway to be added)

Round Two Gauge Kit: 6Y8-0E83R-91-00

Kit Includes:

Qty	Description	Part Number
1	Tachometer Assy.	6Y8-8350T-20-00
1	Meter Assy. (Speed/Fuel)	6Y8-83500-20-00
1	Y-Split	6Y8-82521-80-00
1	Dual Fuse Harness	6Y5-83553-N0-00
1	Orange Main Buss With Power Lead (14ft)	6Y8-82553-60-00
2	Single hub	6Y8-81920-11-00
1	Pigtail Harness, 12 ft.	6Y8-82521-51-00
1	Fuel Sender and GPS Wire Lead	6Y8-8356N-01-00
1	Speed Sensor Kit	60V-8A4L1-18-00
1	User Operation Guide	6Y8-2819W-70-E0

(Most installations will require additional parts, see section 2 for additional rigging information)

Command Link® Single Engine Gauge Kit Round Two Gauge Kit: 6Y8-0E83R-71-00

Kit Includes:

Qty	Description	Part Number
1	Tachometer Assy.	6Y8-8350T-20-00
1	Meter Assy. (Speed/Fuel)	6Y8-83500-20-00
1	Multi-Hub Assembly	6Y8-81920-01-00
1	In-Line Hub	6Y8-81920-11-00
1	Power Lead, 8 ft.	6Y8-83553-01-00
1	Cap, 4 Pin	6Y8-82582-11-00
1	Speed Sensor Kit	60V-8A4L1-18-00
1	Fuel Sender and GPS Wire Lead	6Y8-8356N-01-00
1	Pigtail Harness, Engine to Rear Hub, 6 ft.	6Y8-82521-31-00
1	User Operation Guide	6Y8-2819W-70-E0

Command Link® Single Engine Gauge Kit Round Two Gauge Kit: 6Y8-0E83R-41-00

Kit Includes:

Qty	Description	Part Number
1	Tachometer Assy.	6Y8-8350T-20-00
1	Meter Assy. (Speed/Fuel)	6Y8-83500-20-00
2	Multi-Hub Assembly	6Y8-81920-01-00
1	Power Lead, 8 ft.	6Y8-83553-01-00
1	Cap, 2 Pin	6Y8-82582-01-00
3	Cap, 4 Pin	6Y8-82582-11-00
1	Speed Sensor Kit	60V-8A4L1-18-00
1	Fuel Sender and GPS Wire Lead	6Y8-8356N-01-00
1	Pigtail Harness, Engine to Rear Hub, 12 ft.	6Y8-82521-51-00
1	User Operation Guide	6Y8-2819W-70-E0

Command Link® Single Engine 6YC Display Kit with In-Line Hub

6YC Kit: 6YC-0E83C-30-00

Kit Includes:

Qty	Description	Part Number
1	6YC Display	6YC-83710-02-00
1	Multi-Hub Assembly	6Y8-81920-01-00
1	InLine Hub	6Y8-81920-11-00
2	Cap, 4 Pin	6Y8-82582-11-00
1	Power Lead, 8 ft.	6Y8-83553-01-00
1	Fuel Sender and GPS Wire Lead	6Y8-8356N-01-00
1	6 ft. Pig Tail, Engine to rear hub	6Y8-82521-31-00
1	Speed Sensor Kit	60V-8A4L1-18-00
1	6YC Meter Guide	6YC-2819U-70-E0

(Most installations will require additional parts, see section 2 for additional rigging information)

Command Link® Single Engine 6YC Display Kit

6YC Kit: 6YC-0E83C-00-00

Kit Includes:

Qty	Description	Part Number
1	6YC Display	6YC-83710-02-00
2	Multi-Hub Assembly	6Y8-81920-01-00
4	Cap, 4 Pin	6Y8-82582-11-00
1	Cap, 2 Pin	6Y8-82582-01-00
1	Power Lead, 8 ft.	6Y8-83553-01-00
1	Fuel Sender and GPS Wire Lead	6Y8-8356N-01-00
1	12 ft. Pig Tail, Engine to rear hub	6Y8-82521-51-00
1	Speed Sensor Kit	60V-8A4L1-18-00
1	6YC Meter Guide	6YC-2819U-70-E0

Command Link® Single Engine 6YC Display Kit with 704 Control Box

6YC Kit: 6YC-0E83C-10-00

Kit Includes:

Qty	Description	Part Number
1	6YC Display	6YC-83710-02-00
1	704 Single Binicale Control Box	704-48205-R0-00
1	Single Engine Main Switch	704-82570-12-00
2	Multi-Hub Assembly	6Y8-81920-01-00
4	Cap, 4 Pin	6Y8-82582-11-00
1	Cap, 2 Pin	6Y8-82582-01-00
1	Power Lead, 8 ft.	6Y8-83553-01-00
1	Fuel Sender and GPS Wire Lead	6Y8-8356N-01-00
1	12 ft. Pig Tail, Engine to rear hub	6Y8-82521-51-00
1	23ft. 10 Pin Main Harness	688-8258A-70-00
1	Speed Sensor Kit	60V-8A4L1-18-00
1	6YC Meter Guide	6YC-2819U-70-E0

(Most installations will require additional parts, see section 2 for additional rigging information)

Command Link® Twin Engine Gauge Kits

Command Link® Twin Engine Gauge Kit with 704 Control Box Round Three Gauge Kit: 6Y8-0E83R-51-00

Kit Includes:

Qty	Description	Part Number
2	Tachometer Assy.	6Y8-8350T-20-00
1	Meter Assy. (Speed/Fuel)	6Y8-83500-20-00
2	Multi-Hub Assembly	6Y8-81920-01-00
1	Power Lead, 8 ft.	6Y8-83553-01-00

DEC Controls *(Must be Ordered Through Sales)*

Command Link Plus® Control Boxes

Yamaha's line of Command Link Plus® Digital Electronic Controls are perfect for new V6 Offshore outboard models, as well as the new F350 with Command Link Plus compatibility. With the same mounting dimensions as Command Link controls, they all offer virtually effortless throttle and shift functions, highly-polished chrome handles, and a built-in redundancy system for added reliability. Like all Command Link® DEC's, a separate Electronic Control Unit (ECU) is included for each outboard – a huge advantage over some competitive models. And thanks to 'plug-and-play' convenience, adding a second station control is a breeze. Additionally, all multiple engine Command Link DEC's feature automatic engine RPM synchronization. The Quad engine control box synchronizes the port and port center engines together and the starboard and starboard center engines together. All main station Command Link Plus DEC binnacle control boxes offer second station compatibility.

DEC Control Boxes **MUST** be ordered through outboard sales.

Single Engine Flush Control

Mechanical Controls

Mechanical Control Boxes

Classic style and function combined with Yamaha's high standards. The perfect line up of control boxes for mechanical controlled engines.

704 Premium Control Boxes

Top-mount binnacle control with a sleek, rounded look that is sure to please today's boater. The 704 allows for effortless, one-hand operation of the throttle and shift of an outboard. Intuitive designs place a thumb-operated, engine trim/tilt switch comfortably on the handle, and feature easily accessible neutral warm-up controls and externally adjustable throttle friction. Stylish chrome finish.

Single Engine: 704-48205-R0-00

Twin Engine: 704-48207-R0-00

Triple Binnacle Control Box

This uniquely designed triple control box allows for one hand operation for easier maneuverability. The unique triple control box has a built-in water drain tube for added reliability & long term durability. Easy access cable connection location for faster & easier rigging.

6X5-48207-03-00

Mechanical Binnacle Spacers

Designed to raise the 704 Binnacle Control to provide more clearance for the lever in idle and full-throttle positions.

Standard Single Flat Spacer: 704-48293-00-00

Premium Single Flat Spacer: 704-48293-20-00

Premium Single Angled Spacer: MAR-SHIM8-63-00

Premium Twin Flat Spacer: 704-48293-30-00

Premium Twin Angled Spacer: MAR-SHIM8-64-00

Flush Mount Control Boxes

Includes thumb-operated trim/tilt switch, neutral switch and push-button neutral warm-up. Fits most single engine applications and they're perfect for a bass boat.

Flush Mount Control Box:

Right Side Mount* (w/ stop switch) - **6X3-48206-10-00**

Left Side Mount (w/o stop switch) - **6X3-48206-21-00**

* Requires main switch duplex connector, 6X3-8257B-01-00

Mechanical 703 Side Mount Control Boxes

Designed for use with electric start Yamaha outboards. Features include:

Convenient easy-to-use fast-idle lever for fast warm-up. Key switch for added security Forward/ reverse lever. 703 control boxes include a key switch, stop lanyard, and 16 foot main harness.

Push to Open, 10 Pin Harness: 703-48207-22-00

Pull to Open w/ Choke, 7 Pin Harness: 703-48230-21-00

Trim switch cover: 703-48224-00-00

Replacement 10 Pin Harness: 688-8258A-20-00

Replacement 7 Pin Harness: 688-82586-21-00

Push to Open

Side Mount Throttle Conversion

Although the control boxes available may not meet your throttle style, the parts below can be ordered to convert a side mount box to the throttle style you need.

703 Push to Open Conversion: 703-48261-01-00

703 Pull to Open Conversion: 703-48261-11-00

701 Push to Open Conversion: 701-48261-20-00

701 Pull to Open Conversion: 701-48261-00-00

Mechanical 701 Side Mount Control Boxes

Designed specifically for most manual start Yamaha outboards. A single forward/reverse control lever and a separate fast idle lever provide easy operation.

Pull to Open Throttle:

703-48260-20-00

Port Side Mount, Pull to Open Throttle:

703-48260-20-00

Tiller Handles

Yamaha's Multifunction Tiller Handle combines ergonomic design, smooth shifting, fingertip controls and an extended throttle handle for virtually effortless maneuverability. Add to that Yamaha's exclusive Variable Trolling RPM Switch (VTS® F40LA through F90 models only) and a 90° throttle rotation angle, and steering is not only easy, it's more comfortable too. It's easy to see why our Multifunction Tiller Handle won an IBEX® Innovation Award in 2005.

F25 Complete Tiller Handle Assembly (~2016)
Includes everything required to mount a tiller handle on F25 Outboard produced until 2016.

6X4-42103-0D-00

Tiller Handle Main Assembly

The tiller handle main assembly requires the use of a fitting kit below to mount to a Yamaha Outboard.

6X4-42103-58-00

Tiller Handle Fitting Kits

The fitting kits are used along with the Main Handle Assembly. They typically include the wire harness and mounting hardware.

Controls Cables

Premier II™ Control Cables

Yamaha is pleased to offer Premier II cables. They offer an ultra-low-friction splined inner core. The design allows tighter tolerances resulting in reduced end play. We highly recommend the use of Premier II cables for boats with several applications and long cable lengths, on dual-station boats, and on any boat for unrivaled smoothness. (cables do not include cable ends)

Command Link Plus® Main Switches

Single Engine Main Station Switch

Yamaha's Command Link Plus key panels offer the latest in technology and durability, with a new ergonomic key design and new functionality. The single engine switch is the only Command Link Plus key switch to use the conventional key switch connector. Three position switch.

6X6-82570-33-00

Twin Engines Main Station Switch Kit

The Twin Engine Main Switch Kit offers the latest in technology energizing the ignition system of multiple outboards with only one key. Optional "All Start" switch can be added for additional convenience. (Kit includes Main Switch Panel 6X6-82570-40-00 and Twin Start / Stop Panel 6X6-82570-60-00.)

6X6-W0035-50-00

Triple Engines Main Station Switch Kit

The Triple Engine Main Switch Kit offers the latest in technology energizing the ignition system of multiple outboards with only one key. Optional "All Start" switch can be added for additional convenience. (Kit includes Main Switch Panel 6X6-82570-50-00 and Triple Start / Stop Panel 6X6-82570-70-00.)

6X6-W0035-60-00

Quad Engines Main Station Switch Kit

Yamaha's Command Link Plus key panels offer the latest in technology and durability, with a new ergonomic key design and new functionality. Four keyed alike switches help keep things simple and straight forward. (Kit includes Key Switch Set 6X6-82570-M2-00, Lanyard Panel Assembly 6X6-82570-V0-00, Key Switch Harness 6X6-8258A-L0-00, and Stop Switch Harness 6X6-8258A-U0-00)

MAR-QUAD1-KT-00

All Start / Stop Switch

Allows twin or triple engines to be started successively (to prevent high amperage draw on the starting battery) or stopped simultaneously with the touch of a single button. For convenience and protection, engines cannot be started while running. The All Start / Stop switch can be installed on the main station of triple or twin engine installations only.

6X6-82570-C0-00

Single Engine Second Station Switch Kit

Stylish and functional, Command Link Plus® second station switch kits allow the transfer of control between stations or starting and stopping the engine with the push of a button. (Kit includes two station selector switches 6X6-82570-B0-00, Lanyard Panel Assembly 6X6-82570-90-00, and Start / Stop Switch 6X6-82570-80-00)

6X6-W0035-70-00

Twin Engines Second Station Switch Kit

Stylish and functional, Command Link Plus® second station switch kits allow the transfer of control between stations or starting and stopping the engine with the push of a button. (Kit includes two station selector switches 6X6-82570-B0-00, Lanyard Panel Assembly 6X6-82570-90-00, and Start / Stop Switch 6X6-82570-E0-00)

6X6-W0035-80-00

Triple Engines Second Station Switch Kit

Stylish and functional, Command Link Plus® second station switch kits allow the transfer of control between stations or starting and stopping the engine with the push of a button. (Kit includes two station selector switches 6X6-82570-B0-00, Lanyard Panel Assembly 6X6-82570-90-00, and Start / Stop Switch 6X6-82570-F0-00)

6X6-W0035-90-00

Quad Engines Second Station Switch Kit

Stylish and functional, Command Link Plus® second station switch kits allow the transfer of control between stations or starting and stopping the engine with the push of a button. (Kit includes two station selector switches 6X6-82570-L0-00, Lanyard Panel Assembly 6X6-82570-V0-00, Port Start / Stop Switch 6X6-82570-J0-00, and Starboard Start / Stop Switch 6X6-82570-K0-00)

MAR-QUAD2-KT-00

Command Link® and Conventional Main Station Switch Panels

Triple Engine Switch Panel

Designed exclusively for Yamaha's Command Link Integrated Marine Information System. Features interchangeable keys and a single engine stop lanyard for added convenience. Compact size maximizes dash space, simplifies installation. (Replacement Main Switch: 6X5-82510-02-00, Replacement Panel: 6X5-82571-00-00, Replacement Panel: 6X5-82571-00-00)

6X5-82570-02-00

Twin Engine Switch Panel

Push main switch to choke. With choke and engine warning buzzer. For use with conventional Yamaha rigging only. (Replacement Main Switch: 6K1-82510-07-00, Replacement Panel: 6K1-82571-02-00, Replacement Lanyard: 682-82556-00-00)

6K1-82570-13-00

Command Link® Twin Engine Switch Panel

Designed to work exclusively with Command Link. Interchangeable keys add convenience, and a single engine stop lanyard cuts clutter. Compact size maximizes dash space, simplifies installation. (Replacement Main Switch: 6Y8-82510-03-00, Replacement Panel: 6Y8-82571-01-00, Replacement Lanyard: 682-82556-00-00)

6Y8-82570-04-00

Single Engine Switch Panel

Push main switch to choke. With choke switch and engine warning buzzer. For use with either Command Link or conventional Yamaha rigging. (Replacement Main Switch: 704-82510-07-00, Replacement Panel: 704-82571-02-00, Replacement Lanyard: 682-82556-00-00)

704-82570-12-00

Single Engine Switch Panel

Includes multi-connector to main harness, connectors for instrument harness, and engine stop lanyard switch. With bullet connectors for generic engine stop lanyard switch. (Replacement Main Switch: 64D-82510-04-00, Replacement Panel: 64D-82571-00-00)

Standard connector: 64D-82570-05-00
With duplex connector: 6X3-8257B-01-00

Lanyard Panel

For use with duplex connector and main switch assembly. (Replacement Lanyard: 682-82556-00-00)

64D-82570-31-00

Single Engine Key Switch Assembly

Main switch and lanyard used in the 704 single engine switch panel, but with out the panel. Perfect for custom boat installations. (Replacement Main Switch: 704-82510-0A-00, Replacement Lanyard: 682-82556-00-00)

704-8257C-03-00

Tiller Handle Key Switch

For use with the 6X4 tiller handle.

6X4-82510-01-00

Single Engine Key Switch Assembly

With duplex connector for use with 6X3 Flush Side Control. (Replacement Main Switch: 64D-82510-04-00. If a panel is needed, use Single Main Switch on Panel 64D-82570-22-00.)

6X3-8257B-01-00

Lanyard Switch

An emergency stop switch without a panel. (Replacement Lanyard: 682-82556-00-00)

Command Link® and Conventional Second Station Switch Panels

Single Engine Command Link® Second Station Switch Panel
Designed exclusively for Yamaha's Command Link® Integrated Marine Information System and the Synchro Control System. For use on second station only.

Command Link® Panel: 6X6-82570-01-00
Conventional Panel: 6X1-82570-02-00

Twin Engine Conventional Second Station Switch Panel
Designed exclusively for use with the Synchro Control System. For use on second station only.

Command Link® Panel: 6X6-82570-11-00
Conventional Panel: 6X1-82570-12-00

Triple Engine Command Link® Second Station Switch Panel
Designed exclusively for Yamaha's Command Link® Integrated Marine Information System. For use on second station only.

6X6-82570-20-00

Command Link® Station Selector Switch
Designed exclusively for Yamaha's Command Link® Integrated Marine Information System. This switch will not connect to a Command Link® Plus control box.

6X6-82570-A0-00

Command Link Plus® Station Selector Switch
Designed exclusively for Yamaha's Command Link Plus® Integrated Marine Information System. This switch will not connect to a Command Link® control box.

Replacement Keys and Caps

Replacement Keys and Key Caps

When a customer loses a key, Yamaha makes it easy for you to get them a new one.

If they have lost all their keys, just locate the key number off the main switch barrel.

Command Link® and Command Link® Plus Harnesses

DEC (Digial Electronic Control) Main Harness

The DEC 16 pin main harness works for both Command Link® Plus (CLP) and the current Command Link® systems. The DEC main harness connects the engine to the main station control box. One per engine is required when rigging.

12 ft.- 6X6-8258A-50-00	26 ft.- 6X6-8258A-20-00
20 ft.- 6X6-8258A-00-00	33.5 ft.- 6X6-8258A-30-00
23 ft.- 6X6-8258A-10-00	39 ft.- 6X6-8258A-40-00

Main Bus Harness

The Main Bus Harness is used in Command Link® (CL) and Command Link Plus® systems. The harness has one 6 pin connection on each end and is used to connect multi hubs into the network.

1 ft.- 6Y8-82553-01-00	20 ft.- 6Y8-82553-21-00
10 ft.- 6Y8-82553-50-00	25 ft.- 6Y8-82553-31-00
15 ft.- 6Y8-82553-11-00	30 ft.- 6Y8-82553-41-00

Command Link® Main Bus Harness with Power Leads

For use with Command Link® systems. Combines the power harness and Main Bus harness to simplify rigging. 14 ft. in length

6Y8-82553-60-00

Pigtail Bus Harness

The Pigtail Harness is used in Command Link® and Command Link Plus® systems. The harness has one 4 pin connection on each end and is used to connect gauges and other items into the network.

1 ft.- 6Y8-82521-01-00	6 ft.- 6Y8-82521-31-00
2 ft.- 6Y8-82521-11-00	9 ft.- 6Y8-82521-41-00
3 ft.- 6Y8-82521-21-00	12 ft.- 6Y8-82521-51-00

Command Link® Pigtail Y Harness

For use with Command Link® systems. Allows two gauges to be connected to the Command Link® Main Bus with Power Leads with an In Line Hub.

6Y8-82521-80-00

8 ft. Power Lead Harness

The 8 ft. Power Lead Harness connects power from the key switch to the multi hub for gauges and other components. The harness is used in Command Link and Command Link Plus systems.

6Y8-83553-01-00

Multi-Hub Assembly

The Multi-Hub is used in both Command Link and Command Link Plus systems to allow devices to connect into the network with 1 power supply connector, 2 main BUS connectors, and 3 device connectors.

6Y8-81920-01-00

In-Line Hub Assembly

The In-Line hub is used in both Command Link and Command Link Plus systems. The hub works great with the Multisensor or in a simple Command Link installation. Connects a pig tale harness to a main bus harness.

6Y8-81920-11-00

Grey Main Bus Connection Cap with Resistor

During the installation and rigging process, the number of multi-hubs required may result in unused connector positions. One resistor cap is included with a multi-hub assembly.

6Y8-85371-01-00

Red Power 2 Pin Connection Cap

During the installation and rigging process, the number of multi-hubs required may result in unused connector positions. In most installations only one multi-hub will have a used power connection. The rest will require a protective cap.

