## ROŠTILJI I PLANCHA ROŠTILJI

The Marine PLANCHA®, installed on the table leg or on the fishing rod support, becomes an element of envy. Certified Origin France Guaranteed, it is esthetic, solid and robust, and is perfectly adapted for your cruises. Tilted depending of the wind thanks to its stainless steel cover lid, the time of a swim in the sea or an aperitif, it allows to cook all types of foods, whole fishes or in filets, shellfish, vegetables, meat and even fruits! Easily stored or protected by its (optional) stainless steel cover, LA PLANCHA® will become the essential cooking appliance of all your meals.

Pomorski PLANCHA® ploča-roštilj, instaliran na nogu od stola ili na držač štapa za ribolov, predstavlja pravi razlog za zavist. Certificiran oznakom zajamčenog francuskog podrijetla, privlačan je, čvrst i robusan, te savršeno prilagođen za krstarenja. Naginjanje koje je inače ovisno o vjetru, zahvaljujući svojem pokrovu od nehrđajućeg čelika, dopušta vremena za kupanje u moru ili aperitiv, omogućuje kuhanje sve vrste hrane, cijele ribe ili u filetima, školjaka, povrća, mesa, pa čak i voća. Lako se sprema ili samo zaštititi svojim (po izboru) poklopcem od nehrđajućeg čelika, LA PLANCHA® roštilj će postati neophodno pomagalo za kuhanje svih vaših obroka.
