

The Way  
to Fish®

# Scotty®

**SINCE 1952**

## YEARS OF QUALITY, INNOVATION AND CUSTOMER SERVICE

A family business for over 66 years, Scott Plastics Ltd. has grown from a local BC company to operating and shipping worldwide. The company is now situated near the YYJ Victoria International Airport in an 85,000 sq.ft. manufacturing plant built in 2000, and has recently expanded. The Scotty trademark has become recognized to mean product excellence. The total commitment to quality, fair pricing and unmatched service means our customers everywhere can expect reliability and satisfaction from every product that carries the Scotty name. This commitment has taken us to where we are today and will hopefully serve us well for many years to come. All products are backed by years of manufacturing experience and the highest quality customer service. Excellent vendor support and a superior product have made Scotty a leader in the fishing industry.

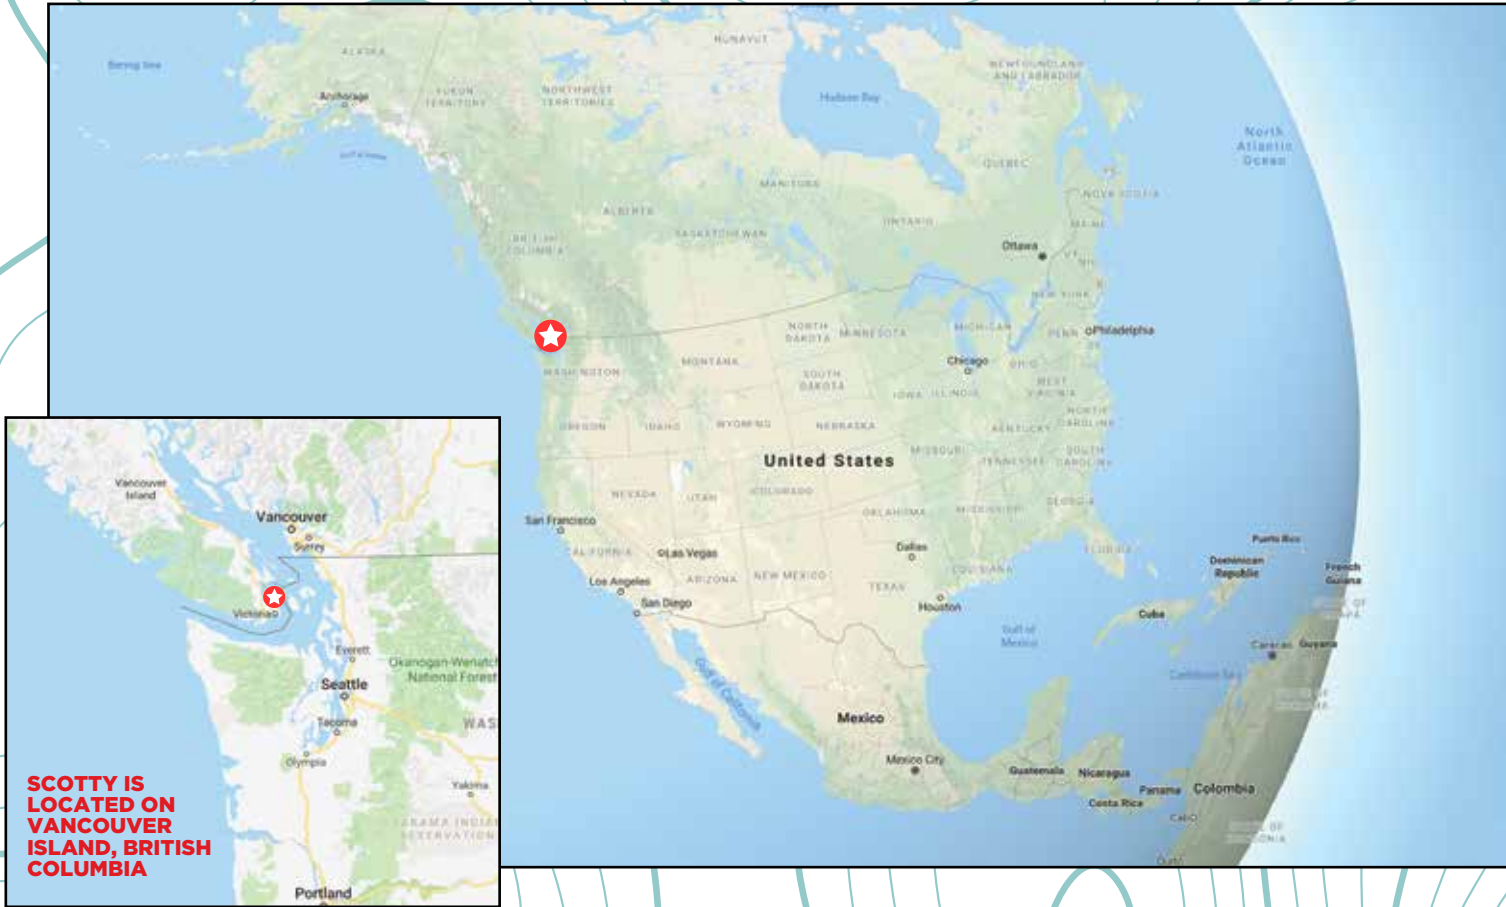

## SCOTTY: THE WAY TO FISH!

In 1952, Blaney Scott and his wife Almada Scott started a small company in Victoria British Columbia that pioneered the use of plastics in the manufacturing of salmon fishing, lures and other marine products. From humble beginnings, Scott Plastics Ltd. evolved to produce thousands of products under the Scotty trademark which are sold to the fishing, marine, outdoor and firefighting industries worldwide.