6Y8-82582-01-00

White Pigtail 4 Pin Connection Cap

During the installation and rigging process, the number of multi-hubs required may result in unused connector positions. The 4 pin cap covers any unused device ports on the multi-hub.

Command Link Plus® Second Station Primary Harness

The CLP second station primary harness connects the main station control box with the second station control with the help of a secondary harness. The primary harness has one 6 pin connector, one 4 pin connector, and one 3 pin connector on each end. One second station primary harness is required per engine when rigging a second station. For use with CLP control boxes.

16 ft.- 6X6-8258A-G1-00
26 ft.- 6X6-8258A-H1-00

40 ft.- 6X6-8258A-J1-00

Command Link® 2nd Station Main Harness

The DEC second station main harness connects the main station control box with the second station control with the help of a secondary harness. The second station main harness has one 6 pin, one 4 pin, and one 3 pin connections on each end. One second station primary harness is required per engine when rigging a second station. For use with current Command Link® controls ONLY because of a different style 3 pin connector. Because of the different 3 pin connector, an adaptor harness will be required when a CLP main station is connected to a current Command Link® second station.

16 ft.- 6X6-8258A-A1-00
26 ft.- 6X6-8258A-C1-00

40 ft.- 6X6-8258A-E1-00

DEC 2nd Station Secondary Harness

The DEC second station primary harness connects the main station control box with the second station control with the primary harness. The secondary harness has one 12 pin connector on the main station side and one 2 pin connection on the second station side. One second station secondary harness is required per engine when rigging a second station. For use with CLP and current Command Link® controls.

16 ft.- 6X6-8258A-B1-00
26 ft.- 6X6-8258A-D1-00

40 ft.- 6X6-8258A-F1-00

Quad Second Station Harness

The Quad second station harness connects the main station control box with the second station control with the help of the primary and secondary harness. The Quad second station harness has two 12 pin connectors on the main station side and two 3 pin connectors on the second station side. One Quad second station harness is required along with two CLP primary and two secondary harnesses when rigging a second station. For use with CLP only.

16 ft.- 6X6-8258A-R0-00
26 ft.- 6X6-8258A-S0-00

40 ft.- 6X6-8258A-T0-00

Second Station Primary Harness Adaptor

The CLP and original DEC second station controls use a different style 3 pin connector on the primary harness. The adaptor harness will allow the use of a CLP control box for the main station and an original DEC control on the second stations. Perfect for the customer looking to re-power.

6X6-8258A-K0-00

CLP AGI / Gateway Harness

The .3 ft. harness connects a Pigtail Harness to either the AGI or a Gateway. The harness has a wrap of green tape and a male 6 pin at one end with a female 4 pin at the other.

6Y9-83553-50-00

CLP NMEA 2000® Gateway Harness for 6YG Gateway

CLP Adapter Leads / Harnesses

Wire Lead Fuel Tank Sender for CL7 Display 6YD-8356N-00-00

Wire Lead , GPS for CL7 Display 6YD-83553-00-00

CLP Multisensor Harness

The Multisensor harness has a female 6 pin connector on one end and a male connector on the other. The .7 ft. harness connects a Pigtail Harness to the Multisensor and has a wrap of yellow tape.

6Y9-83553-60-00

CLP Display Harness

The Command Link Plus Display Harness has a 6 pin male connection on one end and a 4 pin female connection on the other. The .5 ft. harness connects a Pigtail Harness to the Command Link Plus Display and has a wrap of black tape in the middle.

6Y9-83553-40-00

Main Bus Y Harness

The Main Bus Y Harness connects the 6 pin control box lead into two main bus harnesses. This harness is used in installations with a CLP Display, Multisensor, and two stations. Please see appropriate diagram for more details.

6Y9-83553-10-00

CLP Main Bus Adaptor Harness

The adaptor harness connects the 6 pin control box lead to a main bus harness. This harness is used in installations with a CLP Display and has a 6 pin connection each end. Please see appropriate diagram for more information.

6Y9-83553-00-00

Fuel Harness for CLP

The Fuel Harness allows the vessel fuel information to be used with the Command Link Plus® Display.

6Y9-8356N-10-00

GPS Harness for CLP

The GPS Harness allows the GPS speed information from a GPS unit to be used with the Command Link Plus® Display.

Fuel Harness for CLP CL7 Display

The Fuel Harness allows the vessel fuel information to be fed to the Command Link Plus® CL7 Display.

6YD-8356N-00-00

GPS / Fuel Harness for CL

The GPS / Fuel Harness allows the speed of the vessel from a GPS and the fuel system information from the vessel to be used with the Command Link® system.

6Y8-8356N-01-00

GPS/ Power Harness for CLP CL7 Display

The GPS Harness allows the GPS speed information to be fed to the Command Link Plus® CL7 Display. Also includes the power leads for the GPS antenna.

6YD-83553-00-00

Main Station Key Switch Adaptor Harness

The Main Station Key Switch Adaptor Harness allows the use of a current key switch with a Command Link Plus® control box. One harness is required per key switch, except single engine installations.

6X6-8258A-L0-00

Single 2nd Station Key Switch Adaptor Harness

The adaptor harness allows the use of a current key switch with a Command Link Plus® control box. One harness is required per installation.

6X6-8258A-M0-00

Twin 2nd Station Key Switch Adaptor Harness

The adaptor harness allows the use of a current key switch with a Command Link Plus® control box. One harness is required per installation.

6X6-8258A-N0-00

Triple 2nd Station Key Switch Adaptor Harness

The adaptor harness allows the use of a current key switch with a Command Link Plus® control box. One harness is required per installation.

6X6-8258A-P0-00

6X7 Flush Mount Key Switch Extension Harness

Used to connect main key switch that would otherwise be too far away for the control box connector to reach.

6X7-82590-30-00

Command Link® and Command Link® Plus Accessories

Y-COP®

The Electronic Control Module disables the ignition system via an operator controlled key fob. When the operator wishes to use the outboard, a simple command via the wireless key fob activates the ignition system. Two water resistant key fobs are provided with each system. (Replacement Remote: 6AA-86261-22-00, Replacement Unit: 6Y8-86260-11-00, Replacement Decal: 6Y8-48277-00-00) Includes a 2ft. pigtail harness.

6Y8-W0035-87-00

Y-COP® CL Key Switch Harness for Twin and Triple Engine Installations

The harness has three one pin connectors to tie Y-COP® into the key switches. Photo not available.

6Y8-81315-00-00

Y-COP® Harness for Multiple Engine Installations

The harness connects to the Key Switches, Power Supply, the Y-COP®, and a Pigtail Bus Harness. This harness is required when using Y-COP® in twin and triple installations with the new CLP key switches.

6Y8-81315-01-00

Power Y Harness for CLP

The Power Y Harness connects the 8 ft. Power Lead to two multi hub assemblies for use with the new CLP Display and CL gauges. Please see appropriate diagram for more details.

Command Link® / Command Link Plus® Gateway

Yamaha's Gateways allow certain engine and boat data to be displayed on NMEA-2000® compatible displays that are external to the Yamaha system. The Gateway is for installation with a Command Link® or Command Link Plus® networks, such as those found with mechanical controls and/or DEC controls. (requires pigtail harness for installation)

MAR-GTWAY-KT-10

Command Link® / Command Link Plus® Analog Gauge Interface

The Analog Gauge Interface, or AGI, allows Command Link® Plus or Command Link® equipped boats to display selected engine and boat performance data on analog gauges, be they Yamaha or those of most aftermarket manufacturers. The AGI is for installation with a Command Link® or Command Link Plus® network, such as those found with mechanical controls and/or DEC controls. (requires pigtail harness for installation)

6Y9-8A2D0-30-00

Command Link® Auto Trim Tab Retractor Interface

The trim tab retractor interface provides up to two engine analog tachometer outputs needed for some automatic trim tab retractors.

MAR-6X6DA-C0-00

Command Link® / Command Link Plus® Multisensor

The multisensor is utilized to provide water depth, water temperature, and water speed information to the Command Link Plus display or Command Link® Gauges. This multisensor has only one plug to power the unit and send signals to the ECU. It is powered through the Command Link Plus network. (Kit Includes: InLine Hub 6Y8-81920-11-00, 1 ft. Pig Tail Harness 6Y8-82521-01-00, Adaptor Harness 6Y9-83553-60-00, Multisensor 6Y9-83688-00-00)

MAR-3DCER-KT-00

Command Link® Thru-hull Multisensor

The multisensor is utilized to provide water depth, water temperature, and water speed information to the Command Link gauges. This multisensor was developed specifically for the Command Link® systems and has only one plug to power the unit and send signals to the ECU. The plug from the multisensor will not plug directly into the hub and requires a bus harness to plug it into the hub. It is powered through the Command Link® harness. The multisensor is available in two configurations:

Plastic Thru-hull: 6Y8-83688-11-00

Bronze Thru-hull: 6Y8-83688-20-00

Electronic Cooling Water Pressure Sensor

The water pressure sensor kit taps into the engine block's cooling passage and converts the pressure readings to an electrical signal that is sent to the engines' ECU. The ECU can then display this data on the tachometer. This sensor kit is optional for Command Link Plus® and Command Link®, and there are two types depending on model of the engine. These sensors plug into harness leads that are part of the engine's wiring harness. V8 engines come standard with a cooling water pressure sensor. (Replacement sensor: 6AW-8366B-01-00)

Kit for F40-F115 and HPDI: 60V-8A4L0-19-00

Kit for F150-F250, VMAX SHO®, and 4.2L Offshore: 69J-8A4L0-15-00

Thermostat Cover for VMAX SHO®

Allows the installation of sensor kit 60V-8A4L0-11-00 on VMAX SHO® engines.

4.2L - 6CE-12413-C0-9S

VF115- 6DA-1241B-00-9S

Electronic Speed Sensor

The speed sensor converts the water pressure from the lower units' pitot tube to a digital signal inside the engines ECU. The ECU then displays the speed on the speedometer. The kit contains all of the components necessary to connect the sensor to the pitot hose coming from the lower unit and one kit fits all. V8 outboards do not have speedo tube required for connection to this sensor. (Replacement Sensor: 6AW-8366B-01-00)

60V-8A4L1-18-00

Display Cover for Command Link® Displays

Protect your display with this stylish and durable cover.

Command Link Plus® Display: 6Y9-87278-00-00

6YC Display: 6YC-87278-00-00

CL7 Display: 6YD-87278-00-00

Remote Variable Trolling RPM Switch Kit (VTS)

With this new switch, increased VTS functionality is at your fingertips by adjusting the RPM without the gauge. The switch is compatible with F25C, F30 through F115 and VF115 (remote control models only). This helm-mounted remote switch connects to tiller handle input on the outboard. A brand new way to make fishing (and boating) easier at a low cost with huge benefits. The switch comes with a 26 foot harness length.

Main Harness Extension

The harness extension is used to connect the engine to the main harness, perfect for those special applications.

7 Pin 6.6 ft. 688-82586-11-00	10 Pin 9.8 ft. 688-8258A-30-00
10 Pin 6.6 ft. 688-8258A-10-00	

703 Control Box Main Harness

The replacement main harness for the 703 control box has the standard engine connection on one end and bullet connectors on the other. Both the 7 and 10 pin harnesses are 16 feet in length.

7 Pin 688-82586-21-00	10 Pin 688-8258A-20-00
------------------------------	-------------------------------

Dual Fuse Gauge Harness

Used to connect conventional gauges to key one power, battery positive, and other important sources. 10 ft.

6Y5-83553-N0-00

7 to 10 Pin Adaptor Harness

The 7-10 Pin harness is used to connect 7 Pin engines to 10 Pin main harnesses. 1.6 ft.

703-8258A-00-00

2005 and Later Trim and Oil Harness

Used on outboards to transfer information to conventional gauges. One white 4 pin connection on each end.

16.4 ft.- 6Y5-83653-00-00

19.7 ft.- 6Y5-83653-10-00

23 ft.- 6Y5-83653-20-00

26.3 ft.- 6Y5-83653-30-00

30 ft.- 6Y5-83653-40-00

35 ft.- 6Y5-83653-50-00

2004 and Prior Trim and Oil Harness

Used on outboards to transfer information to conventional gauges. Two white 4 pin connection on each end.

16.4 ft.- 68F-82553-50-00

20ft.- 68F-82553-60-00

23 ft.- 68F-82553-70-00

26.3 ft.- 68F-82553-80-00

31.2 ft.- 68F-82553-90-00

32.8 ft.- 68F-82553-A0-00

Trim Harness

Used to transfer the trim signal to aftermarket gauges on 2004 and prior outboards. One white 4 pin connection on each end.

10 ft.- 6R3-82553-30-00

16.4 ft.- 6R3-82553-50-00

23 ft.- 6R3-82553-70-00

26.3 ft.- 6R3-82553-80-00

31.2 ft.- 6R3-82553-90-00

Oil Tank Harness

Used on two stroke outboards to connect the remote oil tank with one blue 4 pin connection on each end.

9.8 ft.- 6R3-85721-30-00

16.4 ft.- 6R3-85721-50-00

26.3 ft.- 6R3-85721-80-00

Fuel Management Harness

Multifunction gauge to fuel flow sender and tank sender. Can connect up to two fuel flow senders.

26 ft.- 6Y5-83553-F1-00

Fuel Flow Sender to Wire Harness Extension

Installs between a fuel sender and the fuel sender harness to accommodate longer runs. 9.8 ft.

6X1-82531-00-00

Wire Extensions Bullet Connector

If more than one instrument is used, additional jumpers will be required. These are available color coded to match the gauge harness. 1 foot in length and available in black, blue, and yellow.

Black: 6Y5-82117-00-00

Yellow: 6Y5-82521-00-00

Blue: 6Y5-82149-00-00

2 Pin Connector to Bullet Connector Adaptor

For use on 64D stop lanyard

Female 2 Pin to 2 Male Bullet Connectors: 6X3-81971-00-00

Male 2 Pin Connector to 2 Female connectors: 6X3-81971-10-00

Multifunction to GPS Harness

Connects the multifunction speedometer to a GPS input.

6Y5-87122-S0-00

Tachometer Harness

For applications with no remote control or a 701 control box. 16.4 ft.

6Y5-83553-10-00

Extension Harness for remote mount PTT Switch

Three lead bullet connector extension 6.6 ft.

6H5-82553-00-00

Yamaha Main Harness to Aftermarket Control Box Connector

The sub harness is used to connect the 10 pin harness to an aftermarket control box. It includes the connections for PTT and neutral safety switch.

704-82541-10-00

Aftermarket Main Harness to Yamaha Control Connector

This harness connects an aftermarket main harness to a 704 control box.

704-85721-00-00

Trim Adapter Harness Square Female to Bullet Connectors

Used on 1994~2004 engines to connect the trim signal to a 1993~ harness except for ~1993 250 HP boat harness.

6N7-82541-10-00

Oil Tank Adapter Harness Square Female to Round Male

Used on 2 stroke engines with an in boat tank to connect the Trim and Oil Harness and oil tank harness.

6R3-82541-00-00

Oil Tank Adapter Harness Square Male to Round Female

Used on 2 stroke engines with an in boat tank to connect the Trim and Oil Harness and oil tank harness.

Tachometer Adapter Harness

Adapter for one lead tach (-90) to 2004 and prior engines

6Y5-85335-10-00

Tachometer Adapter Harness

Adapter for two lead Tach (-82) to 2005 and later engines

6Y5-85335-00-00

Waterproof Plug

Fits ~2004 trim and oil harnesses when connecting to 2005~ engines.

6R8-82582-00-00

Speedometer Tubing

For connecting analog signal speedometers to the speed pick up.

30' length: 6Y5-83557-10-00

300' length: 6Y5-83557-40-00

Water Temperature Sender

Two wire sender for cooling water temperature gauges.

688-83591-00-00

Conventional Accessories

Yamaha Engine Meters

To help you maintain your generator at proper service intervals, the intervals are pre-programmed into this meter (10 hours initial, every 50 hours thereafter). Upon reaching the specified service interval, the meter displays a flash alert for a two-hour period.

Deluxe Hour Meter (Hour Meter Only): *ENG-METER-2C-01*

Deluxe Hour Meter & Tachometer: *ENG-METER-4C-02*

Water Pressure Adaptor

Provides most Yamaha Outboards a water-jacket tap with a hose barb to adapt aftermarket pressure gauges which use a 1/8" ID (3/16" OD) rubber hose.

MAR-WPRES-AD-TR

Water Pressure Sender

Includes water jacket tap, hose, and nuts for installation on most Yamaha Outboards. (Ferrule and Nut 663-83668-00-00, Gasket 90430-14115-00 for gauge side)

688-83667-00-00

Water Pressure Dampener

Installing the water pressure damper between the gauge and water tube is recommended when the pointer of analog gauge is wiggled if water pressure pulsates or to reduce a risk if water has leaked at connector end causing the gauge damage.

6Y5-83728-00-00

Speedometer Pickup Sender

The speedometer pick up can assist in high-performance applications, where the engine is mounted at elevated levels, or with the Yamaha V8 outboards without a speed pick up in the lower unit.

688-83556-00-00

Fuel Flow Sensor

Replacement sensor for use with Yamaha's fuel management and speed / fuel gauges.

Fuel System Components

10-Micron Fuel/Water Separating Filter

They are a primary line of defense against ethanol-related fuel system issues. Highly recommended for all two stroke and four stroke EFI outboards and two stroke HPDIs. Also excellent for carbureted engines. New, improved 10-micron filter provides superior filtration ahead of the engine's onboard filters and injectors. Large filtering and water capture areas maximizing filtration while maintaining adequate flow rate for larger engines.

Transom Fitting For Rigging Hose

An easy install. Just thread the Rigging Hose onto the fitting. Requires no clamp, yet provides positive engagement. Use with Rigging Grommet (sold separately) for quick, easy rigging.

- 2" Black **MAR-THRUT-RS-M2**
- 2.5" Black **MAR-TFLNG-25-BK**
- 2" White **MAR-FLNG2-0W-T0**
- 2.5" White **MAR-TFLNG-25-WT**
- Chrome **ABA-THRUT-RA-SM**

Rigging Grommet

Choose the grommet for your engine. Simply thread the Rigging Hose and thread the Transom Fitting (sold separately) onto the other end. Provides positive engagement without clamps.

- 2 Stroke 115-250 **MAR-GROMM-ET-01**
- F150 **MAR-GRMMT-F1-50**
- F200-F250 **MAR-GRMMT-LG-4S**
- Z250, Z300 **MAR-GRMMT-Z2-50**

Other '02 ~ V4 and V6 models include the main grommet, but require the following hardware to attach the rigging hose.

- Fastener **68F-42753-00-00**
- Clip **90601-20022-00**

Rigging Hose

High-quality hose is flexible, crush-resistant with UV inhibitors for added protection. Black, Gray, or Metallic Blue.

- 25' Black 2" (one roll) **MAR-RIGHS-BK-25**
- 25' Black 2.5" (one roll) **MAR-RHS25-BK-25**
- 100' Black 2" (two 50' rolls) **MAR-RIGHS-BK-50**
- 100' Black 2.5" (two 50' rolls) **MAR-RHS25-BK-50**
- 25' Gray 2" (one roll) **MAR-RIGHS-GY-25**
- 100' Gray 2" (two 50' rolls) **MAR-RIGHS-GY-50**
- 25' Metallic Blue 2" (one roll) **ABB-RIGHS-BE-25**

Rigging Hose

High-quality hose is flexible, crush-resistant with UV inhibitors for added protection. **Now In White!**

- 25' White 2" (one roll) **MAR-RHS20-WT-25**
- 25' White 2.5" (one roll) **MAR-RHS25-WT-25**
- 100' White 2" (two 50' rolls) **MAR-RHS20-WT-50**
- 100' White 2.5" (two 50' rolls) **MAR-RHS25-WT-50**

Dual Steering Cable Bracket

Strong, 7-gauge stainless construction, with aluminum steering tube. Conforms to ABYC® standards. Features a steel shield over the steering tube to provide additional protection. Fits 70–300hp engines.

ABA-DUALS-TE-ER

Replacement Tube (not shown) **ABA-DUALS-TR-01**

Universal Dual Steering Bracket

Pre-drilled to fit all major outboard motor brands. Features an aluminum steering tube and stainless steel bracket. Fits 70–300hp engines.

ABA-42110-00-00

Dual Steering Tie Bar Kit

Strong, stainless steel tie bar provides dual engine steering control for Yamaha outboards. Adjustable from 11" to 36". Includes necessary hardware.

ABA-DUALT-IE-BR

Outboard Steering Centering Clips

Outboard steering centering clips for use with front mounted hydraulic steering cylinders having an 8 inch total stroke length (side to side). Helps the outboard remain centered while trailered. The clips also help limit the load applied to the hydraulic system that may occur when an outboard is tilted and partially turned. The clips are quickly and easily installed over the hydraulic cylinder steering rods. Sold in pairs.

Black (Rubber): **MAR-CNTRC-LP-08**

Orange: **6ES-23326-00-00**

Zerk Nut

Stainless steel, with high pressure O-ring seal. Attaches to steering tube to keep lubrication in, contaminants out.

MAR-ZERKN-UT-01

Remote Control Attachment Kits

The remote control kits listed below may also be listed with additional parts required to install the remote control attachment kits. For the most accurate information always refer to PartsManager Pro™.

Tiller Handles

Yamaha's Multifunction Tiller Handle combines ergonomic design, smooth shifting, fingertip controls and an extended throttle handle for virtually effortless maneuverability. Add to that Yamaha's exclusive Variable Trolling RPM Switch (VTS® F40LA through F90 models only) and a 90° throttle rotation angle, and steering is not only easy, it's more comfortable too. It's easy to see why our Multifunction Tiller Handle won an IBEX® Innovation Award in 2005.

F25 Complete Tiller Handle Assembly (~2016)

Includes everything required to mount a tiller handle on F25 Outboard produced until 2016.

6X4-42103-0D-00

Tiller Handle Main Assembly

The tiller handle main assembly requires the use of a fitting kit below to mount to a Yamaha Outboard.

6X4-42103-58-00

Tiller Handle Fitting Kits

The fitting kits are used along with the Main Handle Assembly. They typically include the wire harness and mounting hardware.

Cowling Covers

Super heavy-duty protection for your Yamaha outboard's cowling. Constructed of ultra-durable Sur Last® solution dyed polyester fabric for the ultimate protection against fading and the elements, this non-abrasive, water resistant cover is resistant to UV, mildew and mold. The cover has a soft fabric inner liner for added paint protection, and screened on factory logos for unmatched style. Includes a snap-buckle strap and stretch cord for a snug fit.

F9.9 / T9.9 (01/13~) Cowling with VMAX SHO® graphics

The top cowling allows both engines to have matching graphics in applications where a kicker motor is used along with a VMX SHO® V6 outboard. Fits 9.9hp engine with factory 6EA cowling.

6EA-42610-V0-00

Custom color cowling graphics

These graphics packages allow the customer to customize their motors to match the colors of their boat with ease. The current offerings are some of the most popular colors but further offerings can be purchased from: Universal Products, Inc. www.u-p.com. Contact them directly for color libraries as well as pricing.

Engine Security

McGard® Outboard Lower Unit Lock Bolt

The lock is designed to secure the lower unit to the mid-section of the outboard while in storage, on the trailer, or in use. A free-spinning collar turns if attacked by gripping tools, helping protect against costly lower unit theft. Simply replace one of the standard lower unit mounting bolts with a McGard® lower unit locking bolt. Use the included special key to remove the McGard® lower unit locking bolt when removal of the lower unit is required. Stainless steel, through hardened construction. Fits Yamaha outboards F115 – F350 without 5" extension.

MAR-LWRUN-LK-00

McGard® Wheel Locks

McGard®'s easy to use, one-piece wheel lock functions like a regular lug nut, but requires a special key tool for installation and removal. Its design allows for an unlimited number of different computer generated lock and key patterns. This unique wheel lock system is continually being refined and improved upon. McGard® Locks are made right here in the United States to meet or exceed O.E.M. standards for safety and durability

Single Axle Trailer (2 locking nuts): **MAR-TRLK7-40-42**

Dual Axle Trailer (4 locking nuts): **MAR-TRLK7-40-41**

Prop Lock

Helps protect your propeller investment. Easy-to install and cost effective. Does not interfere with operation (i.e., motor can be used with a lock installed). Suitable for use on regular and counter rotating props.

115hp ~ V6 Outboards: **MAR-PRLK7-40-40**

40 ~ 90 Outboards: **MAR-PROPL-CK-01**

XTO Ram Tilt Motor Support

Trailer Motor Support with Yamaha Tuning Fork logo designed for XTO® only, requires two per engine.

MAR-MTSPT-GR-00

Trailer Support For Single Trim Ram Models

Designed to work with T25 - F115B.

MAR-MTSPT-SR-00

Trailer Support (Twin Trim Ram Models)

One Yamaha Motor Trailing Support will provide adequate support for the F115 ~ V6 four-stroke and all 70 ~ 300 two-stroke models while trailering. V8 models require two supports. The Yamaha Motor Trailing Support is quickly and easily installed over the port trim rod on F115 ~ F250 four-stroke and all 70 ~ 300 two-stroke models or both trim rods on the V8 models. Fits F115~F350 Four-Stroke and all 70~300 Two-Stroke models with Power Trim and Tilt. Does Not work with new F115B.

MAR-MTSPT-YM-10

Yamaha Transom plate

A great way to add style and show off your Yamaha Pride. Laser Etched with the Yamaha Logo.

F30A ~ V6,V4 outboards: **YMM-09TP0-00-01**

V8 outboards: **YMM-09TP0-00-02**

3, 4, 5, 9.9, FT9.9, 15 and all jet drive	ABB-FLUSH-JD-00
6, 8, 25-Z300HP	ABB-MOTOR-FL-SH

Tilt Limiters

The tilt limiter for the new Yamaha Outboards was introduced to assist in customer satisfaction. The new limiter will help improve customer satisfaction in applications where the top cowling would come in contact with the boat at full tilt. Please select the correct tilt limiter from the charts below.

Tilt Limiter for Mechanical Controlled F115, F150, F200 (inline) & VMAX SHO® Outboards

Model	Serial Number Range	Part Number
F115 / F115B / VF115	68V 1124466~	63P-825EY-02-00

Endless Propeller Solutions By Yamaha

With all that Yamaha has to offer in regard to propellers, virtually any boat can perform at its peak. That includes yours. From large offshore boats to family and watersports boats to the fastest of bass and bay boats, Yamaha has a propeller solution that's just right for your application. Yamaha propeller solutions. Well beyond expectations.

Plastic Propellers

- Ideal for those who run in debris filled water.
- Available for the 2 HP two stroke or the T9.9 four stroke.

Aluminum

- Low cost
- Lightweight
- Good all around performance
- Wide variety of applications 2hp - 225hp

Dual Thrust™

- Large diameter and large blade design
- Low pitch and rake angle
- Large oversized exhaust tube to redirect exhaust in reverse for better reverse thrust
- Perfect for sailboats and pontoons
- Designed for Yamaha High Thrust outboards and also works well on midrange outboards using the "K" series (4.25") gearcase

Weedless Propellers

- Designed to help keep vegetation off your propeller and prop shaft.
- Propellers with a 91/4 diameter are available in the Aluminum Series
- 91/8 diameter weedless design available in painted stainless steel.

Painted Stainless Steel

- Excellent general purpose propeller
- More durable than aluminum
- Wide variety of applications from 25hp - 300hp in left and right-hand rotation

Talon®

- Shift Dampener System (SDS™)
- High efficiency, low slip design
- Lightweight aluminum
- Excellent for Pontoon, Deep V, Walleye, and Fiberglass boats
- Available in 9", 10.5", 12", 14", and 16" pitches

Talon® SS

- Shift Dampener System (SDS™)
- High efficiency, low slip design
- Excellent for light bass, flats, and small to medium boats with mid-range power
- Available in 14", 16", 18", 20" in left and right-hand rotation
- Available in 19", 22", 24" right-hand rotation

Talon® GP

- Special blades provide excellent "grip" on the water
- Ideal for a variety of lighter weight boats using T50-F115 outboards
- Shift Dampener System (SDS™)
- Available in 14" – 18" pitches

Talon® Pontoon

- Excellent for use with 4.25" gearcases.
- Use on twin-log pontoon boats and some deck boats, sailboats, and utility/work boats where extra thrust, maneuverability, and control are needed.
- Ideal for many applications using Yamaha's F70 outboard.
- Resists ventilation, particularly in turns and at high engine trim levels

Talon® SS4

- Special blades provide excellent "grip" on the water
- Ideal for a variety of lighter weight boats using T50-F115 outboards
- Shift Dampener System (SDS™)
- Available in 14" – 23" pitches

Performance 3

- Shift Dampener System (SDS™) M/T Series
- Excellent general purpose propeller
- More durable than aluminum
- Wide variety of applications from 25hp - 300hp in left and right-hand rotation

PRO™

- Excellent performance choice for bass, bay, or flats boats
- Improved bow lift
- Vented exhaust
- Available for Yamaha "M" series (4.75") gearcases

Reliance®

- Shift Dampener System (SDS™)
- CAD-designed to increase performance
- Resists ventilation and improves overall grip
- Designed for Yamaha 2.7L and 2.8L inline four cylinder outboards (F150 ~ F200)

Performance 4

- Improved hole shot and overall grip
- Excellent in rough water or on applications requiring high engine mounting heights
- "M" series (4.75") gearcases, 150-225hp

V MAX SHO®

- Ultimate performance for V MAX SHO® four stroke outboards
- Excellent for bass, bay, and flats boats
- Awesome acceleration and top speed
- Ventless exhaust
- Incredible performance and handling
- Available in 22"- 27" pitches right-hand rotation only

Saltwater Series HS4™

- Shift Dampener System (SDS™)
- Excellent acceleration, quick planing, and maximum grip
- Resists ventilation in rough or following seas
- Designed for Yamaha V6 outboards
- Available in 21", 22", and 23" pitches in left and right-hand rotation

Saltwater Series II™

- Shift Dampener System (SDS™)
- Large diameter blade design
- Aggressive rake and extra cup
- Superior fuel efficiency
- Available for Yamaha "M" and "T" series (4.75") gearcases in select 13" - 23" pitches in left and right-hand rotation

Performance XT™

- Large, long blade design
- Increased strength and durability
- Perfect for heavier bass boats with jack plates or high engine mounting height
- Available in 17"-27" pitches, right-hand rotation only

Saltwater Series XL®

- Shift Dampener System (SDS™)
- Designed specifically for Yamaha V8 outboards
- Large blade and large diameter for maximum thrust
- Excellent acceleration and quick planing
- Available in select 15" - 23" pitches in left and right-hand rotation for Yamaha "X" series (5.25") gearcases

Saltwater Series XL4™

- Shift Dampener System (SDS™)
- Improved acceleration and grip
- Quick planing and reduced ventilation
- Excellent for large V8 powered offshore boats
- Available in 15" and 17" pitches in left and right-hand rotation

Saltwater Series XL4™ - HP

- Shift Dampener System (SDS™)
- Improved acceleration and grip
- Quick planing, advanced blade designed specifically for Yamaha V8 outboards
- Excels on stepped hull, high speed, high horsepower offshore center console boats
- Available in 22" and 24" pitches in left and right-hand rotation

TRP

- 60% more blade surface provides transom lifting performance like no other.
- Outstanding handling, greater thrust and unmatched hole shot.
- Requires a TRP (Twin Rotating Propeller Lower Unit)

Small Hub Series

- Highly-specialized propeller designed for specific applications using 60hp – 200hp outboards
- Features a "exhaust-over-the-hub" design, allowing the outboard to develop rpm quicker for faster hole shots.

Turbo Propeller Descriptions

2+2 TH

- Excellent sterndrive and V6 four-stroke outboard propeller
- Advanced blade geometry helps maximize performance on deeply submerged drive units
- Improved hole shot, acceleration and ability to effectively power heavier loads than typical three-bladed propellers
- Ideal for water sports or family boating

2+2 OT

- Over and thru hub exhaust
- Better acceleration and grip
- Excellent load carrying ability
- Fits a wide variety of V6 outboard applications

Fusion 4

- Advanced design with aggressive rake, progressive pitch
- Through hub vented exhaust
- Excellent for high horsepower sterndrive and outboard “surfacing” applications in single or multi engine configurations
- Excels on stepped hull offshore boats

FX4

- Improved bow and stern lift
- Improved acceleration and load carting ability
- Excellent for flats or shallow water boats
- Works well on a broad range of smaller boats and applications using 3 and 4 cylinder outboards with 4.25”gearcases

FXP™

- Designed specifically for ultra-high-performance four-stroke outboards like Yamaha’s V MAX SHO®
- Excels in hole shot, acceleration, top speed and handling; all at tournament loads
- Minimal bow rise, steering torque, and operator fatigue
- Excellent for light, high performance bass, bay and flats boats
- Available in single inch pitches from 22” to 27”

Hot Shot

- Ideal for smaller boats and outboards
- Reduced slip and resistance to ventilation
- Increased performance and fuel efficiency
- Increased durability over aluminum

Lightning

- Aggressive pitch, high rake angle, and large diameter
- Excellent speed, handling, and bow lift
- Thick blades increase strength, longevity, and durability
- Ideal for heavier designed bass and flats boats with high engine mounting heights
- Designed for Yamaha V6, MERCURY®®, Johnson®/Evinrude® V6/
V8, and Suzuki®

Offshore I & II

- Excellent for 200HP - 300HP V6 offshore-type applications in single or multiple engine configurations
- Offshore I = 4-blade design / Offshore II = 3-blade design
- Superlative load carrying ability, transom & bow lift for large heavy offshore boats using outboard power
- Outstanding speed and fuel efficiency at cruising RPM's
- Reduced ventilation and slip in rough or following seas

Pontoon 1

- Excellent for use with 3 and 4 cylinder outboards with 3.5" or 4.25" gearcases
- Use on twin-log pontoon boats and some deck boats, sailboats, and utility/work boats where extra thrust, maneuverability, and control are needed.
- Ideal for many applications using Yamaha's F70 outboard.
- Resists ventilation, particularly in turns and at high engine trim levels

Quest™

- Excellent for 3 and 4 cylinder outboards using a 4.25" gearcase
- Very well suited for smaller utility/work boats and Yamaha F70 applications
- Available with 3 or 4 blades

Turbo 1

- Turbo's most popular and best "all around" performance propeller
- Suitable for most 3 and 4 cylinder outboards and V4/V6 outboards, as well as stern drives and Johnson®/Evinrude® V8 outboards
- Enhanced bow lift, excellent performance, and handling characteristics for medium to heavily loaded boats

TXP™

- Excellent high-horsepower, high-speed propeller for very light, high-speed boats, particularly those using high engine mounting heights or a hydraulic jack plate and having naturally greater bow lift “built-in”
- Aggressive pitch and cupping
- High rake angle
- Excellent for surface piercing applications

TXP™ OT4

- Excellent high-horsepower, high-speed propeller for very light, high-speed boats, particularly those using high engine mounting heights or a hydraulic jack plate and having naturally greater bow lift “built-in”
- Faster hole shots and quicker acceleration
- Over and thru hub exhaust helps develop rpm rapidly
- Very aggressive pitch and high rake angle
- Large diameter and advanced trailing edge blade cupping
- Excellent in surface piercing applications

Ultima 4

- Suitable for V6 outboards utilizing a high engine mounting or operating height, including those with jack plates
- Excellent for bay and flats boats due to stern lift at hole shot and during acceleration
- Excellent performance with improved bow and transom lift
- Resists ventilation and slip in turns and at high engine trim levels

Vector

- Specifically for sterndrives where the props ride fully submerged
- Also works well on heavier 22’-27’ boats, particularly with twin engines
- Faster hole shots and improved planing
- Excellent bow lifting characteristics
- Good performance in rough water

What does the Yamaha propeller series mean?

The propeller series simply relates to the gearcase diameter. See the chart below for more information.

Propeller Mark	Model	Gear Case Diameter	Spline Count
A	2	1.75"	Shear Pin, no Spline
BS	F2.5	2.00"	9
B	4, 5	2.00"	9
BA	4, 5, F4, F4A, F6A	2.00"	9
N	6, 8, F6, F8	2.25"	7
R	T8, T9.9	2.50"	8
J	9.9 ~ F20	2.50"	8
F	20~30, F25	3.00"	10
G	40~55, T25~F60	3.50"	13
K, KL	60~130, T50~F115	4.25"	15
M/T, ML/TL	150~300, F150 ~ F300 (4.2L V6)	4.75"	15
X, XL	F300/F350TR (V8)	5.25"	17

How to Pick a Propeller

When it comes to 'proper propping', there's no magic bullet or one particular prop that's perfect for all boat types and engine applications due to the litany of performance variables, but there are ways to 'hone in' on what you need. As a general rule, the correct propeller will allow your engine to reach the upper portion of the WOT (wide open throttle) range specified by the manufacturer without exceeding it, with a normal-to-heavy load. For example, if your outboard says WOT is 5000-6000 rpm, you need a prop that will allow your engine to turn between approximately 5700 and 6000 rpm with your average-to-heavy load in the boat. Be sure to account for things like fuel, full bait and/or live wells, batteries, passengers, and all gear, including safety gear like anchors, ropes, etc.

To begin, check Yamaha's Performance Bulletins on our website: <http://yamahaoutboards.com/owner-resources/performance-bulletins>.

Choose the type of boat most similar to yours (or the one you want), and note what propeller is listed. Next, check out the propeller solutions applicable to your particular horsepower Yamaha outboard in our propeller charts located in the propellers section of our marine website's landing page <https://yamahaoutboards.com/en-us/home/propellers/all/propeller-families> (there's a great deal of other great information in here, too!). Look for the same series name and pitch of propeller as the Performance Bulletin, then adjust the pitch depending on weight and altitude (heavier weight or higher altitude, pitch down...light or low, pitch even or slightly up). Each inch of propeller pitch is equal to approximately 150-200 rpm.

Don't see a Performance Bulletin for the same type boat as what you've got? Look on the outside barrel for the pitch or remove the prop and look on the inside of the hub for the propeller 'size', then consult the charts and adjust the pitch accordingly.

Yamaha Performance Bulletin

Propeller Terminology

Pitch

Pitch is the distance (in inches) a particular prop would theoretically travel in one full revolution, as if traveling through a solid. A lower pitch will have better hole shot and “pushing power” but a lower top speed, while a higher pitch prop will provide less acceleration, but a greater potential for higher top speeds. The correct propeller will allow your engine to reach the upper portion of the WOT range specified by the manufacturer with a normal-to-heavy load (without exceeding it). Each inch of pitch is equal to approximately 150 +/- 50 RPM.

Diameter

Diameter means the total width of the “circle” at the blade tips as the propeller spins. A larger diameter pushes more water and reaches deeper into the water, so they’re typically used on large, heavy boats or ones with high engine mounting heights. A smaller diameter is usually used on lighter weight boats, where the prop operates lower in the water or when a gain in engine RPM is desired.

Number of Blades

Three-bladed propellers are the most common, offering good overall performance, top speed, and efficiency for most applications. Four blades characteristically provide increased acceleration, enhanced bow- and stern-lift, and reduced ventilation. However, four blades typically mean more drag on the engine, resulting in lower top speeds and different handling characteristics.

Blade Surface Area

Blade surface area refers to the total surface of the blades. The more blade surface area a prop has the more water it pushes, for better hole shot and increased planing efficiency. Too much can create significantly more drag, however, potentially restricting engine RPM and causing negative boat-handling issues.

Blade Geometry

Blade geometry refers to the actual shape of the blade (or ear). By manipulating the blade's shape, diameter and pitch progression, different performance characteristics are created for each different type and style of propeller.

Cup

Cup is the small curved lip on the blade tip and/or trailing edge. Used in proper amounts, cup helps reduce ventilation and propeller slippage, allowing for higher mounting heights and greater bow lift. Too much cup, however, will cause excessive steering torque and bow lift and limit the engine's ability to develop and maintain proper RPM at a certain pitch.

Rake

Rake is the angle of the blades in relation to the propeller's barrel, or center, and is expressed in degrees. A high rake propeller is best suited for high engine mount applications by helping reduce ventilation and increasing bow lift. Too much rake, however, strains the engine, decreases hole shot and can produce negative performance and handling results. A propeller with a low rake angle will cause less strain on the engine, resulting in potentially better hole shot and higher WOT operating rpm.

Gear Ratio

Gear ratio on a marine engine refers to the gears used in the lower unit, much like an automobile's transmission. The higher the ratio, the more pushing power the engine will produce. The lower the ratio, the more top speed the engine can potentially generate. It's important to choose a propeller that allows the engine to operate near the upper end of the manufacturer's recommended wide-open throttle (WOT) RPM under normal loads and conditions.

Ventilation

Ventilation is when air is drawn in around the propeller blades. Normally, this causes a gain in rpm, but a loss of speed, since the propeller blades are not biting clean water. This most usually occurs during hard cornering or in certain water conditions, such as following seas.

Controlled ventilation can be beneficial, though, in helping the engine gain rpm during hard acceleration. This is engineered into certain propellers, and is most-usually used on two stroke outboards. An example of this is the small holes in the side of the propeller barrel which allow exhaust to intentionally be drawn in around the blades at hole shot. This helps two stroke engines generate the higher rpm they need for proper hole shot performance. Four stroke engines typically don't need them.

Cavitation

Cavitation occurs when pressure on the water across the blade's surface is reduced to the point of becoming water vapor, forming bubbles. If these bubbles burst, they can cause a cavitation burn which can deteriorate the propeller's surface and cause negative performance issues. As this condition can cause an increase in engine rpm, it's often confused with ventilation.