# What is a Downrigger?

## FIGHT THE FISH, NOT THE FISHING GEAR

Downriggers were created for one principal reason: to allow anglers to troll their lures at a specific depth. Years of testing and practical use have shown that a moving bait or lure in the water, trolled at the depth where fish are present, is the best way to ensure a hookup and to get results. Downriggers improved both trolling results, and the fun factor. They put the sport back in sport fishing. The earliest Downriggers were very simple in form, generally consisting of a spool of wire mounted to the

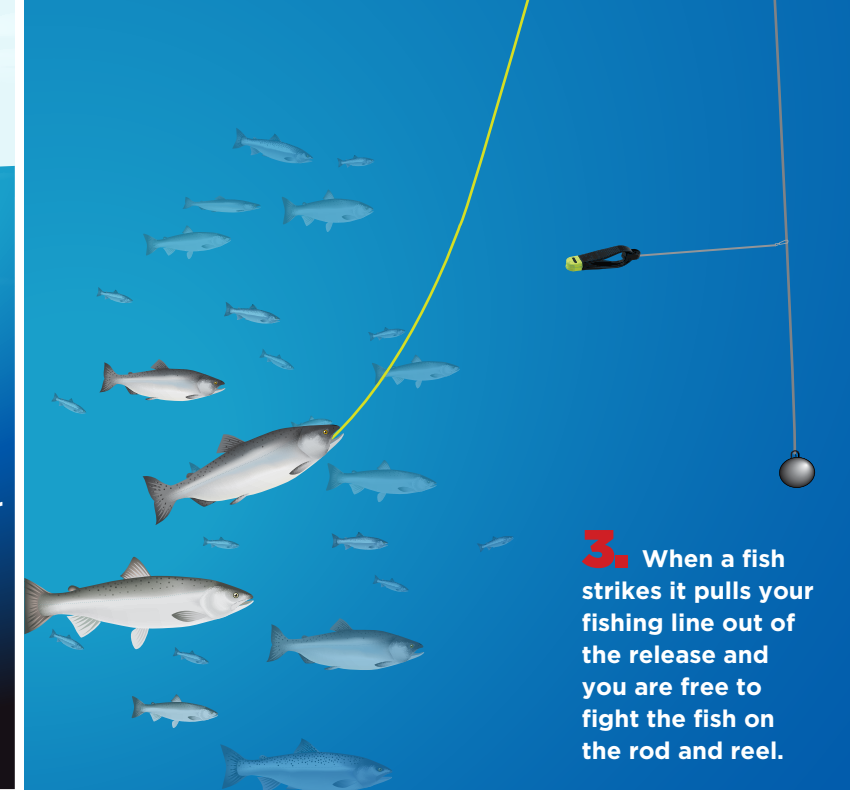

boat with a heavy weight hung on the end of the wire. The lure or bait was attached directly to the Downrigger weight and did not release when a fish struck. The angler had to wind up both the weight and the fish. This concept of deep trolling became popular with sport fishermen when the idea of attaching a rod to the Downrigger, by means of a release clip, was introduced. A release clip is attached to the wire and then the fishing line from the rod is clipped into the release. The Downrigger

weight is then lowered to precisely the depth required. When a fish hits, the line is released from the Downrigger wire, leaving the heavy weight on the Downrigger. The angler is then free to fight the fish on the rod and reel alone, without the added drag of heavy lines and trolling weights used in the past. Scotty introduced its first Downrigger over 40 years ago and now produces the most complete range of Downriggers and accessories in the world.