Slip

Slip is the amount of wasted energy a particular prop generates, meaning that the actual distance traveled in one full propeller revolution is less than its pitch measurement. It is normally expressed as a percentage of inefficiency. A certain amount of slip is engineered into each line of propellers to create different performance characteristics.

Hole Shot

"Hole shot" refers to rapid acceleration of the boat, from a standing rest or very slow speed until just on-plane. This is when the engine and the propeller work their hardest.

Hubs for Turbo Propellers

Guardian SQ-Lok™ Hub System

A square hub is required for proper installation of Turbo® propellers. Turbo proudly recommends the Guardian SQ-Lok™ Hub System. Guardian SQ-Lok™ hubs are designed to take the punishing power and exhaust heat today's modern marine engines deliver. Unlike some other brands, they feature heavy-duty construction and a nylon center core (drive adaptor) with a molded-in interlocking brass spline insert for extra strength and durability. They're easy to install or replace, and come with the necessary hardware to help get you on the water fast. Demand tough. Demand convenient. Demand a Guardian SQ-Lok™ hub system.

Propeller Accessories

Prop Lock

Helps protect your propeller investment. Easy-to install and cost effective. Does not interfere with operation (i.e., motor can be used with a lock installed). Suitable for use on regular and counter rotating props. Fits 40 ~ 90

MAR-PROPL-CK-01

Propeller Cover

Constructed of 600D, solution-dyed polyester for durability and fade resistance

MAR-PROPB-AG-BK

TRP Front Prop Wrench

Designed to fit both propeller nuts on the D150 and DX150 models. (Not shown)

65N-28161-00-00

“Old Style” SDS Spacers

Required for installing a SDS propeller on engines with non SDS propellers installed or equipped with non a SDS spacer in the engine crate.

V8: 6AW-45997-10-00

V6: 6CE-45997-00-00

F150: 6CE-45997-00-00

Two Piece Thrust Washer:

Used in place of a standard thrust washer on most VZ and VF engines.

99999-03848-00

Note 1: All NGK® spark plugs for Yamaha Outboards are sold in 10 packs. (Ordering 10 spark plugs will be equal to one box)

Note 2: Refer to Technical Bulletin O2000-015A to ensure the correct spark plug and gap are used.

Note 3: Refer to Technical Bulletin O2003-016 to ensure the correct spark plug and gap are used.

Why Yamaha Oil Filters?

Customers come to your dealership for the service they trust. Why risk that on an aftermarket filtration element and cardboard filter ends? Yamaha oil filters are constructed with molded high quality media for long life and superior filtration.

Electric Oil Pump Strainer

Used on all HPDI engines between the engine oil tank and the electric oil pump.

68F-13440-00-00

Remote Oil Tank Filter

Remote oil tank filters are regularly missed during yearly service. Replacing the filter during the service can help prevent issues later down the road.

Remote Mounted Fuel Filters

10-Micron Fuel/Water Separating Filter

They are a primary line of defense against ethanol-related fuel system issues. Highly recommended for all two stroke and four stroke EFI outboards and two stroke HPDI's. Also excellent for carbureted engines. New, improved 10-micron filter provides superior filtration ahead of the engine's onboard filters and injectors. Large filtering and water capture areas maximize filtration while maintaining adequate flow rate for larger engines.

Assemblies

4-Stroke Carburetor Repair Kits

F2.5 - 69M-W0093-00-00

Kit Includes:

Qty	Description	Part #
1	Gasket, Float Chamber	69M-14984-00-00
1	Float	69M-14385-00-00
1	Pin, Float	6A1-14386-00-00
1	Screw, Pan Head	98580-03006-00
1	Valve, Needle	62Y-14392-00-00
1	Screw	69M-14991-00-00
2	Screw, Pan Head	98580-04010-00
1	O-Ring	2T4-14397-00-00
1	Gasket	69M-14536-00-00
1	Valve	69M-24523-00-00
1	O-Ring	69M-24533-00-00
1	Screw, Lever Fitting	69M-24535-00-00

F4 (03~06/2008) - 67D-W0093-01-00

Kit Includes:

Qty	Description	Part #
1	Float	68T-14385-00-00
1	Pin, Float	67D-14386-00-00
1	Valve, Needle	67D-14546-00-00
1	Gasket, Float Chamber	67D-14984-00-00
1	Gasket	6J8-14995-00-00
2	Screw, With Washer	97980-04112-00
1	Gasket	67D-14536-00-00

F4 (~-02) - 67D-W0093-00-00

Kit Includes:

Qty	Description	Part #
1	Float	67D-14385-00-00
1	Pin, Float	67D-14386-00-00
1	Valve, Needle	67D-14546-00-00
1	Gasket, Float	67D-14984-00-00
1	Gasket	6J8-14995-00-00
2	Screw, With Washer	97980-04112-00
1	Gasket	67D-14536-00-00

F4, F6 (09/2009~) - 6BX-W0093-00-00

Kit Includes:

Qty	Description	Part #
1	Float	6BX-14985-00-00
1	Gasket, Float Chamber	6BX-14984-00-00
2	Screw	6BX-14592-00-00
2	O-Ring	4JH-14562-00-00
1	Valve, Needle	6BX-14546-00-00
1	Pin, Float Arm	6BX-14548-00-00
1	Clip	6BX-14937-00-00

F6 (04/2007~06/2008) F8, T8, F9.9, T9.9 (04/2007~) 6AU-W0093-00-00

Kit Includes:

Qty	Description	Part #
2	Screw, With Washer	97980-04112-00
1	Float	6AU-14385-00-00
1	Pin, Float	67D-14386-00-00
1	Valve, Needle	68T-14546-00-00
1	Gasket, Float Chamber	6AU-14984-00-00
1	Gasket	6J8-14995-00-00
1	Gasket	67D-14536-00-00

F6, F8, T8 (~04/2006) - 68T-W0093-00-00

Kit Includes:

Qty	Description	Part #
1	Float	68T-14385-00-00
1	Pin, Float	67D-14386-00-00
1	Valve, Needle	68T-14546-00-00
1	Gasket, Float Chamber	67D-14984-00-00
1	Gasket	6J8-14995-00-00
2	Screw, With Washer	97980-04112-00
1	Gasket	67D-14536-00-00

FT9.9 - 6G8-W0093-02-00

Kit Includes:

Qty	Description	Part #
1	Gasket	6G8-14198-A0-00
1	Gasket, Float Chamber	6G8-14384-00-00
1	Pin, Float	647-14386-10-00
1	Gasket	654-14198-00-00
1	Screw, Air Adjusting	6G8-14323-00-00
1	Valve, Needle	6G8-14392-00-00
1	Float	6G8-14385-00-00
1	Screw, Panhead	98580-04016-00
1	Washer, Spring	92990-04100-00
2	O-Ring	1J2-14397-00-00
1	O-Ring	5H0-14397-00-00
1	O-Ring	5Y1-14397-00-00

F9.9-2, T9.9-2, F15 (~04/2005)

66M-W0093-01-00

Kit Includes:

Qty	Description	Part #
1	Gasket	66M-14398-00-00
1	Gasket	6L2-14398-00-00
1	Stopper	66M-14377-00-00
1	Gasket, Float Chamber	66M-14384-00-00
1	Float	6L2-14385-00-00
1	Pin, Float	6E5-14386-01-00
1	Valve, Needle	6L2-14392-00-00
1	Gasket	62Y-14399-00-00
1	Screw, Air Adjusting	12V-14105-00-00
4	Screw, With Washer	97980-04112-00
1	O-Ring	5H0-14397-00-00
1	O-Ring	6F5-14397-00-00
1	Filter	66M-14827-00-00

F9.9, T9.9 (~04/2005) - 6G8-W0093-03-00

Kit Includes:

Qty	Description	Part #
1	Gasket	6G8-14198-A0-00
1	Gasket, Float Chamber	6G8-14384-01-00
1	Pin, Float	647-14386-10-00
1	Gasket	654-14198-00-00

F15C, F20 - 6AH-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Housing, Water Pump	6AH-44311-00-00
1	Insert, Cartridge	63V-44322-00-00
1	Damper, Water Seal	6L2-44367-00-00
1	Impeller	63V-44352-01-00
1	Key, Woodruff	664-44338-00-00
1	O-Ring	93210-49046-00
1	Outer Plate, Cartridge	68T-44323-00-00
2	Pin, Dowel	93604-10M03-00
4	Bolt	97095-08045-00
2	Plate	63V-44328-01-00

F25 - 61N-W0078-11-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	63V-44322-00-00
1	Damper, Water Seal 3	6L2-44367-00-00
1	Impeller	63V-44352-01-00
1	Key, Woodruff	664-44338-00-00
1	O-Ring	93210-49046-00
1	Outer Plate, Cartridge	68T-44323-00-00
2	Pin, Dowel	93604-10M03-00
4	Bolt	97095-08045-00
2	Plate	63V-44328-01-00

T25, F30, F40 (00~2009) - 66T-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	63D-44322-00-00
1	Outer Plate, Cartridge	66T-44323-00-00
1	O-Ring	93210-59MG7-00
1	Gasket, Water Pump	63D-44316-00-00
1	Key, Woodruff	90280-03M03-00
1	Impeller	6H4-44352-02-00
4	Bolt, With Washer	90119-08M15-00
1	Damper, Water Seal 2	663-44366-00-00
1	Pump Housing Cover	63D-44312-00-00

F40 (99), F50 (97~), F60 (02~)

63D-W0078-01-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	63D-44322-00-00
1	Impeller	6H3-44352-00-00
1	Cover, Water Pump Housing	63D-44312-00-00
1	Outer Plate, Cartridge	63D-44323-00-00
1	O-Ring	93210-59MG7-00
1	Gasket, Water Pump	63D-44316-00-00
4	Bolt, With Washer	90119-08M15-00
1	Damper, Water Seal 2	663-44366-00-00
1	Key, Woodruff	90280-03024-00

F40 (2010~) - 6BG-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Pump Housing Cover	63D-44312-00-00
1	Gasket, Water Pump	63D-44316-00-00
1	Insert Cartridge	63D-44322-00-00
1	Outer Plate , Cartridge	63D-44323-00-00
1	Damper, Water Seal 2	663-44366-00-00
1	Impeller	6H4-44352-02-00
4	Bolt, With Washer	90119-08M15-00
1	Key, Woodruff	90280-03M03-00
1	O-Ring	93210-59MG7-00

F75, F80, F90, F100 - 67F-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	67F-44322-00-00
1	Impeller	67F-44352-00-00
1	Gasket, Water Pump	688-44315-A0-00
1	Outer Plate, Cartridge	67F-44323-00-00
1	Gasket, Cartridge	688-44324-A0-00
1	Gasket, Water Pump	688-44316-A0-00
1	O-Ring	93210-46044-00
2	Bolt, With Washer	90119-08M87-00
2	Bolt, With Washer	90119-08M13-00
1	Key, Woodruff	90280-04M04-00

F115 (00~01) - 6N6-W0078-02-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	61A-44322-02-00
1	O-Ring	93210-86M38-00
1	O-Ring	93210-37M67-00
1	Impeller	6E5-44352-01-00
1	Outer Plate, Cartridge	6E5-44323-00-00
1	Gasket, Water Pump	6E5-44315-A0-00
2	Pin, Dowel	93606-12019-00
4	Bolt, With Washer	90119-08M14-00
1	Key, Woodruff	90280-04M05-00
1	Key, Woodruff	90280-04M04-00

F115 (02~) - 68V-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	61A-44322-02-00
1	O-Ring	93210-86M38-00
1	O-Ring	93210-37M67-00
1	Impeller	6E5-44352-01-00
1	Outer Plate, Cartridge	6EK-44323-00-00
1	Gasket, Water Pump	6E5-44315-A0-00
2	Pin, Dowel	93606-12019-00
4	Bolt, With Washer	90119-08M14-00
1	Key, Woodruff	90280-04M05-00

F50, T50 (96) - 6H3-W0078-A0-00

Kit Includes:

Qty	Description	Part #
1	Gasket, Water Pump	6H3-44315-A0-00
1	Outer Plate, Cartridge	6H3-44323-00-00
1	Gasket, Cartridge	6H3-44324-A0-00
1	Impeller	6H3-44352-00-00
1	Insert, Cartridge	663-44322-00-00
1	Gasket, Water Pump	688-44316-A0-00
1	Key, Woodruff	90280-03M03-00
1	O-Ring	93210-46044-00
4	Bolt	97095-08055-00
4	Bolt	97095-08045-00

T50, T60 (97~) - 6H3-W0078-02-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	663-44322-00-00
1	Impeller	6H3-44352-00-00
1	Gasket, Water Pump	6H3-44315-A0-00
1	Outer Plate, Cartridge	6H3-44323-00-00
1	Gasket, Cartridge	6H3-44324-A0-00
1	Gasket, Water Pump	688-44316-A0-00
1	O-Ring	93210-46044-00
2	Bolt, With Washer	90119-08M14-00
2	Bolt, With Washer	90119-08M33-00
1	Key, Woodruff	90280-03M03-00

F70 - 6CJ-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	63D-44322-00-00
1	Gasket, Water Pump	6CJ-44315-00-00
1	Cover, Pump Housing	63D-44312-00-00
1	Damper, Water Seal 2	663-44366-00-00
1	Impeller	6H3-44352-00-00
1	Key, Woodruff	90280-03M03-00
2	Oil Seal	93101-23070-00
1	O-Ring	93210-46044-00
1	Gasket, Water Pump	6CJ-44316-00-00
1	Outer Plate, Cartridge	6CJ-44323-00-00
1	Gasket, Cartridge	6CJ-44324-00-00
2	Pin, Dowel	93604-10M03-00
2	Bolt, With Washer	90119-08M33-00
2	Bolt, With Washer	90119-08M14-00

F150, F200, F225 - 61A-W0078-A3-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	61A-44322-02-00
1	O-Ring	93210-86M38-00
1	O-Ring	93210-37M67-00
1	Impeller	6E5-44352-01-00
1	Outer Plate, Cartridge	6G5-44323-01-00
1	Gasket, Water Pump	6E5-44315-A0-00
2	Pin, Dowel	93606-12019-00
4	Bolt, With Washer	90119-08M14-00
1	Key, Woodruff	90280-04M05-00

F300, F350 (V8) - 6AW-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	6AW-44322-00-00
1	O-Ring	93210-94003-00
1	O-Ring	93210-37M67-00
1	Impeller	6AW-44352-00-00
1	Key	6AW-44336-00-00
1	Outer Plate, Cartridge	6AW-44323-00-00
1	Gasket, Water Pump	6AW-44315-00-00
2	Pin, Dowel	93606-12019-00
4	Bolt, With Washer	90119-08M14-00

VF200, VF225, VF250 - 6CB-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	61A-44322-02-00
1	O-Ring	93210-86M38-00
1	O-Ring	93210-37M67-00
1	Impeller	6E5-44352-01-00
1	Key, Woodruff	90280-04002-00
1	Outer Plate, Cartridge	6CB-44323-00-00
1	Gasket, Water Pump	6CB-44315-00-00
2	Pin, Dowel	93606-12019-00
4	Bolt, With Washer	90119-08M14-00

F250, F250B - 6P2-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	61A-44322-02-00
1	O-Ring	93210-86M38-00
1	O-Ring	93210-37M67-00
1	Impeller	6E5-44352-01-00
1	Outer Plate, Cartridge	6P2-44323-00-00
1	Gasket, Water Pump	60X-44315-A0-00
2	Pin, Dowel	93606-12019-00
4	Bolt, With Washer	90119-08M14-00
1	Key, Woodruff	90280-04M05-00

F225, F250, F300 (4.2L) - 6CE-W0078-01-00

Kit Includes:

Qty	Description	Part #
2	Oil Seal	93104-22M07-00
1	Insert, Cartridge	6AW-44322-00-00
1	O-Ring	93210-94003-00

XTO® 425 (2018~) - 6GR-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	6GR-44322-00-00
1	O-Ring	93210-97690-00
1	O-Ring	93211-08001-00
1	O-Ring	93210-37160-00
1	Impeller	6GR-44352-00-00
1	Outer Plate, Cartridge	6GR-44323-00-00
2	Pin, Dowel	93606-12019-00
4	Bolt, With Washer	90119-08M16-00
1	Key	6AW-44336-00-00

4, 5 (97~) - 6E0-W0078-A3-00

Kit Includes:

Qty	Description	Part #
1	Housing, Water Pump	6E0-44311-00-00
1	Gasket, Water Pump	6E0-44315-A0-00
1	Insert, Cartridge	6E0-44322-02-00
1	Outer Plate, Cartridge	6E0-44323-00-00
1	Damper, Water Seal 2	6E0-44366-00-00
1	Impeller	6E0-44352-00-00
4	Bolt	97095-06045-00
2	Pin Dowel	93604-18080-00

6, 8 (96~) - 6N0-W0078-A0-00

Kit Includes:

Qty	Description	Part #
1	Gasket, Water Pump	6G1-44315-A0-00
1	Insert, Cartridge	6G1-44322-00-00
1	Outer Plate, Cartridge	6G1-44323-00-00
1	Damper, Water Seal 2	647-44366-00-00
1	Impeller	6G1-44352-00-00
2	Plate	6G1-44328-00-00
4	Bolt	97080-06045-00

9.9, 15 (~95) - 682-W0078-A1-00

Kit Includes:

Qty	Description	Part #
2	Gasket, Water Pump	682-44315-A0-00
1	Insert, Cartridge	682-44322-00-00
1	Outer Plate, Cartridge	682-44323-00-00
1	Damper, Water Seal 1	682-44365-00-00
1	Key, Woodruff	90280-03024-00
4	Bolt	97095-06040-00
1	Impeller	682-44352-03-00

9.9, 15 (96~) - 63V-W0078-02-00

Kit Includes:

Qty	Description	Part #
1	Damper, Water Seal 2	647-44366-00-00
4	Bolt	97095-08045-00
1	Insert, Cartridge	63V-44322-00-00
1	Impeller	63V-44352-01-00

20, 25 Two Cylinder - 6L2-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Outer Plate, Cartridge	6L2-44323-00-00
1	O-Ring	93210-45161-00
1	Impeller	6L2-44352-00-00
1	Insert, Cartridge	6L2-44322-00-00
4	Bolt	97095-06040-00
1	Key, Woodruff	90280-03024-00

25, 30 Three Cylinder (96~02)

6J8-W0078-A2-00

Kit Includes:

Qty	Description	Part #
1	Insert, Cartridge	663-44322-00-00
1	Impeller	6H4-44352-02-00
1	Gasket, Water Pump	663-44315-A0-00
1	Outer Plate, Cartridge	663-44323-00-00
1	Gasket, Cartridge	663-44324-A0-00
1	Gasket, Water Pump	663-44316-A0-00
2	Bolt, With Washer	90119-08M13-00
2	Bolt, With Washer	90119-08M34-00

C25 (90~97), C30 (90~92) - 689-W0078-A6-00

Kit Includes:

Qty	Description	Part #
1	Damper, Water Seal 1	626-44365-01-00
1	Housing, Water Pump	689-44311-03-00
3	Bolt, With Washer	90119-06M07-00
1	Insert, Cartridge	689-W4432-02-00
1	Outer Plate, Cartridge	689-44323-03-00
1	Gasket, Cartridge	689-44324-A0-00
1	Impeller	689-44352-02-00
1	Gasket, Water Pump	689-44316-A0-00
1	Key, Woodruff	664-44338-00-00

30 (~95) - 6J8-W0078-A1-00

Kit Includes:

Qty	Description	Part #
1	Impeller	6H4-44352-02-00
1	Gasket, Water Pump	663-44315-A0-00
1	Gasket, Water Pump	663-44316-A0-00
1	Insert, Cartridge	663-44322-00-00
1	Outer Plate, Cartridge	663-44323-00-00
1	Gasket, Cartridge	663-44324-A0-00
2	Bolt	97095-08040-00
2	Bolt	97095-08050-00

C30 (93~97) - 61N-W0078-11-00

Kit Includes:

Qty	Description	Part #
1	Housing, Water Pump	61N-44311-01-00
1	Damper, Water Seal 3	6L2-44367-00-00
1	Insert, Cartridge	61N-44322-01-00
1	Impeller	6H4-44352-02-00
1	O-Ring	93210-45161-00
1	Outer Plate, Cartridge	61N-44323-00-00
4	Bolt	97095-06040-00
4	Washer	92990-06600-00
1	Key, Woodruff	90280-03024-00

40, 50 P50, (~96) - 63D-W0078-00-00

Kit Includes:

Qty	Description	Part #
1	Gasket, Water Pump	63D-44316-00-00
1	Outer Plate, Cartridge	63D-44323-00-00
1	Impeller	6H3-44352-00-00

REMINDER

Don't forget the WR No. 2 grease for the driveshaft splines when reinstalling the lower unit after water services.

WR No. 2 Grease

Provides water resistance, rust protection, lubrication and heat resistance. Specially designed for four stroke oil pump seals, drive shaft splines and drive shaft bushing area. For four stroke and two stroke applications.

YAMALUBE® Marine Performance

There are many reasons you chose a Yamaha Outboard. Performance, Technology, Durability, and an enjoyable boating experience you can look forward to thanks to Yamaha's legendary reliability. Using Genuine Yamaha oils and maintenance parts along with a regular maintenance schedule can help your customers get the most out of their engines and their boating experience.

Yamaha offers a variety of material to help you convey the importance of proper maintenance and the advantage of Genuine Yamaha parts, most at little or no cost to you.

Outboard Engine Oil

Yamalube® 2M- Two Stroke for Outboards

NMMA® TC-W3®-Certified, 2M premium two stroke blend delivers superior lubrication and anti-wear/anti-rust protection for outboard engines operating in demanding marine environments. Provides the highest level of protection on the market. Semi-synthetic oil with an exclusive additive blend works to guard against ring stick and carbon build up, while special additives minimize wear. This oil is designed for the most grueling conditions two stroke outboards face. Whether it's extended full-throttle operation, engine-punishing "out of the hole" acceleration, or hour after hour of trolling, this oil can take it. With its extreme level of performance, Yamalube 2M offers the best everyday protection, too. *Not recommended for WaveRunner® Personal Watercraft or Sport Boats.*

YAMALUBE 4M FC-W® Full Synthetic SAE 5W-30

Group IV fully synthetic oil offers our best outboard lubrication and performance, and it's FC-W® rated by the National Marine Manufacturers Association (NMMA®). Contains all of the benefits of mineral oil based Yamalube 4M, with increased lubricity for lower friction levels and potentially improved fuel economy. Specific marine additives help combat rust, corrosion, varnish, and wear; all while providing high levels of bearing protection, resistance to foaming, and lubrication.

Yamalube 4M FC-W® for Four Stroke Outboards

In order for an oil to be approved by the NMMA® to hold its highest rating for marine engine oils, FC-W® (Four Cycle – Water cooled) it must pass a multitude of tests. Passenger car oils don't pass these tests, which is why it's important to use NMMA®-Certified Yamalube 4M FC-W®. Automotive oils do not usually run at 6000 rpm. Yamaha Outboard engines were designed to run at full throttle (5500 to 6000 rpm) all day long. At this speed it is critical that engine oil not foam. Foaming reduces lubricity which can lead to wear and over time this can lead to failure. Yamalube 4M FC-W® has the best blend of anti-foam technology available.

Outboard Oil Change Kits

Yamaha's oil change kits are designed for the mobile service dealers to provide an easy, all in one oil change package. They're also perfect for the do-it-yourself customer. One stop, one box, and your customer is back on the water. Large, Mid Range, and Medium Kits have a minimum order quantity of 4. Small oil change kits have a minimum order quantity of 6.

Pumps and Spouts

Multi-Purpose Gallon Pump

Universal style gallon-size container pump. Fits standard oil containers with a 1-1/2" neck. A marine lower unit fitting and all-purpose fitting are also included.

ACC-PUMP0-02-GL

Multi-Purpose Quart Pump

Universal style quart-size container pump. Fits standard oil containers with a 1-1/8" neck. A marine lower unit fitting and all-purpose fitting are also included.

ACC-PUMP0-00-QT

5-Gallon Pail Pump

Use with 5-gallon pails of lube. Comes with special marine lower unit fitting and an all-purpose fitting for filling gearcases.

LUB-PUMP0-05-GL

Manual 55-Gallon Drum Pump

Use with 55-gallon drums of Yamalube.

ACC-11000-39-99

Oil Extractor Pump

Make changing the oil on your four stroke personal watercraft, snowmobile, ATV, boat, lawn mower, etc. clean and hassle free. Holds up to 6 liters (1.5 gal) in this sturdy portable container. Pump included.

15 Liter Oil Extractor

This extractor is designed to extract fluids from inaccessible or confined areas. It is ideal for oil changes. To measure how much you have extracted, each calibrated line on the wall is about one liter with a total capacity of 15 liters.

SBT-15LEX-TR-10

Ratio Rite®

Provides measures for 16:1- 50:1 mixtures, and cc./oz./pt. for fills.

ABA-RATIO-RI-TE

Disposable Funnel

This paper funnel is great as either a shop tool or as an accessory to an oil change kit.

ACC-FLDFU-NN-EL

Fuel Additives

What's Good for the Environment Can Be Bad for Your Engine.

Ethanol-enriched (E-10) fuels help to improve air quality, which is why the federal government has mandated their increased use. However, unlike fuels of the past, E-10 fuels are known to absorb moisture, either from the air or from standing water in the bottoms of fuel tanks. They also generate corrosive sulfate salts that can attack metal components in a fuel system, clogging filters and resulting in other performance issues. Because of these known weaknesses, E-10 fuels require special care and treatment, whether your engine is in constant use or in storage. The Yamalube Care Products line includes formulations that help combat the potential harmful side-effects of E-10 fuels, ensuring high performance, lower ownership costs and a long life for your Yamaha.

Ring Free PLUS

Exclusive, synthetic PLUS formula provides superior deposit control; cleaning fuel injectors, carburetors, intake valves, intake ports and combustion chambers. Contains metal filmers to help protect fuel system components like silver solder, copper, aluminum and steel from the corrosive effects of ethanol sulfate salt.

- 32 oz. Bottle (Qty. 6*) ACC-RNGFR-PL-32**
- 12 oz. Bottle (Qty. 12*) ACC-RNGFR-PL-12**

Fuel Stabilizer & Conditioner PLUS

Strongly recommended for E-10 fuels, this alcohol-free formula helps prevent fuel oxidation and phase separation. Use continuously to help keep fuel fresh, potent and free from gum and varnish for up to one year of storage. Its metal filmers provide extensive protection for steel and aluminum components.

- 32 oz. Bottle (Qty. 6*) ACC-FSTAB-PL-32**
- 12 oz. Bottle (Qty. 12*) ACC-FSTAB-PL-12**

Grease

Molybdenum Disulfide

This extreme-pressure grease lubricates high loads at various speeds. Non-corrosive, it's water-resistant, exhibiting low-friction properties that protect against wear and galling in difficult operating conditions.

10 oz. Tube (Qty. 12*) ACC-MOLDM-GS-10

Marine Grease

Especially formulated to resist wash-off and extreme heat and pressure, and prevent corrosion and rust. (NLGI® 2) Lithium soap based.

10 oz. Tube (Qty. 12*) ACC-GREAS-10-CT

14 oz. Cartridge (Qty. 10*) ACC-GREAS-14-CT

Multi-Purpose Grease

Specially formulated to resist extreme pressure, water and corrosion. (NLGI® 2)

1 lb. Tub (Qty. 6*) ACC-MLTPR-GR-00

WR No. 2 Grease

Provides water resistance, rust protection, lubrication and heat resistance. Specially designed for four stroke oil pump seals, drive shaft splines and drive shaft bushing area. For four stroke and two stroke applications.

90790-74046-00

* Ordered individually with a minimum order quantity

Power Trim & Tilt

Premium formula is nonfoaming and resists heat and pressure found in power trim, tilt and power steering systems for smooth operation. Meets Yamaha factory requirements.

Quart Bottle (Qty. 12*) ACC-PWRTR-MF-32

10 oz. Tube (Qty. 12*) ACC-PWRTR-MF-10

Marine Lower Unit Gear Lube HD

Special formulation required for use in V8 F300-F350 V6 VMAX SHO® 200-250, and 4.2L Offshore gearcases. (Not recommended for use in any other Yamaha outboard.)

Quart Bottle (Qty. 12*) ACC-GLUBE-HD-QT

Gallon Bottles ACC-GLUBE-HD-GL

5 Gallon Pail ACC-GLUBE-HD-05

Gearcase Lube

Rust and corrosion inhibitors protect outboard gearcase components. (Not for use on V8 outboards.)

Yamabond® Adhesives

Yamabond® 4 Marine

This silicone-based liquid gasket fills gaps to prevent leaks. Pressure and oil resistant.

3 oz. Tube **ACC-BOND4-MA-00**

Yamabond® 5

Coat mechanical joints with this liquid gasket before assembly to prevent leaks.

2.5 oz. Tube **ACC-YAMAB-ON-D5**

Yamabond® 6B

Has high viscosity and excellent swelling, and works effectively for joint surfaces that have a larger clearance.

3.5 oz. Tube **ACC-YAMAB-ND-6B**

Yamabond® 7

High-strength, synthetic rubber adhesive formulated for grips, throttle pipes and lever handles, without damaging rubber.

10 gram Tube **ACC-YAMAB-ON-D7**

Yamabond® 1386

Used for camshaft caps on four stroke outboard engines.

15 ml Bottle **ACC-YAMBD-13-86**

Threadlock

Yamabond® Blue Threadlocker

This medium-strength anaerobic threadlocking agent prevents nuts and bolts from loosening due to vibration. This primerless threadlocker is easy to use. Can be used where service manual calls for Loctite® 242™.

ACC-YAMBD-P2-42

Yamabond® Red Threadlocker

This high-strength anaerobic threadlocking agent prevents nuts and bolts from loosening. This primerless threadlocker is easy to use. This product is for use where the service manual states "Use LT 271."

ACC-YAMBD-P2-71

Shop Supplies

Yamaha Internal Engine Cleaner
For dealer purchase only. The best product offered by Yamaha for carbon removal. Ordered by case, 1 on order equals 6 bottles.

Quart bottle (Qty. 6*)
ACC-CLEAN-D1-00

Carburetor Cleaner Dip
Use this concentrated solution with water as a dip for cleaning metal that has been varnished by old gasoline. Also removes dirt, grime and gum.

Quart Bottle (Qty. 12*)
ACC-CARBC-LE-NR

EFI Engine Storage Fogging Oil
Equally distributes fogging oil to cylinders in EFI engines with single-throttle bodies, protecting pistons, cylinder walls and valves from moisture, salt water and combustion acids for up to 1 year of storage.

Quart Bottle (Qty. 6*)
ACC-STORR-IT-32

Stor-Rite Engine Fogging Oil
Lubricates and protects internal engine components. Critical for proper winterization and during extended storage periods.

12 oz. Can (Qty. 12*)
ACC-STORE-RI-TE

Combustion Chamber Cleaner
Use to remove carbon and other contaminants from cylinders, pistons, rings and valves. A great inclusion into your seasonal maintenance. Clean engines last longer.

13 oz. Can (Qty. 12*)
ACC-CMBSN-CL-NR

LubezAll
This popular lube is back and completely reformulated. Now an aerosol synthetic grease with PTBE, it's a high quality multipurpose lubricant.

11 oz. Can (Qty. 12*)
ACC-LUBZA-LL-00

Brake & Contact Cleaner
Use this product to clean off brake dust from critical brake components and quickly clean parts leaving them residue free.

13 oz. Can (Qty. 12*)
ACC-BRKCT-12-00

Battery Terminal Cleaner & Protector
This strong water-based cleaner with acid-alkali indicator removes corrosive build-up on battery terminal posts to help increase power output and extend battery life. Simply rinses off with water and leaves terminals coated with a residual protective film.

13 oz. Can (Qty. 12*)
ACC-BATTCLN-PR

PowerDrive™ Sliding T-Driver with 8-Piece Socket Set by CruzTOOLS®

The PowerDrive™ Sliding T-handle set Includes a 3/8" tip driver, 8, 10, 12, 14, and 17mm sockets, 5 and 6mm hex bits and a #2 Phillips screwdriver bit. A socket clip that attaches to the driver keeps the sockets in order and a rugged vinyl pouch keeps the tools protected.

ACC-0SS58-40-67

T-Handle Allen Set

Allen T-handle set comes with 2.5, 3, 4, 5, and 6mm sizes. Also comes with a vinyl carrying pouch.

ABA-THNDL-AL-ST

Jet Cleaning Tool

These precisely machined rods are sized to allow you to clean out carburetor jets without causing damage. A very handy tool for regular carburetor maintenance.

MTS-TLSKT-04-03

Oil Filter Wrench

This stamped steel, chrome plated filter wrench makes removing oil filters a breeze. Simply place the wrench over the end of the filter and turn it using either a 3/8" ratchet or 17mm wrench. Two sizes will cover all of your Yamaha spin-on style filters. For 3FV and 5GH Yamaha Oil Filters.

YDIS Smart

The YDIS Smart adapter uses Bluetooth® technology to establish wireless communication between compatible Yamaha outboards and your smartphone, via the K-Line on the engine. The new mobile application provides quick access to essential menus necessary for accurate troubleshooting. The YDIS Smart application is available on the App Store for Apple® iOS and Google Play™ for Android® operating systems. A previously purchased YDIS 2.2 PC version installation key is required to install the app.

Spray Polish

This quick detailer will restore a lustrous shine to paint, chrome, glass and smooth plastics like visors, windshields, and gauges. Gives textured plastics, rubber and vinyl a beautiful satin finish. Anti-static properties repel dust and dirt to keep that shine.

14 oz. Can (Qty. 12*) **ACC-SPRAY-PL-SH**

Yamaclean® Pro-Wash Spray

Yamaclean® Pro-Wash Spray is a biodegradable vehicle spray wash that removes grime and soil. Rinses clean and helps keep your boat looking new.

32 oz. Bottle (Qty. 12*) **ACC-YAMAC-PW-SP**

Yamaclean® Vinyl Dressing

This one-step formula restores and protects vinyl, rubber, plastics and leather. When dry, it leaves a transparent and water repellent gloss coating that isn't slippery. Its UV protection also helps to prevent drying and cracking.

32 oz. Bottle (Qty. 12*) **ACC-YAMAC-VN-DR**

Yamaclean® Pro-Wash Spray Concentrate

Special concentrated formula for use in pressure washer soap tanks. A biodegradable vehicle wash that removes grime and soil. Rinses clean and helps keep your vehicle looking new. Safe for use on most surfaces when used as directed.

1 Gallon Bottle (Qty. 4*) **ACC-YAMAC-PW-GL**

Yamacoat™

A high-quality plastic coating. Helps maintain the color and surface finish of plastic for that "factory" look. Use an even spray on components to be treated. Once spray is applied, wipe off with a clean, dry cloth. Can also be left wet to help inhibit adhesion of mud and dirt to make cleanup easier.

10 oz. Can (Qty. 12*) **ACC-YAMAC-OA-TC**

* Ordered individually with a minimum order quantity

Yamalube GLARE® Professional Polish
Ultra-high gloss, penetrating sealant with Glassplexin®. Protects your vehicle's finish and reduces damage caused by road tar, road salt, salt air, eggs, bugs, bird droppings, tree sap, glue, ink, spray paint, acid rain, fall out, detergents, abrasions, and more. Blocks harmful UV sun rays (UVA/UVB). For use on paint, chrome, carbon fiber, plastic, glass, fiberglass, aluminum, stainless steel, mirrors, and Plexiglas®.

ACC-YAMAG-LA-RE

GLARE® Blast™ Spray Polish
GLARE® Blast™ Spray Polish is the all-encompassing spray detailer polish you have been looking for. Contains Camo-Adaptive Glassplexin™ that makes gloss surfaces pop with brilliance and flat or matte surfaces look brand new without unwanted shine. For use on gloss paint, flat paint, chrome, carbon fiber, plastic, glass, fiberglass, metals of all types, plastic, rubber, leather, vinyl, and Plexiglas®

12 oz. Bottle (Qty. 6*) **ACC-YAMAB-LA-ST**

Tire Repair and Supplies

TirePro™ Dial Tire Gauge by CruzTOOLS®
The TirePro™ gauge has a 12" flexible hose that makes even hard-to-get-to valves less of a task. Readings are held until released, and a built-in valve lets you bleed air to the desired pressure. The dial is protected by a rubber boot and readings are in both psi and kPa.

ACC-OSS58-40-69

Low Pressure Tire Gauge
The Low Pressure Tire Gauge indicates air pressure up to 15 psi in 1/4 lb. increments with range to 15 psi. The tire gauge features includes swivel angel chuck and sturdy construction.

Tire Mount Lube

Specially formulated lubricant that allows you to change tires on the rim quickly with less chance of damage. Use on any rim-mounted tire to provide a lubricated surface that eases tire installation while helping to protect the tire bead from damage. Preventing damage to the tire bead improves its sealing ability.

16 oz. Can (Qty. 12*) **ACC-TIREM-TL-UB**

Tubeless Tire Repair Kit

Includes plugs, tools, four CO2 air-pumping cartridges and a storage case.

ABB-ATVTR-RP-KT

Locks and Security

McGard® Wheel Locks

McGard®'s easy to use, one-piece wheel lock functions like a regular lug nut, but requires a special key tool for installation and removal. Its design allows for an unlimited number of different computer generated lock and key patterns. This unique wheel lock system is continually being refined and improved upon. McGard® Locks are made right here in the United States to meet or exceed O.E.M. standards for safety and durability

Trailer Repair Supplies

Brake Fluid

This high-quality hydraulic brake fluid meets DOT 4 specifications and is the only brake fluid currently recommended for use in Yamaha products.

8 oz. Bottle

(Qty. 12*) **ACC-BRAKE-FL-UD**

3300 Lb. Hand Winch Strap

Marine winch strap with forged snap closure hook . Sewn loop for bolt placement in winching system. Strong 2"-wide black polyester webbing.

2" x 25' **SBT-BOWST-RP-11**

Spare Tire Carrier

Zinc plated. Clamps to the trailer frame with no drilling. Uses same size lug nuts as stock trailer lug nuts. All necessary mounting hardware included. Fits all standard boat trailers.

SBT-SPARE-TC-08

** Ordered individually with a minimum order quantity*

Tie Downs and Straps

Yamaha Deluxe 2-Foot Transom Ties

Quality transom tie downs with an attractive price. Similar to what is supplied from the factory on Yamaha boats, these transom ties are made of 2" wide, weather-resistant polypropylene webbing with heavy-gauge, zinc-plated hardware and rubber coated "J" hooks to protect the transom of your boat. Oversized handle makes for easy locking and unlocking. Sewn-on hook-and-loop fasteners help secure the loose end of the strapping. Excellent for securing your Boat to the trailer at an affordable price. Sold in pairs.

SBT-TRNSM-TD-08

Yamaha Cam Buckle Tie Downs

1" x 6' tie downs with 1" cam lock buckle. Straps are rated for 400 lb. working and 1200 lb. break strength. (Sold in pairs.)

Black **ACC-0SS58-40-27**

Blue **ACC-0SS58-40-28**

Yamaha Ratcheting Tie Downs

1" x 6' tie downs with 1" rubber handle ratchet. Straps are rated for 400 lb. working and 1200 lb. break strength. (Sold in pairs.)

Black **ACC-0SS58-40-29**

Blue **ACC-0SS58-40-30**

Heavy-Duty Re-Tractable Ratcheting Tie Downs

1"-wide tie down is rated at 1500 lb. with a WLL (Work Load Limit) of 500 lb. and the 2"-wide model is rated at 4000 lb. with a WLL of 1333 lb. (Sold in pairs.)

Anchors

Boat Sand Stake Kit

If you would like to anchor your Yamaha boat on a sandy beach, simply screw the stake into the sand, remove the handle, and attach the 25 feet of heavy-duty rope. A storage bag is also provided.

MAR-SANDS-TK-KT

Yamaha Heavy-Duty Boat Anchor Kit

This anchor kit is specifically designed with the larger boats in mind. This kit includes an 11-lb., vinyl-coated anchor and chain which helps prevent corrosion as well as scratched hulls. A 100-foot rope with a snap hook is included along with a convenient storage bag.

MAR-ANCHR-KT-00

Complete Folding Grapnel Anchor Kit

This complete anchor system is in a class by itself. The 3-1/3 pound 4-fluke folding anchor will hold in mud, sand, gravel, and rock. It's designed for temporary mooring of small boats, sailboats, personal watercraft, inflatable boats, canoes, and float tubes. The anchor is coated to protect finishes. The durable nylon storage case is padded for added protection and to dampen noise while the anchor is stowed. Fits under most boat seats. The 25 ft. long marine-grade rope, with an in-line buoy, is spliced to the anchor and a heavy-duty stainless steel snap hook.

VDF-A7452-63-17

Mushroom Anchor

This 8-lb. mushroom anchor comes with 15 feet of nylon rope, a high visibility plastic float, and a plastic clip. This setup is perfect for anchoring in shallow water.

MAR-ANCHR-MR-08

PWC Anchor

This anchor is designed for those needing an anchor without the hassles of carrying large heavy ones. This anchor attaches easily and is designed to be hand set. Includes 15 feet of heavy-duty line. Stores in its own handy bag.

MWV-ANCHR-WR-00

Beach Stake

The beach stake is a perfect way to keep your PWC tied to the shore. Screw the stake into the ground, and you have 15 feet of line to tether your PWC. It is easy to store and take along.