**1.** Clip your fishing line to the Downrigger line using a Scotty Power Grip line release.

**2.** Loosen the drag on your fishing reel and carefully let the Downrigger line out to a specific depth.

**3.** When a fish strikes it pulls your fishing line out of the release and you are free to fight the fish on the rod and reel.

# Choosing your Downrigger

## ELECTRIC DOWNRIGGER SPECS

All Electric Models have 12 v Marincor™ corrosion resistant plug + socket, locking tilt up mount, large surface automatic brake, spray protected positive-drive depth counter, Kevlar™ belt driven and an auto stop with jog button feature. **EACH SCOTTY DOWNRIGGER IS FACTORY ASSEMBLED AND LOAD TESTED.**

# High Performance

Scotty High Performance Electric Downriggers have reached the highest performance and reliability standards yet, while remaining competitively priced. Thousands of anglers now enjoy the superior speed, power and years of reliability that only Scotty offers. Scotty's custom designed marine components and final quality control tests produce a Downrigger that is unmatched in the industry.

## FEATURES INCLUDED WITH ALL HIGH PERFORMANCE MODELS

-  **Line Release**  
Power Grip Plus 18" (1170)
-  **Rod Holder**  
Rocket Launcher (469)
-  **Mounts**  
Tilt-up Mounting Bracket (1023)  
  
Swivel Mount (1026)  
  
Right Angle Marinco® Receptacle Mount (2128)
-  **Auto Stop** (1121)
-  **Auto Stop Beads**
-  **Weight Storage**  
Storage Hook (1148)
-  **Power Source**  
Marinco® 12V Plug & Receptacle (2125)  
  
Power cord length, 40"
-  **Downrigger Cable/Line**  
300 ft. of 180 lb. test stainless steel cable, 300 ft. of 250 lb. test braided line (2106B model)
-  **Counter**  
Digital Illuminated LCD (2132)
-  **Factory & Field Tested**
-  **Fully Assembled**
-  **Warranty**  
Limited Lifetime

**2106 HIGH PERFORMANCE**  
The Downrigger of choice for serious fishermen. Unmatched in power, performance and reliability. Equipped with 300 ft. of 180 lb. test stainless steel cable. 36"-60" 1 1/4" telescopic stainless steel boom.

**2106B HIGH PERFORMANCE**  
Power and performance packaged with our strongest braided Downrigger line. Equipped with 300 ft. of 250 lb. test braided line. 36"-60" 1 1/4" telescopic stainless steel boom.

**2116 HIGH PERFORMANCE PROPACK**  
The number one choice in performance Downriggers for the charter captain. Equipped with 300 ft. of 180 lb. test stainless steel cable and our stainless steel rocket launcher dual rod holders. 36"-60" 1 1/4" telescopic stainless steel boom.

# Depthpower

Scotty Depthpower Electric Downriggers have the highest performance and reliability standards ever, while remaining competitively priced. Thousands of fishermen now enjoy the superior speed, power and years of reliability that only Scotty offers. From custom designed marine motors to the final quality control tests, Scotty performance is unmatched in the industry.

## FEATURES INCLUDED WITH ALL DEPTHPOWER MODELS

-  **Factory & Field Tested**
-  **Fully Assembled**
-  **Warranty**  
Limited Lifetime

**1080 STRONGARM**  
This Downrigger has outstanding features for small and intermediate size boats. Equipped with 200 ft. of 150 lb. test stainless steel cable. 24" long, 1" dia. boom.

**1085 STRONGARM**  
The heavy duty workhorse of the Scotty manual lineup. Excellent for the intermediate size boat. Equipped with 200 ft. of 150 lb. test stainless steel cable. 30" long 1 1/4" dia. boom.