MWV-BEACH-AN-CR

PWC Sand Stake Kit

If you would like to anchor your PWC on a sandy beach, this is the easiest and most convenient way. Simply screw the stake into the sand, remove the handle, and attach the 15 feet of heavy-duty line. A storage bag is also provided.

MWV-SANDS-TK-KT

Boat Anchor Kit

This Yamaha Boat Anchor designed specifically to fit the anchor storage of your boat. Kit includes a galvanized 10-Danforth® style anchor a 6-foot chain shackled 100 feet of standard nylon rope that's sinkable for convenient setting.

Soft-Style Anchor

Popular, easy-to-use anchor bag system. Simply fill the anchor bag with heavy objects such as rocks or sand and close with the plastic, noncorrosive zipper. Includes a 10 foot polypropylene rope and a sturdy float and snap. Easy to store when not in use.

MWV-ANCHR-BG-00

Tri-Fluke Anchor

The tri-fluke design of this river anchor allows the flukes to penetrate the river bottom in soft and moderate conditions, to engage rocks and structure in rivers and current. The river anchor is a great all-purpose anchor for lighter craft, or a great second anchor. Weight: 20lb

Black **SBT-520BK-20-12**

Red **SBT-520RD-20-12**

Blue **SBT-520BL-20-12**

Richter™ Self Releasing Anchor

Performance in rocks, mud, weeds, and sand is superior to traditional anchors and requires less anchor line. Weight: 18lb

SBT-618B2-18-12

Fenders

Yamaha 24-Inch Boat Contour Fender

These contour fenders stay put and stow conveniently under boat seats. They hinge to wrap around the gunwale and hull, following the contours of the boat. Constructed of a durable marine grade tri-laminate cover, with closed cell foam inside. There's a tough polycarbonate grommet at each end for hanging from cleats. (Sold Individually. 24" long x 6" wide x 2-1/2" thick)

Blue **MAR-HHFND-ER-BL**
 Black **MAR-HHFND-ER-BK**

No-Slip™ Fender Straps

No more tying and untying knots! Attach boat fenders to rails and cleats quickly and securely with these fender straps. The No-Slip™ pads sewn to the underside of the straps minimize sliding along rails. Easily adjust the length in seconds from 6 inches to 40 inches to fit most boats and docking situations.

(Set of 2.) **MAR-FNDRS-TR-AP**

Suction Cup Fender Straps

Great for Boats and Personal Watercraft. Attach your boat fenders exactly where you need the protection. Giant 3-1/4" suction cups attach to gelcoat or windshields quickly and easily. Perfect for most boats and personal watercraft where cleats never seem to be where you need them. Durable 1" wide straps adjust up to 24" long. Fenders not included.

(Set of 2.) **SBT-SF1C0-00-10**

Greenfield Stretch N' Slide® Multi-Loop Versatile Dock Line

Without question, Stretch N' Slide® is the world's most versatile and easy to use dock line. Innovative multi-loop bungee allows a perfect fit for any span to 7'. Simply place the end loop over a cleat, then stretch and tighten down the slider, and, finally, select the appropriate loop to place over the second cleat. Stretch N' Slide® makes docking quick and easy for any craft from PWC to large boats. Stretch N' Slide® is also the ultimate solution for rafting boats together for a party chain. Shock-absorbing bungee allows an entire chain of boats to move and flex together with ease. Temporary docking only.

SBT-SNSLN-00-12

Airhead® Bungee Dock Lines

AIRHEAD® Bungee Dock Lines absorb shock to boats, cleats, docks, pylons and other hardware. The bungee cord is hidden inside the rope and acts as a built in snubber. Two foam floats help protect the boat from chafing. There's a sliding adjustment at both ends for quick docking. Recommended for docking boats up to 4000 pounds. Tensile strength is 2150 pounds. Black/Blue/Red color scheme. (Sold Individually.)

MAR-FENDR-LN-BL

3~4 Rider Tube Tow Rope

This 4-rider tube tow rope has 2 sections, giving you the option to tow either 50 or 60 feet behind the boat depending on wake and water conditions. The pre-stretched UV-resistant 5/8" diameter 16-strand rope exceeds the 4150 pound break strength required by the WSIA for 4-rider tubes. A 6" foam float is provided for extra buoyancy. A rope keeper is included for convenient storage.

SBT-TUBER-P0-07

Airhead® 75 Ft. 1-Section Ski Rope

A high quality 1 section ski rope for skiing, wakeboarding and kneeboarding. The 12" aluminum core handle has a performance "Tractor" grip and molded finger protectors. You'll love the blue and white candy stripe color scheme of the UV treated 16-strand rope. A rope keeper is included for tangle-free storage.

VDF-AHSR7-50-17

Airhead® Kwik-Connect™ Tow Rope Connector

Conveniently attach and detach tube tow ropes to towables with Airhead's® Kwik-Connect™. There's no need to thread 60 feet of rope through the tow strap each time you connect or disconnect a tow rope. The high-impact Kwik-Connect™ has a 1-inch diameter hole to accept up to 6000 lb. break strength tube ropes. Recommended for 1- to 4-rider towables that are not equipped with Kwik-Connect™.

VDF-AHKC1-00-17

Emergency Tow Line

Tow line consists of a 15-foot long tow line with a nylon quick connect at each end that allows fast, easy hook-ups. For slow-speed emergency towing only.

MWV-TOWLI-NE-15

Yamaha Rope Float

This rope float can be used to create a custom rope to suit your own personal needs.

(Sold individually.) **MAR-ROPEF-LO-AT**

Ski Rope Floats

Developed to help keep ski ropes away from the propeller on your boat or to help prevent them from being ingested by the pump. Run your ski rope through the middle of the nylon-covered, closed-cell foam tube before attaching to the tow eye. Yamaha logo silk-screened on one side.

Airhead® Wakeboard Rope

This wakeboard rope has a head-turning 15" squid patterned EVA-wrapped grip with a floating aluminum core. The 5/16", 16-strand, UV treated low stretch buoyant rope has three sections for wakeboarding at 45', 55', or 65' (45', 10', 10'). Full length finger guards help create a comfortable split finger grip. A rope keeper is included for tangle-free storage.

VDF-30010-AH-17

1~2 Rider Tube Tow Rope

This tube tow rope has two sections, giving you the option to be either 50 or 60 feet behind the boat depending on wake and water conditions. The prestretched, UV-resistant 7/16" diameter 16-strand rope exceeds the 2375 lb. break strength required by the WSIA for 2-rider tubes. A rope keeper is included for convenient storage.

Blue **MAR-TUBER-OP-06**

Red **SBT-TUBER-OP-10**

Airhead® 2 Rider 2-Section Tube Rope

This tube tow rope has 2 sections, giving the option to tow the tube either 50 or 60 feet behind the boat depending on wake and water conditions. The prestretched UV-resistant 7/16 inch diameter 16-strand rope exceeds the 2375 pound break strength required by the WSIA for 2-rider tubes. A rope keeper is included for convenient storage.

VDF-AHTR2-20-17

Airhead® Deluxe 4- Rider Tube Tow Rope

This heavy-duty 16-strand 9/16 inch x 60 foot tube tow rope is rated at 4150 pounds tensile strength! Engineered to pull the big 3 and 4-rider tubes, this rope will stand the test of time. It has a unique Rasta color scheme with a 6-inch loop spliced at each end. A rope keeper is included for tangle free storage.

VDF-AHTR4-00-17

Centering Tow Harness

This 3000-pound-tensile-strength tow harness is perfect for pulling skiers and wakeboarders, as well as 1- or 2-rider towables. A stainless steel pulley glides along the length of the rope to provide the optimum pull at all times. Simply clip it onto your boat with the 5000-pound-tensile-strength hooks provided, and attach your ski or tube rope to the heavy duty Kwik-Connect™. The 6" float keeps the Kwik-Connect™ floating. It's 12' long to fit pontoon and larger boats.

VDF-AHTR3-00-17

Airhead® Tow Demon™

Airhead's® Tow Demons™ are new higher strength versions of a classic and very popular water sports tow harness. The high impact molded plastic float/ pulley system allows for easy attachment of ski ropes, wakeboard ropes and tube ropes. Connect Tow Demon™ quickly and easily to boats with the 2 large corrosion-resistant snap hooks. Available in vinyl jacketed steel cable and floating rope versions. Recommended for recreational water skiing, wakeboarding, kneeboarding, and towing 1 rider tubes.

Stand-Up Paddleboards & Kayaks

SUP (Stand Up Paddleboard) Carbon Composite Paddle

The SUP Carbon Composite Paddle is the perfect companion to any paddleboards. Length adjusts from 160 to 210 cm. Stiff, lightweight carbon fiber composite shaft. Fiberglass-reinforced polymer “duck foot” blade.

VDF-AHSUP-P4-17

SUP Fiberglass Paddle

The SUP Fiberglass Paddle is a perfect companion to the Napali stand-up paddleboard. Easily adjustable from 160 to 210 cm. Weighs less than 2 lbs. 3 oz. 100% fiberglass shaft.

VDF-AHSUP-P1-17

2-in-1 Airhead SUP® / Kayak Paddle

AIRHEAD® 2 in 1 SUP/Kayak Paddle gives you the best of both worlds with its 2 in 1 design. This 3-section SUP / KAYAK paddle is an amazing dual performance paddle for your AIRHEAD® NaPali or other stand up paddleboard. Explore uncharted waters with the SUP Handle or connect the included Kayak Paddle section for a seated kayak style ride. The SUP handle length can easily be adjusted from 165 cm to 185 cm and the Kayak Paddle adjusts from 208 cm to 228 cm. The aluminum shafts and High Impact Plastic Blades are specifically designed for both SUP's and kayaks.

VDF-AHSUP-P3-17

Heavy-Duty Airhead SUP® Board Leash

The Heavy-Duty SUP Board Leash is lightweight and keeps you connected to your paddleboard while staying out of your way when paddling. Extends to 11'. Recommended for surf and lake use only.

VDF-AHSUP-A7-17

Scrunchy Airhead SUP® Board Leash

The Scrunchy SUP Board Leash features a lightweight accordion-style that keeps you connected to your paddleboard while staying out of your way when paddling. Stretches to 11'. Comfortable neoprene-lined ankle cuff.

VDF-AHSUP-A8-17

Airhead SUP® Paddle Rod Leash

The SUP Paddle Rod Leash is perfect for staying connected to your paddle or fishing rod when on your SUP. This dual-purpose leash stretches from 24'–60'. Swivel hooks and comfortable collars for a lot of attachment options.

Airhead® Ocho Rios 1030 iSUP

A terrific value, Ocho Rios is a high pressure inflatable paddleboard that's lightweight and fast. It feels very similar to a hard board (can be inflated to 15 psi) and supports paddlers up to 220 lbs. Large EVA traction pad. Stainless tow ring and leash ring. 1 detachable tracking fin. High grade materials and workmanship for years of enjoyment. Includes Carry Bag, Pump, Gauge and Repair Kit. Dimensions: 10' 6" x 30" x 4" (320 x 76 x 10 cm) / 25 lbs. (11.4 kg). A great all around paddleboard.

VDF-55103-00-17

SS SUP 10.5' by Airhead®

SS stands for "Super Stable" and that's what these paddleboards are! They have integrated sponsons nearly the full length of the board that function like outriggers. Beginners, larger paddlers and fishermen love SS's unparalleled dry ride and stability. 3 Fins (2 x 4 in. fixed, 1 x 9" removable), 5 stainless D-Rings, Stretch Tie Down, Thick EVA Traction Pad, Hi Pressure Valve, Board size 10'8" x 38" x 4" (deck) / 6" (sponson), Board weight: 34 lbs., for Paddlers 120-300 lbs. Includes Mesh Backpack, Stainless Steel Tow Ring, High Pressure Hand Pump, Pressure Gauge, Valve Wrench, Board Strap & Repair Kit.

VDF-AHSUP-20-17

Travel Kayaks by Airhead®

Inflatable kayaks are perfect for camping, vacationing, exploring remote areas, and for cruising yachts. They're also great for paddling enthusiasts that don't want to drive around with a kayak on their rooftop! Airhead Travel Kayaks fit easily into the trunk of your car, duffel bag or suitcase. When you feel the itch to paddle the boat is with you!

One Person / Paddler **VDF-AHTK1-31-17**
 Two Person / Paddler **VDF-AHTK2-48-17**

Inflatable Boat by Airhead®

Airhead's inflatable boats are designed for fishing or good old fashioned family fun. They're lightweight, portable and ideal for lakes and slow moving streams. Constructed of heavy duty vinyl with electronically welded seams. Factory tested for quality assurance. Equipped with an Inflatable floor, wrap around tow rope, oar locks and oar holders. Repair kit included.

One Person **VDF-AHIB1-47-17**
 Two Person **VDF-AHIB2-54-17**
 Four Person **VDF-AHIB4-61-17**

Oars by Airhead®

These inexpensive oars are designed for use with AIRHEAD® and other inflatable boats. The 2 section aluminum shafts are durable and lightweight. The 15 in. high impact plastic blades and grips are designed for maximum rowing efficiency and comfort. Length: 53 in., 1 pair per package.

Tubes

Yamaha Single Sport Tube

You are sure to love the eye-catching graphics on this 54" round towable. The four neoprene knuckle guards and deluxe nylon covered handles provide a sure and comfortable grip. Self-draining floor vent. Features a reinforced internal tow harness, and Boston valve for quick inflation/deflation.

SBT-YHBL1-BL-18

Yamaha Inflatable Single Rider Tube Kit

Just about everything you'll need for an enjoyable day on the water - in a box! Box includes a 54" diameter deck tube with four deluxe handles and neoprene knuckle guards, and equipped with a Boston valve for your inflating and deflating convenience. Includes a portable 12-volt pump that will inflate quickly and effectively. Also includes a color-matched 16-strand tube tow rope. Features a reinforced tow harness, drain vents, and boarding straps.

SBT-YCR58-BL-18

Yamaha 2-Rider Winged Deck Tube

Get way up on edge with this U-shaped winged towable when riders shift their weight. Thicker at the front to prevent submarining and thin at the back to make it easier to climb on from the water. Deluxe handles with neoprene knuckle guards to provide a sure and comfortable grip. Two oversized neoprene pads are strategically located to protect knees and elbows. Durable 30 gauge reinforced welded PVC bladder completely wrapped in double-stitched 840 denier nylon, Heavy-duty Kwik-Connect™ provides easy and secure tow-rope hook-ups. Boston valve makes it easy and fast to deflate and inflate. Measures 73" x 61" deflated. 340 lb. weight limit.

SBT-YHMX2-00-17

Yamaha 3-Rider Deck Tube

This high performance deck tube features: Six deluxe nylon-wrapped handles, Neoprene knuckle guards provide a sure and comfortable grip. Heavy-duty Kwik-Connect™ for easy and secure hook-ups. 30-gauge virgin PVC bladder is fully covered with an 840D double-stitched nylon cover. Boston valve provides the ultimate in inflation and deflation convenience. Designed for up to 3 riders up to a total weight of 340 pounds. Measures deflated: 78" x 75".

SBT-YHGF3-00-17

Boards, Skis and Loungers

Airhead® Combo Water Ski

Perfect for skiers who need a stable ride and want to advance their skills, AIRHEAD's® combo water skis are a great value for the recreational water skiing family. These 67" rim molded combo water skis are designed to accommodate many different skill levels. The tunnel shaped bottom, wide tails and mild rocker provide easier starts, smooth turns, and better stability. The durable composite construction and fiber glass reinforced nylon fins ensure years of service. Dual density slide-type adjustable bindings fit adult sizes 5-12.

VDF-AHS13-00-17

Monsta Splash Widebody Trainers

47" wood trainers for beginners under 100 lb. Double-handle rope assembly, removable crossbar, and tail ties make it easy to start and control. Fiberglass reinforced nylon rudders increase stability and tracking. Adjustable bindings fit children size 12 to adult size 5.

VDF-AHST1-10-17

Wake Shaker Knee board by Airhead®

Newly designed channeled bottom, Reduces water tension for a light, responsive feel. Intergrated EZ UP hook provides effortless starts and easy access to the rope handle. Great for all riding levels.

VDF-AHKB3-00-17

Yamaha Rock 'n' Tow Tube

This is a tube and recliner in one! The double webbing foam handles are perfectly located for you to sit back, relax, and enjoy the ride. Little ones will enjoy the comfortable backrests and smooth ride. Made from rugged, double-stitched nylon cover and heavy-gauge PVC bladder. Features a patented speed safety valve for the ultimate in inflating and deflating convenience.

Inflatable Pumps and Valves

12-Volt Air Pump

This high-volume (290 liters/minute) 12-volt portable air pump inflates and deflates towables, boats, pools, mattresses, and beach toys quickly and effectively. Most pumps on the market don't put out this kind of air pressure and volume (9.6 cu. f.t./min. 0.8 psi). The universal valve fittings fit all popular valves. For added convenience, the cigarette lighter/12-volt power port plug is equipped with a 10' long power cord.

MAR-12VPU-MP-06

Airhead® 120 Volt Hi-Pressure Air Pump

A Pressure Release Valve is included to limit pressure to 1.4 psi for preventing over-inflating towables, pool toys and other vinyl and nylon covered inflatable items. Four universal valve fittings fit all popular valves and lock onto the hose. For added convenience, there's a carry handle and a 10' long power cord. Draws 6.1 amps /730 watts. Volume is 460 liters/minute.

VDF-AHP12-0H-17

Air Pig 12V Pump by Airhead®

This pump is called AIRHEAD AIR PIG to extol its high volume, high pressure capabilities. The quiet motor puts out 1.2psi, plenty of pressure for most inflatables, including towables, boats, lounges and pool toys. Equipped with a 10' power cord with alligator clips and a 24" reinforced hose that locks onto the pump. Four adapters for the most popular air valves are included. Draws 22 amps / 260 watts.

VDF-AHP12-AP-17

Airhead® Double Action Pump

Perfect For “Topping off” towables. This double action pump inflates and deflates towables, kayaks, boats, airbeds, and other inflatables. It delivers a continuous stream of air on both the up and down strokes. Simply turn the release valve counterclockwise and you’re pumping air only on the downstroke. This is a great option when your inflatable is almost full and there’s back pressure. Four universal valve fittings are included to fit Boston valves and stem valves. The accordion-style hose stretches to 5' long and interlocks to the pump, so that it doesn’t fall off while you’re pumping. Volume is 2 liters/stroke. Very effective for “topping off” large towables in the boat, since peak pressure is an impressive 14 psi.

VDF-AHP10-00-17

Airhead® Multi -Valve

Inflate with Speed & Flexibility AIRHEAD® MULTI-VALVE consists of two Boston valves with different thread patterns on the bottom and a Schrader® valve with cap. One of the Boston valves is sure to fit the thread pattern of your inflatable, no matter what brand. The Boston valves have a square base, which is much easier to turn than a round base, especially with wet hands. Use the Schrader® valve to inflate your inflatables at a gas station or with an air compressor. Alternatively, screw off the Schrader® valve and inflate the Boston valve with an AIRHEAD® air pump. All components are bright red and green, so they’re easy to find.

White **SBT-REV8W-HT-11**

Battery Chargers and Battery Switches

OptiMate® 4 Battery Charger

A truly diagnostic 0.8 amp battery optimizer for 12V lead-acid batteries (sealed maintenance-free, gel, or filler caps). Like OptiMate® models, the microprocessor-controlled OptiMate® 4 can save neglected batteries and is even more effective with its new dual-stage "Recovery" and "Turbo Recovery" desulfating action. Sealed waterproof enclosure is ideal for snowmobiles and watercraft and also has special cables and bushings for ultra-cold temperatures down to -40° F. New shape includes wall mounts, and now shows current display, hourly testing plus 24/7 maintenance. Recommended for all 12V lead-acid batteries up to 75Ah.

DBY-ACC51-70-15

Replacement Fused Eyelet Connection Set Weatherproof, permanent connector (with 15A fuse). Hook up your battery quickly and easily when not in use. For use with OptiMate® 4 and OptiMate® 3+ battery chargers. Adapter (ACC-OPTIM-3P-AD) required for use on older OptiMate® III model.

DBY-ACC56-23-81

Battery Tender® Water Proof 800

This compact battery charger has all the charge characteristics of its cousin, the Battery Tender® Junior. It incorporates highly efficient surface mount technology electronic components. The interior is completely encapsulated, protected from shock, vibration, and moisture by an electrically insulating, thermally conductive, flame retardant, synthetic epoxy resin compound. It's tough, affordable, and a strong, innovative battery charging solution. This charger is no larger than a standard computer mouse yet packs 800 milliamps of pure constant current charging power. Coupled with a brain (IC chip), the charger will constantly monitor, charge, and then maintain your battery even while totally submersed underwater! Perfect for all outdoor types of watercraft, boats, motorcycles, ATVs, or any where water is a threat. Charges 12V @ 800mA.