**1091 LONGARM**  
Ideal for big boats. Equipped with 200 ft. of 150 lb. test stainless steel cable. 36-60" long 1 1/4" dia. telescopic boom. Includes 1026 Swivel Mount.

# Compact

The Depthmaster and Depthking models offer more value for the anglers than anything else on the market. The price and operating features of these units beat the competition hands down.

## FEATURES INCLUDED WITH ALL COMPACT MODELS

-  **Line Release**  
Power Grip Plus 18" (1170)
-  **Rod Holder**  
Rod Master II (358)
-  **Mounts**  
Quick Slide Deck Mount (1010)
-  **Downrigger Cable/Line**  
200 ft. of 150 lb. test stainless steel cable
-  **Counter**  
Mechanical (1146)
-  **Factory & Field Tested**
-  **Fully Assembled**
-  **Warranty**  
Limited Lifetime

**1050 DEPTHMASTER**  
The perfect introductory Downrigger. One foot per turn of the spool. 23" long, 3/4" dia. boom.

**1050MP MASTERPACK**  
The perfect clamp on Downrigger. 23" long, 3/4" dia. boom. Includes 1021 portable anodized aluminum clamp mount.

**1060 DEPTHKING**  
Ideal for the small boat that fishes deep and needs a high speed retrieve. Includes a high speed 2 ft. per turn of the spool. 23" long, 3/4" dia. boom.

# Lake Troller

Laketroller Downriggers built for the smaller boat. Great for aluminum boats, kayaks and canoes.

## FEATURES INCLUDED

-  **Line Release**  
Mini Power Grip Plus 18" (1181)
-  **Downrigger Cable/Line**  
100 ft. of 150 lb. test stainless steel cable
-  **Factory & Field Tested**
-  **Fully Assembled**
-  **Warranty**  
Limited Lifetime

**1071 CLAMP MOUNT**  
Comes with fully portable engineering grade modified nylon clamp for mounting on the gunnel or transom (2" opening) Great for aluminum boats and canoes. 1 ft. per turn of the spool. Includes 1181 mini power grip line release.

**1073 BRACKET MOUNT**  
Mounting bracket permits mounting on a flat deck surface or on the side of a gunnel or transom. The mounting design gives 360° of rotation. Comes with a 241 Side Deck mount. 1 ft. per turn of the spool. Includes 1181 mini power grip line release.

**376** for 60" boom.

**377** for 30" boom with Snubber.  
**378** for 60" boom with Snubber.

# Line Releases

Fishing line is gripped between the soft pads and variable release tension is attained by moving the line in or out of the jaws. The "tension adjuster" doubles the holding power if needed. Streamlined design won't snag on weeds or foul lines.

1. Attach to your Downrigger Cable or Cannonball.
2. Attach your fishing line to the Power Grip release by squeezing the jaws apart and placing your fishing line between the pads. The release tension is lighter at the outer tip, and is heavier the further into the jaws you place the line.
3. The tension adjuster can be moved forward to decrease or back to increase the release tension.

## ROCKET LAUNCHER

## SIDEWINDER

# Rod Holders

## BAITCASTER SPINNING

Holds a bait caster reel securely in the cushioned cradle. A slot in the front of the rod holder allows for secure holding of a spinning reel. This rod holder is designed with a side mounted flange which leaves the bottom open, this allows for the rod holder to accommodate trigger grips. Rods can be secured with a soft latching strap which snaps over the top for baitcaster or under the bottom for spinning reels.

Works in conjunction with 241 Side Deck Mount (7/8" and 1" round rails) ○○○

**340**  
**TRACK ADAPTER**  
Convert your 3 1/2" track into a Scotty Post Mount. Scotty Side Deck Mount required.

**423**  
**DOWNRIGGER ROD HOLDER ADAPTER**  
Convert your 1023 tilt-up mounting bracket into a rod holder mount. Scotty Side Deck Mount required.

**243**  
**1/4" SQUARE RAIL MOUNT**

**245**  
**1/4" ROUND RAIL MOUNT**

**287**  
**7/8" ROUND RAIL MOUNT**

**248**  
**OARLOCK MOUNT**  
Use the oarlock mount on your row boat to mount any Scotty post mount rod holder or accessory.

**449**  
**CLAMP MOUNT**  
Fully portable mounting option for all Scotty post mount rod holders and accessories, maximum clamp opening 2".

**433**  
**COAMING/GUNNEL CLAMP MOUNT**  
Position your rod holder or accessory virtually anywhere on the lip of your kayaks coaming or boat gunnel, maximum clamp opening 1 1/2".

## TRIPLE MOUNTING SYSTEM

Designed to be a multi-functional rod holder or accessory platform for any watercraft.

**257**  
**TRIPLE MOUNT**  
241 Side Deck Mount.

**362**  
**TRIPLE MOUNT**  
Fixed Mount.

# Mounts

## DOWNRIGGER MOUNTS

**1027 RAIL MOUNT**  
Fits up to 1 1/2" round rails, including oval-shaped wooden rails. Transfers the downward pressure to the boat gunnel. Fits all Scotty Downriggers (except Laketrollers) and can be used with 1026 Swivel Mount.  
**Dimensions: 6 1/8" x 7 7/8"**

**1036 MOUNTING PLATE**  
Extra mounting plate for 1026 Swivel Mount and 2606/2612 Pedestal Risers.  
**Dimensions: 5 1/2" x 5 1/2"**  
**Bolting dimensions: 4 1/2" x 3 1/2"**

**1037 MOUNTING PLATE**  
Extra mounting plate for 1025 Right Angle Side Gunnel Mount.  
**Bolting dimensions: 2" x 4" (side plate)**

**2027 STANCHION MOUNT**  
The Scotty Stanchion Mount enables you to quickly mount a Downrigger to your boats railing stanchion for extra stability. Fits all Scotty Downriggers (except Laketrollers) and can be used with 1026 Swivel Mount.  
**Dimensions: 6" x 6" x 6" (top plate)**  
**Bolting Dimensions: 2" x 4" (side plate)**

**1028/1029 GIMBAL MOUNT - 9" GIMBAL MOUNT - 12"**  
Made from welded stainless steel for strength and durability. For use in factory mounted gimbal rod holders only. Fits all Scotty Downriggers (except Laketrollers) and can be used with 1026 Swivel Mount.  
**Dimensions: 1028 6 1/8" x 7 7/8" (top plate) 9" x 1 1/2" dia. (gimbal)**  
**1029 6 1/8" x 7 7/8" (top plate) 12" x 1 3/4" dia. (gimbal)**

**2606/2612 PEDESTAL RISER - 6" PEDESTAL RISER - 12"**  
Made from 2" stainless steel tubing for the ultimate in strength and durability. Designed to be used with 1026 Swivel Mount, 1023 tilt-up Downrigger mount and 1010 compact Downrigger mount.  
**Plate Dimensions: 5 1/2" x 5 1/2"**  
**Bolting Dimensions: 3 1/2" x 4 1/2"**

**1023 TILT-UP MOUNTING BRACKET**  
Extra mounting bracket for all Scotty tilt-up Downriggers. Also used as the mounting bracket for the Scotty 2500 Line Puller.  
**Dimensions: 2 1/2" x 4 1/2"**  
**Bolting dimensions: 3 3/4" x 1 5/8"**

**1025 RIGHT ANGLE SIDE GUNNEL MOUNT**  
For boats with narrow or uneven gunnels. Fits all Scotty Downriggers (except Laketrollers) and can be used with 1026 Swivel Mount.  
**Dimensions: 6" x 6" x 6" (top plate)**  
**Bolting dimensions: 2" x 4" (side plate)**

**1026 SWIVEL MOUNT**  
Gives a full 360° of rotation with 16 locking positions. Comes with 1036 Mounting Plate. Fits all Scotty Downriggers (except Laketrollers)  
**Dimensions: 5 1/2" x 5 1/2" x 4"**  
**Bolting dimensions: 3 1/2" x 4 1/2"**

## COMPACT DOWNRIGGER MOUNTS

**1021 PORTABLE CLAMP-ON BRACKET**  
Portable mounting option. Great for aluminum boats. Double stainless steel bolts and black anodized aluminum. 2" clamp opening. To be used with 1010 mounting bracket (sold separately)  
**Dimensions: 5 5/8" x 4 3/4" x 3 1/8"**