SBT-BTWP8-00-11

Battery Tender® Junior

Trickle Charger with a Brain. Features Include: Lightweight/compact size Ideal for hard-to-fit spots Fully automatic 2-stage lead-acid battery charger. Solid-state two-color LED indicates state of charger Spark-proof Reverse-polarity protected 12-foot output cord Quick connect harness

Battery Tender® Plus

Fully charges and maintains battery at proper storage voltage. Temperature compensation. Powder-coated aluminum chassis. Spark proof. Built-in 72-hour timer will protect a marginal battery from overcharging. Charges as fast as a 3-amp charger using only 1.25 amps. Reserve polarity protected. Complete 3-step charging program. Quick-connect harness. Five-year manufacturer's limited warranty.

ACC-CHGBT-TN-12

OptiMate® 1 Battery Charger

Never have another dead battery! The OptiMate® 1 Charger can be left plugged into any vehicle's 12-volt battery all season long. Charges all battery types. Comes standard with clip type lead and weatherproof permanent adaptor for quick and easy connect/disconnect. LED's for power on, charging, and charged battery states. 2 year limited warranty from the manufacture.

SAE-71 Connector Quick-Disconnect Lead **DBY-ACC56-23-81**

Solar Panel With Built -In Controller

5-watt solar panel with built-in Battery Tender® super smart charging controller. 100% portable battery charging and maintenance. Perfect for storage space without power access! Battery Tender® solar panels are the only panels available with a built-in charge controller to prevent overcharging. 12V Nominal Voltage 270 mAmps. Temperature compensation sensor. Spark-proof. 3 lb. 13.25" x 16" x 0.875"

5 Watt: **SBT-BTSOL-AR-11**

Marine Dual Battery Kit

This kit is a must-have when adding additional electronics to your boat (stereo upgrades, bars, etc.). This kit comes complete with a BEP Marine Battery 701S™ Battery Switch, a BEP Marine Voltage Sensitive Relay (VSR), and a GIL Marine Composite Battery Box plus all necessary wiring and hardware. This kit will allow you to keep one battery isolated at all times for reserve purposes. The VSR will allow the engines to charge battery #1 until it is topped off at 13.7 VDC, then automatically switch over to battery #2 to charge it. Turn the knob on the battery switch to select using battery #1 by itself, battery #2 by itself, or both batteries together in parallel. You can also switch off battery current altogether. Professional installation recommended. Marine batteries not included. Fits any single battery boat with room for another 24 battery.

SBT-DUALB-AT-08

Magma® Grills and Accessories

Magma® Newport™ Gourmet Gas Grill

Just right for grilling up to eight large hamburgers. The Newport™ is a finely crafted piece of hardware. Now with fold-away legs making this the go-any -where grill to enhance all of your out door activities. Its beauty, performance, and safety features will certainly exceed the expectations of the most discriminating grill enthusiast. It grills quickly , evenly, and disassembles easily for cleaning. Uses inexpensive, disposable 1-lb. propane cylinders or adapts to on-board LPG (propane) or CNG (natural gas) systems. (Serving shelf and fuel canister shown in picture not included.)

SBT-NEWPO-RT-11

Padded Grill & Accessory Carrying/Storage Case

Conveniently store and transport your grill and accessories in one of Magma's® new padded carrying cases. Designed to store all of your grilling gear in one space-saving location. This bag is outfitted with a large storage compartment for a grill, pockets for storing a serving shelf, griddle, and fish/veggie tray. Includes an additional side pocket for storing up to two 1-lb. propane canisters and two control valve/ regulators. Additional features like thick padding for maximum protection and heavy-duty carrying handles and strap make this a must-have for every grilling enthusiast. With the same quality and craftsmanship you've come to expect, once again Magma® has just what you've been looking for.

SBT-GRILL-BG-11

Magma® 5-Piece Professional Grill Tool Set

This 5-piece set from Magma® includes four telescoping professional quality grilling tools and a carrying case. Made of mirror-polished, marine-grade 18-9 stainless steel with rubberized, soft-touch handles for easy, secure grip. Tools adjust to three different operating lengths to meet any griller's needs and they completely collapse for compact storage in their own quality storage case. Optional high-intensity LED lights are also available that quickly attach to any of the tools and provide bright light to any food being grilled.

Coolers

Yamaha Inflatable Floating Cooler

The Yamaha Inflatable Floating Cooler is an insulated leak-proof nylon cooler that is removable from the inflatable base by simply lifting on the adjustable shoulder strap. It keeps 12 cans or bottles and ice cold for hours. The 6 drink holders in the floating base are marked with numbers to help you and your friends keep track of your drinks. A molded plastic rope connector is sewn to the durable nylon cover for tying up to your WaveRunner®, boat, dock, etc.

MAR-FLTCL-ER-06

Yamaha Soft Side Cooler

This cooler is ideal for keeping your beverages and snacks cool. Features include zippered storage compartment easily holds 24 cans plus ice, waterproof liner and high-density insulation keeps ice longer and contents cooler. Unique adjustable securing panel helps hold contents in place while in motion. Includes a shoulder strap and a Yamaha logo bottle opener. Approximate dimensions: 18" L x 7" W x 12" D.

Boat St

Yamaha Boat Starter Kit

Here's a convenient way to get started with supplies you need for your Yamaha Boat. Kit provides four U.S. Coast Guard Approved/UL Listed PFDs that are adjustable to fit most adults (sizes small to large), plus an approved Type IV throwable flotation device, and a generously sized nylon case to store them in when you aren't boating. Kit also includes a 3.5-oz. air horn and an easy-to-pack first aid kit. For your docking needs, the kit has two black Yamaha 24" Boat Contour Fenders, two No-Slip Fender Straps (shown attached to cleats, not included), and four white 15-foot dock lines. Accented with the Yamaha logo.

General Boating Accessories and Upgrades

Yamaha Kidney Shape Table

Want to upgrade your stock table to a larger size? This big table offers more functionality, with a kidney shape so it is easy to maneuver around it, yet it still fits in the stock storage location on your Yamaha Boat. It also has three cup holders instead of two as on the stock table. Designed as a direct replacement, this table is made of the same acrylic capped ABS material as the stock table, and uses the same hardware. Requires transfer of the pedestal base from the stock table.

Life Line™ Boat Safety Kit

This boat safety kit contains 4 items. Recommended for all boats. Contents: 15 meter (50 ft.) buoyant heaving line, bailer (watertight container), sound signaling device (pea-less whistle), and watertight flashlight.

VDF-LL200-00-17

Waterproof First Aid Kit

You'll always know where to find your first aid kit, and the contents will be clean and dry. Easily mounts to boats, or almost anywhere with self adhesive hook and loop. The heavy-duty nylon bag is specially coated and has a waterproof zip closure to ensure that your first aid supplies stay dry. (Contents may vary slightly)

VDF-FRSTA-ID-17

Telescoping Paddles

This lightweight paddle adjusts easily to variable lengths with a simple twist. A section of the aluminum shaft disappears inside the blade to allow for ultra-compact storage under boat seats. The corrosion resistant aluminum shaft, hassle free locking device and high-impact molded blade and boat hook handle provide years of service.

Yamaha Branded Blue Paddle (20"~45") **MAR-DLXPA-DL-42**

Bright Orange Paddle (20"~45") **VDF-P1PDL-00-17**

Bright Orange Paddle (25.5"~72") **VDF-P3PDL-00-17**

Yamaha Type IV Throwable Flotation Device

U.S. Coast Guard regulations require your Yamaha Boat to have a Type-IV throwable flotation device aboard. This USCG-approved cushion is constructed of high-buoyancy polyethylene foam with durable nylon fabric.

Combination Tool Backpack and Trolley by Beta Tools

The Model #C6T is a combination tool backpack and trolley by Beta Tools designed with maximum mobility in mind. Telescopic handle for easy transport. Built-in castors with dustproof cover for use as rucksack. Two removable tool panels. Five functional exterior pockets.

VDF-60010-BE-00

Yamaha Duffle Bag by OGIO®

This bag features a large main compartment with one front zippered pocket and a mesh pocket. There is also a molded tech vault gadget protection pocket. Also features side zippered shoe storage with mesh ventilation and adjustable, removable padded shoulder strap.

GCR-17DUF-YA-BK

Yamaha Drawstring Bag

This Yamaha Drawstring Bag is a simple solution to carrying odds and ends. Made of 150D ripstop nylon, it features a large main compartment with deluxe drawstring cords and closure, and a two-toned zippered front pocket with access to custom ear bud port. Yamaha logo on the outside.

VDF-60010-BE-00

Dry Pak® Waterproof Duffels

Keep water out of this waterproof roll-top Dry Pak® duffel by simply rolling down the top a few times and snapping the side release buckles together. Unroll and open the duffel to enjoy the huge tapered access opening on top. Features a convenient water-resistant zippered pocket with storm flap on each side (one clear and one opaque), heavy-duty vinyl/polyester laminate material with electronically welded seams, a molded bottom that adds structure and protection to contents and an adjustable and removable shoulder strap. The high end plastic hardware ensures longevity. Great for boating, paddle sports, camping and scent-proof storage for hunting.

Wrap It Up™ Rope Wraps
VDF-AR123-00-17 (3 pack)

Wrap It Up™ Rope Wraps
VDF-AR123-BK-17 (3 pack)

When managing utility cords becomes overbearing, the Wrap It Up™ Rope Wraps is a great solution. There are many uses for these 12 ½ " long hook and loop wraps. Use them at home, in the garage, on the job, camping, boating and fishing, just about anywhere. The hook and loop fasteners are sewn to durable 12" x 1 ½ " webbing and reinforced with a bar tack at each end. A cord is sewn onto WRAP IT UP™ for hanging items from peg hooks.

Waterproof Document Bags
SBT-WPDOC-BG-SM (5" W x 6"L)

Yamaha Seascooter

Seascooter 350Li

Revolutionary underwater navigation with this next generation DPV (Diver Propulsion Vehicle). Runs up to 75 minutes with normal use (30 minutes continuous). Powered by a high performance, replaceable Lithium-ion battery. Weighs in at an extremely low 19 lbs including the battery. With a 3 level rotational speed control you can reach speeds up to 3.7 mph as well as go to depths of 130 ft. The Seascooter is enhanced with an automatic buoyancy system, that operates best in saltwater, as well as a superior flood prevention system.

VDF-350LI-YM-50

Seascooter RDS300

Revolutionary underwater navigation with this next generation DPV (Diver Propulsion Vehicle). Designed with a reinforced nose cone for extra protection. Runs up to 90 minutes with normal use (30 minutes continuous). Powered by a sealed lead acid battery. Weighs in at an extremely low 18 lbs including the battery. With a 2 level rotational speed control you can reach speeds up to 3 mph as well as go to depths of 100 ft. The Seascooter is enhanced with an auto shut-off, thermal switch function, water leakage sensor and the automatic buoyancy system, that operates best in saltwater, as well as a superior flood prevention system.

VDF-DS300-YM-00

Seascooter RDS250

Revolutionary underwater navigation with this next generation DPV (Diver Propulsion Vehicle). Runs up to 120 minutes with normal use (45 minutes continuous). Powered by a sealed lead acid battery. Weighs in at an extremely low 18 lbs including the battery. With a single speed control you can reach speeds up to 2.5 mph as well as go to depths of 100 ft. The Seascooter is enhanced with an automatic buoyancy system, that operates best in saltwater, as well as a superior flood prevention system.

VDF-DS250-YM-50

Seascooter Explorer

Revolutionary underwater navigation with this next generation DPV (Diver Propulsion Vehicle). Runs up to 60 minutes with normal use (20 minutes continuous). Powered by a sealed lead acid battery. Weighs in at an extremely low 11.5 lbs including the battery. With a single speed control you can reach speeds up to 2.5 mph as well as go to depths of 30 ft. The Seascooter is enhanced with an automatic buoyancy system, that operates best in saltwater, as well as a superior flood prevention system.

VDF-DS250-YM-50

Body Glove

Fiji Mask, Snorkel, and Fins Combo Set by Body Glove®

Fiji mask is made of Tempered glass meets all ANSI standards, Silicone facial skirt and strap for a soft and comfortable fit, Quick, adjustable strap — pull to tighten/push to loosen, Pivot buckle adjusts to strap angle for better fit. Excellent choice for smaller/narrower faces. Purge valve in mask to easily remove water. Unique snorkel design has a built-in GoPro® camera mount on the bottom that allows you to quickly and easily mount any GoPro® HERO® model. Dry top keeps water out of snorkel when underwater. Purge valve easily clears water from snorkel. Silicone mouthpiece reduces jaw fatigue, Medium-sized mouthpiece. Flex tube allows snorkel tube to adjust for better fit. Quick-release easily attaches and removes dive mask. Fins Flex system allows the blade to flex for more power. Flow channels make it easier to kick underwater; reducing fatigue. Flexible foot pocket comfortably adjusts to feet Quick-release, easy on and off. Drain hole allows water to flow through foot pocket. Non-slip thread bottom pattern helps prevent slipping. Size: 4.5-8.5 Small/Medium (SD); 9-13 Large/X-Large (LX)

Generator Basics

Yamaha's legendary reliability is at the heart of our generator line up to help ensure they are there when you need them. Selecting which Yamaha Generator will meet your customer's needs can seem overwhelming until you have an understanding of some simple information and techniques.

The Yamaha Generator Model Number

Understanding the different benefits each model offers starts with an understanding of the model number. The image below shows an EF5200DE. The model code shows this is a Four Stroke Engine Generator capable of producing a maximum of 5200 watts in either 120v or 240v AC outputs and it has electric start.

EF = Four Stroke Engine

5200 = Maxium Output in Watts (kVA at 60Hz)

DE

- i** = Inverter Technology
- E** = Electric Starter
- D** = Dual(120V / 240V)AC Output
- B** = Boost Technology
- S** = Soundproof Type
- HC** = High Current
- H** = Hunter (Camouflage)

Inverter Vs. Conventional Generators

Both Inverter and Conventional generators produce the U.S. standard 60Hz A/C power. Yamaha's Premium Generators do a great job powering standard electronics like refrigerators, pumps, electric motors, and countless other items. However, as the use of microprocessors in everyday electronics such as, plasma TV's, computers, smartphones, and other modern devices continue to grow the inverter series becomes more important than ever.

Conventional Generators Sine Wave

Inverter Generators Sine Wave

Conventional generators typically rely on maintaining an engine speed of 3600 RPM to create the required 60Hz sine wave. No matter how smooth an engine runs, the RPM will always move up and down ever so slightly. This normal engine speed variation increases sine wave distortion.

Distortion in the AC sine wave powering micro processor controlled electronics can not only affect the performance of those electronics, but it can even damage them.

The inverter series is able to output a sine wave with a distortion ratio of less than 2.5%, equivalent to household electricity. A requirement of sensitive electronics with microprocessors.

The inverter series, controlled by a 16-bit microcomputer, is a Pulse Width Modulation (PWM) sine wave inverter, which means the generator's output frequency remains unchanged even when the engine speed varies and both the output voltage and the sine wave are very stable.

When fitting out a customer with a new Yamaha Generator, remember the type of power required is just as important as the amount of power required.

Sizing a Generator

When selling a generator, it is important to select one that is capable of meeting the energy requirements of the customer. Match the rated output of the generator to the maximum anticipated power demand. Make a list of the appliances and devices or tools that you expect to operate, as well as the approximate power requirements for each device. Remember microprocessor controlled electronics will need the Inverter Series.

One of the easiest and most accurate ways to size a generator is by using the AmWatt® Hand-held Appliance Load Tester by Reliance (ACC-0SS58-40-44). The AmWatt® plugs in line with the 120V device and can handle up to 1875 watts or 15 A.

After making a list of the electronic devices the customer intends to use with the generator, and ensure the load tester selector switch is in the WATTS position.

Plug the device into the load tester. Then plug the load tester into a house hold outlet and record the WATTS used by the device. Remember, some devices such as an electric motor will require additional energy at start up, as the pictures on the right show. Be sure to record the highest reading during the load test to ensure the generator can meet the requirements.

If the device has a load over 1800 Watts or a load tester is not available, locating the device model identification tag can give an accurate required load for the device. Often times the identification tag will list the voltage and the amps required. When you multiply amps and volts, the result is the load in Watts. For the device in the bottom picture the load would be, $120V \times 2 A = 240 \text{ Watts}$.

If the actual load of the customer's devices cannot be measured or located, the charts in the back of this section can provide an estimate of the required output of a generator. Remember the charts are just typical requirements and the customers actual needs may be different.

Once the load of all the devices have been recorded add them all up for the total Watts requirement for the customer's needs. If any sensitive electronics are in the line up, choose a generator capable of meeting or exceeding the total Watts for the devices the customer intends to use from the Inverter Series. If sensitive electronics aren't going to be used, a generator from the Premium family can also be selected.

Finally, make sure you understand what is important to the customer. For example if they want a quiet model, try to select a generator with an "S" in the model name, such as a EF3000iS. If easy starting is a goal of the customer, select an electric start model. Electric start models contain an "E" toward the end of the model name like the EF12000DE.

Generators Point of Purchase Items

Creating an eye catching display can help you not only attract customers, but assist you in showing off the features and benefits of the Yamaha Generator line up.

Generator Banners can be ordered with your regular parts order. Page 11-23 contains more information

Terms to Know

- Pulse Width Modulation** - Very clean and stable output with a waveform distortion ratio of 2.5% or less. This low distortion ratio means the output is cleaner than most commercial / residential power, making it safe to run sensitive computer equipment, televisions, and microchip-controlled power tools.
- Peak Output** - The amount of current that can be utilized for short time periods before the Thermal or Nonfuse Breakers (NFB) disconnects the output. This output level allows for jobs of short duration, requiring maximum output (tool startup).
- Rated Output** - The amount of current the generator can supply for continuous operation.
- 12 Volt DC Output** - The DC output is intended only to charge a 12-volt battery. If any 12-volt devices should be connected to a 12V battery and never to the 12V plug on the generator. It is possible that a device could be damaged if it is connected directly to a generator.
- Voltage and Frequency Standards** - In the U.S., standard commercial electricity is delivered at 110~120 V AC, and 220~240 V AC. The electrical frequency standard is 60 cycles per second (60 Hz).
- Electronic Breaker** - An electronic breaker circuit housed in the control unit of Yamaha Inverter generators. When output from the control unit exceeds a specific limit, output is automatically interrupted to protect the generator from damage.
- Thermal or No Fuse Breaker (NFB)** - Sometimes called a Non Fuse Breaker, this device acts like a fuse to interrupt power in the event of a sudden spike or surge in current. Unlike a fuse, however, the NFB can be reset.
- Smart-Throttle** - Because output frequency of an Inverter Generator is unrelated to engine rpm it becomes possible to utilize a wide range of engine rpm. This feature helps quiet running by choosing the minimum engine rpm necessary for the actual electrical load. A double coil system such as on the EF1000iS makes possible a higher output even at a low rpm setting. Smart Throttle ONLY applies to inverter models that have an electronic throttle servo motor to control engine speed.
- Economy Control (also called Economy Idle)** - Conventional generators, and in some cases inverter generators use economy control / idle. This function causes the unit to idle down when a load is not present.
- Ground Fault Interruption (GFI)** - Shuts down the power when a fault to ground is detected. A device that interrupts the power flowing through a GFI receptacle when a proper ground/earth ground is not present or a short were to take place - to prevent electrocution

Why Yamaha Generators

Electronics have become more a part of boating today than ever before. Almost every boat user could use a generator in one way or another. Whether it's for dock power, battery charging, to run appliances, or that beach party that was planned for weeks, boating customers need the convenience of a generator. With all the available generators on the market why would a customer want to buy Yamaha Generators?

Full Line of Accessories - Yamaha Generators offer a full line of accessories and optional parts, allowing customers to customize their generator to their needs. With other, commonly available generators, even if accessories are available they are mail order parts with no professional installation service available.

Yamaha Reliability - The same reliability that draws customers to Yamaha Outboards is available in every generator Yamaha offers. Just like an outboard, generators need to perform when the customer needs them. Worry free operation is a feature bargain branded generators can't offer.

Generator Overview

Inverter Series

As quiet, clean, and efficient as power gets. Yamaha Inverter technology is the way forward when it comes to light, quiet, clean, and portable power. Our high-quality inverter generators use Pulse Width Modulation to produce pure sine wave electricity. That means you have a source of electrical power that is as clean, or even cleaner, than municipal power so, unlike using cheap low quality generators, you can run computers and other electronic equipment with complete peace of mind. And Yamaha generators have advanced features to make them easy to live with and use. All models have an independent gasoline petcock, and on most models you'll find Noise Block™ technology for exceptionally quiet running as well as Smart Throttle™ for maximum fuel efficiency. With all these advantages, it will probably come as no surprise that many Yamaha generators also earn the longest engine durability rating from both the Environmental Protection Agency (EPA) and California Air Resources Board (CARB).

It's another way that Yamaha helps make your life easier, better, and brighter now and in the future.