**1015 SIDE MOUNT BRACKET**  
For boats with narrow or uneven gunnels. Fits 1050 Downriggers. To be used with 1010 mounting bracket (sold separately)  
**Dimensions: 5 1/4" x 2 1/2"**  
**Bolting Dimensions: 4 7/16" x 1 5/8"**

**1010 QUICK-SLIDE DECK MOUNTING BRACKET**  
Works with the 1025 through 1029 optional mounts.  
**Dimensions: 4 3/4" x 5 5/8"**  
**Bolting Dimensions: 2 5/8" x 4 7/8"**

## DOWNRIGGER DUAL ROD HOLDER

**247 DUAL ROD HOLDER**  
Designed for use with the 1026 Swivel Mount.

**347 DUAL EXTENDED ROD MASTER II ROD HOLDER**  
Designed for use with the 1026 Swivel Mount.

**447 DUAL ROCKET LAUNCHER ROD HOLDER**  
Designed for use with 1026 Swivel Mount.

# Sea-light

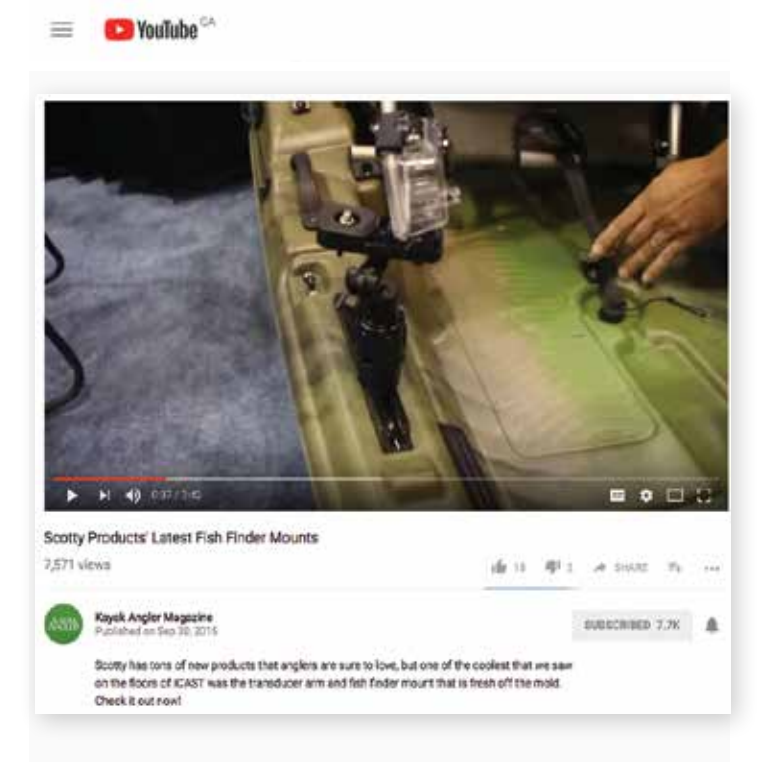

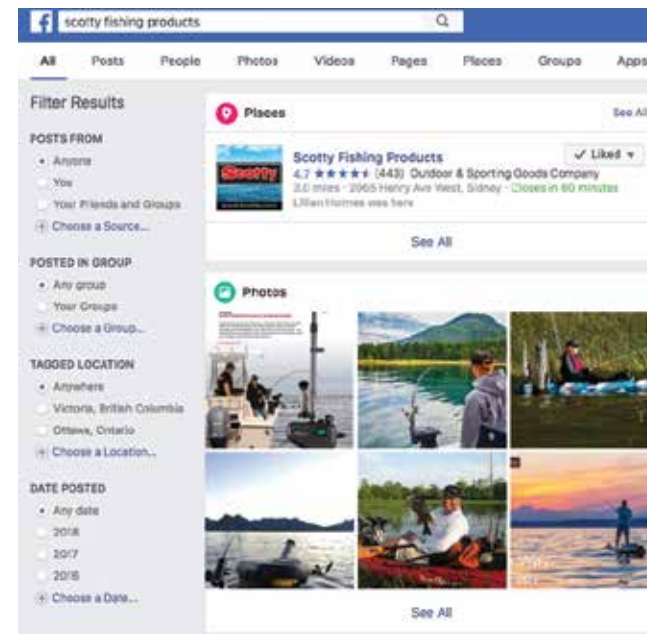

ACR detachable, fully sealed LED C-Light™, bright 20 Lumen White LED for location assistance during emergencies. Easy twist ON/OFF activation that is waterproof tested. Impact resistant construction and is USCG/SOLAS approved. C-Light™ is easily removed and can be attached to life jackets, backpacks or hang from a pocket. C-Light™ requires two "AA" 1.5V batteries (batteries not included) C-Light™ has an extensive and continuous operating life for over 30 hours.