Generators & Accessories

Yamaha power will be there when you need it. There's something to be said for experience. We've been building generators for more than 30 years now, and we've learned a few things along the way. Number one among them is that when you need power, you want the reliability of a Yamaha generator. Whatever your intended primary use, a big reason to own a generator is for emergency backup power at home. Advanced generator technology and features, quality materials and construction, and more than 30 years of doing things right add up to power that's there when you need it.

Inverter Series

EF1000iS

There's no excuse to be caught without power when the 28-pound, easy-to-carry EF1000iS is so easy to own. The EF1000iS is so compact and unobtrusive you'll enjoy using it almost anywhere: Noise Block design technology keeps it nice and quiet. And it's so efficient, thanks to Smart Throttle, that this little generator will run up to 12 hours on just 0.66 gallon of gas—easily powering up small appliances, computers, TVs and satellite systems with clean power from Yamaha's Pulse Width Modulation Inverter system. It even comes with cables for recharging 12-volt batteries.

The EF1000iS is ideal for:

- *Charging Batteries*
- *Small Electronics*
- *Emergency Power with Limited Space*

EF2000iSv2 EF2000iSHv2

EF2000iSv2

EF2000iSHv2

The ingenious EF2000iSv2 is powerful, portable, and retrocool. It delivers maximum output with minimum effort. Weighing a mere 44 compact pounds, it features an extra large handle for easy transport to your campsite, work site, fishing spot—almost anywhere. Fitted with Yamaha's most technologically sophisticated muffler, it's whisper quiet. And if you need extra juice, the EF2000iSv2 has you covered—a convenient parallel function lets you connect two generators to deliver up to 30 maximum amps. Meets U.S. and CARB environmental standards; it's the way to power up responsibly.

The EF2000iSv2 / EF2000iSHv2 is ideal for:

- *Charging Batteries*
- *Small Electronics*
- *Emergency Power with Limited Space*

The EF2400iSHC. HC stands for High Current, which means extra power to help start your motor-driven electric devices. This model uses Yamaha's powerful 171cc overhead-valve engine, contains all the latest Yamaha Inverter technology and puts out 2400 maximum watts of clean, pure power—enough juice to crank up a high-efficiency 13,500 BTU RV air conditioner. All in a package that weighs a mere 75 pounds! Which means the new EF2400iSHC is not only super quiet, but highly portable as well.

The EF2400iSHC is ideal for:

- Air Conditioners
- Small Electronics / TV's
- Emergency Power with Limited Space

EF2800i

There's a bunch of power and big-time features built into this compact 68-pound Inverter generator. Rated at 2800 maximum watts of output, this generator has an exceptional power output to weight ratio. Pulse Width Modulation produces high-quality, clean electricity that's ideal for powering computers and electronic appliances. Other features include AC and DC output, Smart Throttle that matches engine speed to current draw for delivering optimal fuel economy, an Oil Watch Warning System and AC non-fuse thermal breaker circuitry and the list goes on. We're talking big, reliable power in a small package.

The EF2800i is ideal for:

- Air Conditioners
- Small Electronics / TV's
- Emergency Power with Limited Space

EF2800i Quick Specs

EF3000iS

Powerful and super-quiet, this recoil-start generator features Noise Block, our unique sound-reduction system that provides unbeatable noise dampening; Smart Throttle load-sensing rpm control that offers greater fuel efficiency and noise reduction by automatically adjusting engine speed to match the load; Inverter System with Pulse Width Modulation (PWM) control that lets you safely run products with built-in microcomputers, or microcomputer-controlled electric tools; plus Yamaha's unmatched quality with standard three-year limited warranty. All of which make it the best value in the 3000-watt class.

The EF3000iS is ideal for:

- Air Conditioners
- Small Electronics / TV's
- Emergency Power with Limited Space

EF3000iSEB

Get ready for clean, quiet power. Lots of it. Because the EF3000iSEB is one of the world's most technologically advanced inverter generators. It features Yamaha's performance enhancing features, including Inverter Technology, Noise Block, Smart Throttle, Pulse Width Modulation, Oil Watch Warning System (for preventing engine damage) and built-in wheels for smooth, easy portability. The EF3000iSEB offers an incredible 19-hour run time at one-quarter load. Plus, the EF3000iSEB goes one step further with Yamaha Boost Technology® for an extra boost of power to start up big air conditioners and heavy-duty power tools. It's the perfect choice for House Boats or travel trailers.

EF3000iSEB is ideal for:

- *Big Air Conditioners*
- *Small Electronics / TV's*
- *Heavy Duty Power Tools*

EF4500iSE

The EF4500iSE picks up where our extremely successful EF3000iSEB leaves off, with even more power and fuel efficiency in a quiet, portable package. Designed for maximum fuel efficiency and minimum noise, its super-powerful engine allows it to run at the very low engine speed of just 2600 rpm—1000 rpm lower than other generators in its class. That slow engine speed pays off big time in reduced fuel consumption as well as less noise, vibration and engine wear. Naturally, it's got all the advanced features you expect from Yamaha, including an optional wireless remote control. The EF4500iSE truly is the ultimate boat accessory.

The EF4500iSE is ideal for:

- *Big Air Conditioners*
- *Small Electronics / TV's*
- *Heavy Duty Power Tools*

EF6300iSDE

Cranking out up to 6300 watts of pure sine wave inverter power, its fully enclosed casing makes it ultra quiet. And with sophisticated capabilities like dual 120-volt and 240-volt power, you can run almost any type of equipment with total confidence. From high-demand equipment such as well pumps, compressors and air conditioners to sensitive electronics like plasma TVs, satellite receivers and computers, the EF6300iSDE is ideal for outdoor recreation and power outage emergencies. Its excellent fuel efficiency means a run time of 13 hours at a constant one-quarter load on just a single tank of gas. Plus, its GFCI outlet and low noise level mean it's perfect for starting early or working late on the construction site making it the one workhorse you can't be without.

The EF6300iSDE is ideal for:

- *Big Air Conditioners*
- *Small Electronics / TV's*
- *Heavy Duty Power Tools*

EF2600

Rugged, lightweight and feature-packed, the EF2600 is an excellent compact generator for the home or work site, with the power to run many appliances as well as power tools. Compact and only 92.6 pounds, our smallest Premium Generator nonetheless comes with a big 2.9-gallon fuel tank (with gauge) that provides 7.8 hours of run time on a single tank of gas, along with non-fuse thermal breaker circuitry. Our Oil Watch Warning System protects the EF2600's heavy-duty 171cc engine, and a rugged rollover frame protects the outside. A mechanical governor delivers consistent engine speed for smoother power, while rubber mounts and a quiet muffler keep the noise to a minimum.

The EF2600 is ideal for:

- Power Tools
- Small appliances
- Air Conditioners

EF5500D & EF5500DE

Go ahead and power up both 120- and 240-volt equipment with either of these new compact and powerful generators. anything from air conditioners to power drills. A rugged 358cc Yamaha engine has no trouble spinning out 5500 watts of power from the maintenance free brushless alternator, and they've got all the perks, too: Transistor Controlled Ignition helps them fire right up and run super smooth; Noise Suppressor reduces interference with TVs and radios; Oil Watch Warning System prevents engine damage; and Economy Idle reduces fuel consumption and noise. Plus, the EF5500D/DE adds the convenience of push-button electric start! Whichever one you choose, they're each perfect for the dock, Boat, and home backup.

EF12000DE

Power hungry? Just cut to the chase, and wheel in our most powerful generator: 12,000 watts should be enough to satisfy whatever you need to power up—120 or 240 volts. The EF12000DE's brush-type AVR AC alternator draws its motivation from a powerful, reliable 653cc twin-cylinder engine that'll run up to eight hours between fill-ups. We wouldn't send our flagship out there without the full complement of features: Oil Watch Warning System, Auto Voltage Regulation, Transistor Controlled Ignition, Noise Suppressor, GFI, Electric Starting and Economy Idle—you name it, this powerful generator's got it.

YP20G

The YP20G uses a 171cc, OHV 4-stroke engine that is quieter, more powerful, and consumes less fuel than comparable engines. Pumps up to 169 gal/min (10,140 gal/hr) through a two-inch port. Impeller and volute case are cast iron for greater strength and durability; and they withstand wear from grit, sand, silt, etc. Standard National Pipe Thread (NPT) fittings connect easily with the suction and discharge hoses. Automatic oil warning system shuts off before oil level is low to prevent catastrophic damage to the engine.

YP30G

The YP30G uses a 171cc, OHV 4-stroke engine that is quieter, more powerful, and consumes less fuel than comparable engines. Pumps up to 259 gal/min (15,540 gal/hr) through a three-inch port and delivers up to 102 feet of total head, 26 feet of suction head. Impeller and volute case are cast iron for greater strength and durability; and they withstand wear from grit, sand, silt, etc. Dependable carbon-ceramic mechanical seals are durable, easy to replace and they reduce abrasion for long pump life. Standard National Pipe Thread (NPT) fittings connect easily with the suction and discharge hoses.

YP20T

The YP20T uses a 175cc, OHV 4-stroke engine that is quieter, more powerful, and consumes less fuel than comparable engines. It has a powerful pump, pumping up to 184 gal/min (11,040 gal/hr) through a two-inch port and delivering a 92-foot total head, with a 26-foot suction head. The pump can handle solids up to .79" (20 mm). With this durable pump, impeller and volute case are cast iron for greater strength and durability, they withstand wear from grit, sand, silt, etc. With an outstanding seal durability, a newly adopted Japanese-made silicone carbide (SIC) seal that has better durability compared to conventional carbon ceramic seals. This pump contains 2-inch standard National Pipe Thread (NPT) fittings that connect easily with the suction and discharge hoses. It comes with a 3 year industrial and residential limited warranty with optional Y.E.S. for customer peace of mind.

YP30T

The YP30T uses a 296cc, OHV 4-stroke engine that is quieter, more powerful, and consumes less fuel than comparable engines. YP30T delivers a 79-foot total head, with a 26-foot suction head and can handle solids up to 1 1/16" (27 mm). It has a Durable Pump - Impeller and volute case are cast iron for greater strength and durability; and they withstand wear from grit, sand, silt, etc. Outstanding Seal Durability - Newly adopted Japanese-made silicone carbide (SIC) seal - has better durability compared to conventional carbon ceramic seals. 3-inch Standard National Pipe Thread (NPT) fittings connect easily with the suction and discharge hoses. YP30T has a 3 year industrial and residential limited warranty with optional Y.E.S. for customer peace of mind.

YP40T

The YP40T is ideal for dewatering applications such as job site excavations, mining sites, lakes, ponds and barge holds. The pump has the capability to move massive amounts of water at 26,940 gal/hr. Has an automatic oil warning shut off before oil level is low to avoid costly repairs and down time. Additional 1, 2 or 3 years of Y.E.S. is available.

Quick Specs	SP20E	SP20ESM	SP20ET

SP20E

The SP20E is a small but efficient 1/2 hp electric pump made of heavy duty cast iron. SP20E is equipped with a 2-inch side discharge that can move 79 gallons per minute while only weighing 29 pounds. SP20E is protected with double mechanical seals and thermal protection. SP20E has a 20 ft. power cord with a uni-body construction to ensure water tightness.

SP20ESM

The SP20ESM is a small but efficient 1/2 hp electric pump made with durable blended rubber impeller and casing. SP20ESM is equipped with a 2-inch side or top/side discharge that can move 68.5 gallons per minute while only weighing 24 pounds. SP20ESM is protected with double mechanical seals and thermal protection. SP20ESM has a 20 ft. power cord with a uni-body construction to ensure water tightness.

SP20ET

The SP20ET is a small but efficient 1/2 hp electric pump made with heavy duty cast iron. SP20ET is equipped with a 2-inch side discharge that can move 79.3 gallons per minute while only weighing 33 pounds. SP20ET can handle solids up to 5/8" including leaves and sewage. SP20ET is protected with double mechanical seals and thermal protection. SP20ET has a 20 ft. power cord with a uni-body construction to ensure water tightness.

Generator Accessories

A full line of generator accessories is another great reason customers want Yamaha. With other brands bought at department stores and other chain stores accessories, if they're offered, are available through the mail with no personalized service to ensure your customer gets the parts they need. For a quick overview of some of the many accessories available for Yamaha Generators, see the charts below.

Generator Covers

Protect your investment during storage with a cover made from premium Sur Last® polyester fabric. This UV-resistant material fights fading while protecting your equipment from the elements. A special urethane coating lets moisture escape from underneath while remaining water repellent. The cover is mold and mildew resistant, as well as tear and abrasion resistant for durability.

EF2400iSHC Four Wheel Kit

For ease of maneuverability, these wheel kits are ideal. Heavy-duty solid wheels to eliminate flats.

ACC-GNWHL-24-00

Wired Remote Starter Kits

Extra convenience for getting up and going when you need to. Features a 33-foot cord with remote starter switch. Available for all electric-start premium models.

7VW-Y8720-00-00

Fits EF12000DE

7PB-Y8720-A0-00

Fits EF5500DE/D, EF7200DE/D

Wireless Remote Control Kit

Start your generator remotely with the wireless remote control kits. Just like remote start kit for automobiles, there is no need to face the elements to get the power of a Yamaha Generator flowing.

7XF-Y8600-00-00

Fits EF4500iSE and EF6300iSDE

Wireless Remote Control Kit

Start your generator remotely with the wireless remote control kits. Just like remote start kit for automobiles, there is no need to face the elements to get the power of a Yamaha Generator flowing.

ACC-GNRST-50-00

Fits EF3000iSE/iSEB

Optional Parts for Wireless Remote Control Kit

ACC-GNRST-50-00

Replacement Key Fob Transmitter

ACC-GNRST-30-20

Optional External Antenna

ACC-GNRST-30-10

Sidewinder™ Parallel Power Cable

Combine the power of two Yamaha EF2000iS generators. Includes polarized IP30 banana plugs, quick connection to parallel jacks on both generators, color-coded wire leads, exclusive flexible tip construction that resists breakage, rugged over-braided cable design, and a handy Velcro® mounting system. Compatible with a standard 30A RV cord (plugs directly into all 30A RV cables). Works with a pair of EF2000iS generators.

ACC-0SS55-70-01

Twin Tech™ Cable

Connect two EF2000iS generators for max. 30 amps and rated 25 amps of power. Includes standard 30 amp twist-lock receptacle (NEMA® L5-30). Works with a pair of EF2000iS generators.

(For RV use, adaptor (ACC-RVADP-PL-UG) required, sold separately.)

Standard 30 Amp Cable **7PB-YH579-10-00**

RV 30 Amp Cable **7PB-YH579-70-00**

RV Adapter Kit

Plug has a 30A receptacle for RV use. Required if connecting the Twin Tech cable to RV.

ACC-RVADP-PL-UG

Yamaha Engine Meter

To help you maintain your generator at proper service intervals, the intervals are pre-programmed into this meter (10 hours initial, every 50 hours thereafter). Upon reaching the specified service interval, the meter displays a flash alert for a two-hour period. Works with all Yamaha gasoline generators and pumps.

Deluxe Hour Meter (Hour Meter Only): **ENG-METER-2C-01**

Deluxe Hour Meter & Tachometer: **ENG-METER-4C-01**

AM/WATT® Appliance Load Tester by Reliance Controls

Gives quick, accurate readout of watts or amps used by 120 volt AC electrical devices (1875 watts maximum) such as: refrigerators, dehumidifiers, space heaters, and much more. Has a 26" cord to reach remote electrical outlets. Easy amps/watts slide switch. Tester is perfect for matching appliance loads to generator power output.

Pressure Washer and Accessories

Yamaha Turbo Nozzle

Cleans up to 50% faster than a standard nozzle. Delivers 0° rotating spray pattern for faster cleaning. Works with many gas-powered pressure washers up to 4200 psi.

ACC-31048-00-13

Yamaha Wand Extension Kit

Extend the length of your pressure washer wand 36" for easier reaching. Includes quick-connect adapter to transform any threaded nozzle into a quick-connect nozzle. Works with many gas-powered washers up to 4500 psi.

ACC-31053-00-13

Yamaha Replacement Wand

Ideal upgrade for old or worn out spray wands. Quick-connect capable for easy attaching of all quick-connect accessories. Works with many gas-powered washers up to 4500 psi.

ACC-31049-00-13

Yamaha Nozzle Kit

Includes 0°, 25°, 40°, Soap, and 800 psi nozzles for cleaning a variety of surfaces. Heavy-duty electropolish finish for more durability and longer performance life. Includes 800 psi nozzle for safe cleaning of delicate surfaces. Works with many gas-powered pressure washers up to 4500 psi.

ACC-31055-00-13

Yamaha Telescoping Pole

Adjustable height extends between 7 ~ 16.5'. Quick-connect capable for easy attaching. Angled wand tip for more direct contact with high surfaces.

Works with many gas-powered washers up to 4200 psi.

ACC-31044-00-13

Yamaha Gutter Cleaner

Fast and effective gutter cleaning. Two high-pressure water jets blast debris out and away. Directs debris and water away from the user for clean, dry operation. Quick-connect capable for easy attachment. Recommended for many gas-powered washers up to 3300 psi. Recommended for use with extension wands.

ACC-31051-00-13

Yamaha Garden Hose Adapter Kit

Quick-Connect adapter for your garden hose. Snap your garden hose directly into your pressure washer pump. Recommended for use with many gas-powered washers up to 4500 psi.

ACC-31054-00-13

Yamaha Surface Cleaner

Cleans large surfaces up to 4x faster than a standard nozzle. Rotating nozzles provide streakfree, even cleaning. 15" cleaning path for much faster cleaning. Attaches easily to any quick connect capable pressure washer. Recommended for many gas-powered washers up to 3300 psi.

ACC-31056-00-13

Yamaha Steel Braided Hose

Steel-braided construction for durability and long life. Quick-connect capable for easy attaching. 30 ft. for more reach than standard hoses. Links to existing hoses for longer reach. Recommended for many gas-powered washers up to 3300 psi.

ACC-31057-00-13

CAT Pumps® Oil

Premium Grade oil promotes better performance and longer pump life. Anti-corrosion technology keeps your pump conditioned and protected. Anti-wear stabilizers for reliable performance day after day.

Yamalube® Products

Foam Air Filter Oil

Helps protect against dirt, dust and water. For use only with foam air filters. Minimum order quantity is 4.

Pint Bottle: **ACC-FOAMF-LT-ER**

Bio-degradable Foam Air Filter Oil & Cleaner Kit

Kit contains a non-alcohol-based, dirt-grabbing, water resistant, super-tacky filter oil and heavy-duty, concentrated detergent, specifically developed to clean foam air filters. This Air Filter Oil can only be washed out with the Biodegradable Foam Air Filter Cleaner and water. It won't wash out with gasoline, solvents or water alone. Minimum order quantity is 12.

2 - 16 OZ Bottles: **ACC-BIFMF-LT-KT**

Air Filter Cleaner

Air Filter Cleaner is used to clean foam & fabric air filters that have been treated with petroleum based oil. Use this cleaner to clean filters treated with Yamalube Foam Filter oil. Minimum order quantity is 4.

Gallon Bottle: **ACC-FOAMF-CL-GL**

10W-30 Golf Car and Generator Oil

Specially formulated mineral base oil and additive system for the rigors of a constant load and frequent start-ups as found with the normal operation of a Golf Car or Generator.

Quart Bottles: **LUB-10W30-GG-12**

5 Gallon Bucket: **LUB-10W30-GG-05**

55 Gallon Drum: **LUB-10W30-GG-55**

MAINTENANCE MATTERS

*For Those Who Want
the Good Times To Last*

Reliability. It may start with a Yamaha, but it's sustained with proper care and maintenance. Yamaha offers everything customers need to keep their outboard and boat ready to run.

Regular maintenance is critical for the continued proper operation of any engine. Add in the fact that an outboard operates under some of the harshest environmental conditions imaginable, and maintenance becomes even more critical. High load, high-RPM operation, extreme temperatures, high moisture and periods of non-use all take a toll on an outboard. For these reasons, regular maintenance is vital for care free days on the water.

Remember, Maintenance Matters.

Boat smart from the start. Take a boating safety course and get a free vessel safety check annually for your boat. For more information, contact: United States Coast Guard Auxiliary online at www.cgaux.org or the United States Power Squadrons at 888-FOR-USPS or www.usps.org. Remember to always observe all applicable boating laws. Never drink and drive. Dress properly with a USCG approved personal flotation device and protective gear.

While every effort has been made to ensure accuracy of the information contained herein, specifications and measurements are approximations and subject to variances. Yamaha does not guarantee such accuracy and can't be held liable for any errors or any reliance upon this information.

This document contains many of the valuable trademarks and service marks owned by Yamaha throughout the world. The document may also contain references to other company, brand and product names that may be the trademarks/service marks of their respective owners. These companies, brand and product names are used herein for identification purposes only, and reference to any names, marks, products or services of third parties do not constitute or imply endorsement, sponsorship or recommendation of the third party or the products or services.

Availability subject to production, stocking, and demand. Current availability can be found using YMBS (www.yamaha-dealers.com/outboards).