## 835 SEA-LIGHT WITH SUCTION CUP MOUNT

A non-permanent safety addition that is perfectly portable for kayaks and small watercraft. Designed to meet the demands of the sea but also ideal for within a vehicle, for camping and whenever a reliable high efficient light is needed. Includes versatile suction cup mount for use in both salt and fresh water.

## 838 SEA-LIGHT WITH POLE & BALL MOUNT

The Scotty Ball System joint design enables a smooth and complete full range of motion for the Sea-Light. The corrosion proof construction of this system provides a long service life in both fresh and salt water applications as it is designed with stainless steel fasteners and a stainless pole. Base Mount Dimensions: 2 ¼ x 2 ¼ Overall Height: Stands 41" tall Sea-Light Pole Diameter: ½".

# Jordan-Scotty

## FISH EGG INCUBATOR SYSTEMS

### Purpose

The critical need to enhance our salmon and fish stocks is well documented. Natural spawning has declined dramatically over the past few decades for many reasons. Many of the spawning areas no longer exist. The areas that do still exist are only partially effective and many of our original salmon stocks are now extinct. The need for enhancement programs by volunteers and organizations has never been greater. The availability of the Jordan-Scotty Fish Egg Incubator unit can be of great help for our precious salmon and other fish stocks and their eventual recovery.

The development of the Jordan-Scotty Fish Egg Incubator is the direct result of the desire by Scotty to make a contribution to the enhancement of the salmon, trout and walleye stocks in the streams and creeks around the world. Over the years, due to human interference, these habitats have lost their natural spawning and rearing capabilities. At Scotty, we hope that our efforts will assist bringing the fish back. With your help, future generations will be able to watch fish return to streams and rivers in historic quantities.

**For use by everyone who is interested in enhancing salmon and other fish runs in any stream, river or lake. Perfect for streamkeeper groups, research applications and education projects.**

### History and Design

The original incubator prototype was designed and tested by Mr. Fred Jordan, a Salmonid Technician for many years. He conceived the idea for stream enhancement during the 1980's. The success of his early experiments with this unit led to research, development and further design of the incubator by Scott Plastics Ltd. Sidney, BC. This unit is extremely efficient and very compact. It is simple to use, durable, cost effective and practical, making it an excellent addition to enhancement projects.

The Jordan/Scotty Fish Egg Incubator is a scientifically designed and tested plastic incubation unit and was developed to provide an efficient aid in the stream incubating of fish eggs. The unique design either eliminates or minimizes most of the problems experienced by natural spawning.

Fungus infection is virtually eliminated and eggs are protected from predators and silt suffocation. Testing and usage indicates that survival rates from egg to fry is often better than 65-95% as compared to natural spawning survival rates of between 5-20%.

In nature, high egg loss rates can easily be caused by poor fertilization when deposited eggs not being successfully buried, fungus from dead eggs spreading to healthy eggs, attrition by predators, and silt suffocation. The Jordan-Scotty Fish Incubator addresses these issues and others. Egg quality can be checked during the loading process and all eggs are fertilized before loading. Eggs are quarantined from each other during development, limiting the spread of disease and fungal infection. Eggs are safe from predators and alevin are safely contained until their yolk sac have been absorbed, increasing survival rates.

### How It Works

A pair of loaded plates are bolted together to create a "unit" designed to hold 200 single eggs or more, depending on species and size of egg. The plates are held together by nylon tie bolts and stainless steel nuts and can be grouped in up to 5 unit sets. Escape holes allow the hatched fry to swim free once they have developed in their protected environment. The assembled egg units are anchored in streams by securing them to re-bar stakes or some other permanent holders.

Incubator plates are available with three sizes of escape hole, use to be determined by using our Incubator chart.

### How to Obtain Jordan-Scotty Fish Egg Incubators

These Egg Incubator units are available at a nominal price to cover minimum raw materials and labour costs. Incubators can be purchased from:
